Council Member

All agenda items and reports are available for review in the City Clerk's Office and www.hpca.gov. Any writings or documents provided to a majority of the City Council regarding any item on this agenda (other than writings legally exempt from public disclosure) will be made available for public inspection in the Office of the City Clerk located at 6550 Miles Avenue, Huntington Park, California 90255 during regular business hours, 7:00 a.m. to 5:30 p.m., Monday – Thursday, and at the City Hall Council Chambers during the meeting.

Any person who requires a disability-related modification or accommodation, including auxiliary aids or services, in order to participate in the public meeting may request such modification, accommodation, aid or service by contacting the City Clerk's Office either in person at 6550 Miles Avenue, Huntington Park, California or by telephone at (323) 584-6230. Notification in advance of the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting.

PLEASE SILENCE ALL CELL PHONES AND OTHER ELECTRONIC EQUIPMENT WHILE COUNCIL IS IN SESSION. Thank you.

PLEASE NOTE--The numerical order of items on this agenda is for convenience of reference. Items may be taken out of order upon request of the Mayor or Members of the City Council. Members of the City Council and the public are reminded that they must preserve order and decorum throughout the Meeting. In that regard, Members of the City Council and the public are advised that any delay or disruption in the proceedings or a refusal to obey the orders of the City Council or the presiding officer constitutes a violation of these rules.

- The conduct of City Council meetings is governed by the portion of the California Government Code commonly known as the "Brown Act" and by the Huntington Park City Council Meeting Rules of Procedure.
- The City Council meeting is for conducting the City's business, and members of the audience must obey the rules of decorum set forth by law. This means that each speaker will be permitted to speak for three minutes to address items that are listed on the City Council agenda or topics which are within the jurisdictional authority of the City.
- No profanity, personal attacks, booing, cheering, applauding or other conduct disruptive to the meeting will be permitted. Any person not adhering to the Rules of Procedure or conduct authorized by the Brown Act may be asked to leave the Council Chambers.
- All comments directed to the City Council or to any member of the City Council must be directed to the Mayor (or Chairperson if Mayor is absent).

We ask that you please respect the business nature of this meeting and the order required for the proceedings conducted in the Council Chambers.

Public Comment

Certain provisions of the Brown Act are temporarily waived pursuant to Governor Newsom's Executive Order N-25-20 and N-29-20.

In the interest of Public Health and Safety in order to minimize the spread of the COVID 19 virus, you are strongly encouraged to observe the City Council meetings on the City of Huntington Park's website at www.hpca.gov.

PUBLIC COMMENT – If you would like to comment on any listed Agenda Items or Non-Agenda Items, please email the City Clerk's office at publiccomment@hpca.gov or by telephone, by calling (323) 584-6230, up until one (1) hour, prior to the start of the meeting. Public Comments will then be read during public comment and made part of the record.

The City of Huntington Park thanks you in advance for your cooperation.

For both open and closed session, each speaker will be limited to three minutes per Huntington Park Municipal Code Section 2-1.207. Time limits may not be shared with other speakers and may not accumulate from one period of public comment to another or from one meeting to another. **This is the only opportunity for public input except for scheduled public hearing items.**

All comments or queries shall be addressed to the Council as a body and not to any specific member thereof. Pursuant to Government Code Section 54954.2(a)(2), the Ralph M. Brown Act, no action or discussion by the City Council shall be undertaken on any item not appearing on the posted agenda, except to briefly provide information, ask for clarification, provide direction to staff, or schedule a matter for a future meeting.

Additions/Deletions to Agenda

Items of business may be added to the agenda upon a motion adopted by a minimum two-thirds vote finding that there is a need to take immediate action and that the need for action came to the attention of the City or Agency subsequent to the agenda being posted. Items may be deleted from the agenda upon the request of staff or Council.

Important Notice

The City of Huntington Park shows replays of City Council Meetings on Local Access Channel 3 and over the Internet at www.hpca.gov. NOTE: Your attendance at this public meeting may result in the recording and broadcast of your image and/or voice.

ROLL CALL:

AYES: Council Member(s): Martinez, Sanabria, Macias, Vice Mayor Ortiz and Mayor Avila

END OF REGULAR AGENDA

PUBLIC HEARING

10. COUNCIL TO CONSIDER ADOPTION OF THE CITY OF HUNTINGTON PARK'S FISCAL YEAR (FY) 2020/21 – 2024/25 CONSOLIDATED PLAN, FY 2020/21 ANNUAL ACTION PLAN, AND CITIZEN PARTICIPATION PLAN

City Manager Ricardo Reyes introduced the item and Mayor Avila announced the public hearing.

City Attorney announced that it was appropriate for the mayor to open for public hearing to discuss item ten. Attorney Almazan also stated that under normal circumstances the Mayor presents the question to everyone present, whether they have any comments regarding item ten, but given that we are in the middle of the pandemic and that city council meeting are currently close to members of the public. The mayor needed to ask the city clerk if any comments from the public were received.

Mayor Avila opened the public hearing and asked if there were any questions associated to item ten. City Clerk responded that no additional comments were submitted by the public and that all comments had been incorporated into the consolidated plan.

Mayor Avila closed the public hearing and opened the floor for discussion.

Motion: Vice Mayor Ortiz moved to approve the **council to consider adoption of the city of Huntington Park's fiscal year (FY) 2020/21 – 2024/25 consolidated plan, FY 2020/21 annual action plan, and citizen participation plan**, seconded by Council Member Sanabria, Motion passed 5-0-0, by the following vote:

ROLL CALL:

AYES: Council Member(s): Martinez, Sanabria, Macias, Vice Mayor Ortiz and Mayor Avila

DEPARTMENTAL REPORTS (Information only)

1. Director Cynthia Norzagaray provided a summary of the next activities for the community

WRITTEN COMMUNICATIONS –

COUNCIL COMMUNICATIONS

Council Member Martinez thanked the staff for making sure the council meeting was conducted safely. To all the families be strong stay well and make the best decisions to wear a mask during these difficulty times. He also thanked those who completed the Census and stated that a report will be presented on November. He congratulated the LA Lakers for becoming champions!

Council Member Sanabria thanked all the staff for all the hard work, and wished the Dodgers good luck. She asked everyone to be safe, celebrate safely, especially during this pandemic, and celebrate at home.

Council Member Macias thanked staff for their hard work. She also reminded everyone about a food distribution activity on Saturday October 24, 2020 from 8:30 a.m. – 11:00 a.m. CM Macias thanked Tzu Chi USA foundation that has been collaborating with Gage Middle School having monthly food distributions. In addition, she reminded everyone to vote early.

Vice Mayor Ortiz thanked everyone for their hard work. She gave a special thank you to the Acting City Clerk for advocating for our community to be able to get enough voting centers. She stated that unfortunately, LA County didn't provide enough voting centers, and the City was going to have only two centers. Vice Mayor Ortiz wanted the residents to know that they were going to continue fighting for equity, making sure we could get a third voting center. She also sent a message to those watching the meeting at home and she stated that it is our right to vote. Please vote early, lines will be long, please take advantage of the 5 days in case we are not able to get the third voting center. "Given that there are cities that have almost the same amount of register voters than our City and they have seven vote centers versus our two centers, it just tells us how we still have an issue of systemic racism. We will continue to fight for our community and will continue to advocate for you. Big thank you to Sergio Infanzon for trying to advocate as much as he could on the City's behalf for our residents. At this point, it has to be us community leaders to step in and advocate for our community." Thank you staff for continue to advocate for our residents day in day out.

ADJOURNMENT

Mayor Avila thanked Chief Lozano for taking care of the city with the Lakers and Dodgers and all the excitement behind their championships. People are tired of being at home, they want to go out and express their excitement. Thank you! Mayor Avila reminded everyone about the three big issues that we still have: the virus, census and the voting. There all three important things we need to take care before the end of the year.

Mayor Avila adjourned the meeting at 7:16 p.m. in the name of all essential workers that are helping and fighting against the corona virus.

Respectfully submitted,

Sergio Infanzon
Acting City Clerk

ITEM NO. 3

CITY OF HUNTINGTON PARK

Department of Public Works
City Council Agenda Report

November 17, 2020

Honorable Mayor and Members of the City Council
City of Huntington Park
6550 Miles Avenue
Huntington Park, CA 90255

Dear Mayor and Members of the City Council:

CONSIDERATION AND APPROVAL OF WASTE MANAGEMENT'S FINAL INVOICE FOR SOIL REMOVAL AS PART OF THE PRE-CONSTRUCTION PHASE OF AN AQUATIC CENTER AND RELATED AMENITIES AT SALT LAKE PARK

IT IS RECOMMENDED THAT THE CITY COUNCIL:

1. Approve final payment of a not-to-exceed amount of \$1,211,188.66 to Waste Management from account number 111-6010-451.76-05 for soil removal as part of the pre-construction phase of an Aquatic Center and related amenities at Salt Lake Park;
2. Approve a budget appropriation transfer in the amount of \$1,211,189 from account number 111-9010-419.80-31 Aquatics Center Debt Service Payment to account number 111-6010-451.76-05 Aquatics Center Capital Project; and
3. Authorize staff to process final payment for services rendered.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On August 6, 2019 the Huntington Park City Council (City Council) approved the design-build construction of an Aquatic Center and related amenities at Salt Lake Park. As part of the pre-construction review conducted by Infrastructure Engineers (Project Manager), it was determined that a substantial amount of soil needed to be removed from the project site before construction could begin. It was anticipated that between 650 and 750 truckloads of soil removal over a two-month period commencing in May through June 2020 were needed to complete the initial structural bedding for the building structure.

At the June 2, 2020 City Council meeting, the City Council approved the appropriation of \$1,979,097.84 for the Industrial Waste and Disposal Services payment rendered by Waste Management. Waste Management was tasked on completing the aforementioned soil removal as a two-phase remediation approach. Phase 1 of the soil removal required the removal of 424 truckloads at a cost of \$989,548.92. Phase 2 was anticipated to have an approximate equal number of truckloads and similar cost associated with Phase 1.

CONSIDERATION AND APPROVAL OF WASTE MANAGEMENT'S FINAL INVOICE FOR SOIL REMOVAL AS PART OF THE PRE-CONSTRUCTION PHASE OF AN AQUATIC CENTER AND RELATED AMENITIES AT SALT LAKE PARK

November 17, 2020

Page 2 of 3

Though as excavation efforts continued, the Project Manager found it necessary to increase the soil remediation removal, exceeding the projected amount calculated. Staff's recommendation is for the City Council to approve the payment of the remaining balance as further elaborated in the fiscal impact.

FISCAL IMPACT/FINANCING

At the June 2, 2020 City Council meeting, staff requested an appropriation of \$1,979,097.84 for payment of soil removal remediation. This amount was based on actual soil removal quantities captured during Phase 1 of the project and projected soil removal quantities on Phase 2. Waste Management submitted four invoices for a total amount of \$3,190,286.50; exceeding the June 2, 2020 City Council appropriation by \$1,211,188.66.

Waste Management Invoices					
Invoice No.	Invoice Amount	Invoice Amount Paid	Remaining Balance	Date	Account No.
7922-2246-5	\$6,196.89	\$6,196.89	\$0.00	6/4/2020	111-6010-451.76-05
7976-2246-1	\$1,150,007.46	\$1,150,007.46	\$0.00	6/16/2020	111-6010-451.76-05
8163-2246-5	\$52,228.85	\$52,228.85	\$0.00	7/1/2020	111-6010-451.76-05
8502-2246-4	\$1,981,853.30	\$770,664.64	\$1,211,188.66	8/3/2020	111-6010-451.76-05
Total=	\$3,190,286.50	\$1,979,097.84	\$1,211,188.66		

Staff recommends a budget transfer of \$1,211,189 from account number 111-9010-419.80-31 Aquatics Center Debt Service Payment to account number 111-6010-451.76-05 Aquatics Center Capital Project and processing the remaining balance of Waste Management's final invoice (Attachment A) from this account number. Services were rendered as part of Phase 2 soil remediation removal of the pre-construction phase of the Aquatic Center and related amenities at Salt Lake Park.

CONCLUSION

Upon Council approval, staff will proceed with the recommended actions.

Respectfully submitted,

RICARDO REYES
City Manager

CESAR ROLDAN

1

States the date payment is due to Waste Management. Anything beyond that date may incur additional charges. Your **Total Due** is the total amount of current charges and any previous unpaid balances combined.

2

Previous balance is the total due from your previous invoice. We subtract any **Payments Received/Adjustments** and add your **Current Charges** from this billing cycle to get a **Total Due** on this invoice. If you have not paid all or a portion of your previous balance, please pay the entire **Total Due** to avoid a late charge or service interruption.

3

Service location details the total current charges of this invoice.

THINK GREEN:

ITEM NO. 4

CITY OF HUNTINGTON PARK

Public Works Department
City Council Agenda Report

November 17, 2020

Honorable Mayor and Members of the City Council
City of Huntington Park
6550 Miles Avenue
Huntington Park, CA 90255

Dear Mayor and Members of the City Council:

CONSIDERATION AND APPROVAL OF AWARD OF CONTRACT TO UPDATE THE URBAN WATER MANAGEMENT PLAN

IT IS RECOMMENDED THAT THE CITY COUNCIL:

1. Award the professional services agreement to update the Urban Water Management Plan to West & Associates Engineering, Inc. for a not-to-exceed fee of \$37,000 payable from Account No. 681-8030-461-56.41; and
2. Authorize the City Manager to execute the professional services agreement.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

At the September 15, 2020 City Council meeting, the City Council authorized staff to solicit proposals to update the Urban Water Management Plan (UWMP). The City must update the UWMP every five years. The last UWMP was updated in June of 2016. The UWMP supports the City's long-term resource planning to ensure that adequate water supplies are available to meet existing and future water needs.

The requirements for UWMPs are found in two sections of California Water Code, §10610-10656 and §10608. Urban water supplier that either provides over 3,000 acre-feet of water annually, or serves more than 3,000 urban connections is required to submit an UWMP.

Within UWMPs, urban water suppliers must provide the following information:

- Assess the reliability of water sources over a 20-year planning time frame
- Describe demand management measures and water shortage contingency plans
- Report progress toward meeting a targeted 20 percent reduction in per-capita (per-person) urban water consumption by the year 2020

CONSIDERATION AND APPROVAL OF AWARD OF CONTRACT TO UPDATE THE URBAN WATER MANAGEMENT PLAN

November 17, 2020

Page 2 of 3

- Discuss the use and planned use of recycled water

The information collected from the submitted UWMPs is useful for local, regional, and statewide water planning. Due date for urban water suppliers to submit their UWMPs to the State of California Department of Water Resources (DWR) is July 1, 2021.

On September 18, 2020, the City Clerk's Office published the RFP in the local newspaper of general circulation and Public Work' posted the RFP on the City's website and other forms of electronic media. The RFP provided the guidance expected of professional engineering firms that perform similar type work.

The City solicited proposals from qualified firms and the date to submit proposals was October 15, 2020. The City received four proposals.

1. West & Associates Engineering, Inc.:	\$32,000
2. SA Associates:	\$47,000
3. MKN:	\$51,159
4. Infrastructure Engineers:	\$55,356

City staff has relayed that engineering support from an outside consultant is necessary to accomplish drafting the UWMP. Based on the need to meet the State's mandated due date to adopt and upload the UWMP, and the consultant's qualifications, it is staff's recommendation to award the professional services agreement to West & Associates.

LEGAL REQUIREMENT

Public involvement and comment on the City's UWMP is highly encouraged. California law specifically requires water agencies to submit or post on the web for public viewing a copy of the adopted UWMP no later than 30 days after adoption. This copy may be in an electronic format.

Congress adopted the Brooks Act (P.L. 92-582), requiring the use of Qualifications-Based Selection (QBS) for the procurement of architect and engineering services. The use of QBS ensures that taxpayers receive highly technical architect and engineering services from the most experienced and most qualified firms at a fair and reasonable cost. California's QBS requirements can be found at Government Code sections 4525 et seq., also known as the Mini Brooks Act. City is awarding West & Associates with the professional services agreement based on demonstrating competence and qualifications for this type of services.

FISCAL IMPACT/FINANCING

West & Associates has submitted a proposal and a fee schedule for a not-to-exceed fee of \$37,000. This amount is payable from Account No. 681-8030-461-56.41, which is based on the adopted fiscal year 2020-21 budget allocation of \$40,000.

CONCLUSION

**CONSIDERATION AND APPROVAL OF AWARD OF CONTRACT TO UPDATE THE
URBAN WATER MANAGEMENT PLAN**

November 17, 2020

Page 3 of 3

Upon Council approval, staff will proceed with the recommended actions.

Respectfully submitted,

RICARDO REYES
City Manager

CESAR ROLDAN
Director of Public Works

PROFESSIONAL SERVICES AGREEMENT

Urban Water Management Plan Update

THIS PROFESSIONAL SERVICES AGREEMENT ("Agreement") is made and entered into this 17th day of November 2020, (hereinafter, the "Effective Date"), by and between the CITY OF HUNTINGTON PARK, a municipal corporation ("CITY") and **WEST & ASSOCIATES ENGINEERING, INC.** (hereinafter, "CONSULTANT"). For the purposes of this Agreement CITY and CONSULTANT may be referred to collectively by the capitalized term "Parties." The capitalized term "Party" may refer to CITY or CONSULTANT interchangeably.

RECITALS

This AGREEMENT is made and entered into with respect to the following facts:

WHEREAS, on November 17, 2020, the Huntington Park City Council at its Regular Meeting approved the Professional Services Agreement to the CONSULTANT to update the Urban Water Management Plan (UWMP); and

WHEREAS, the requirements for UWMPs are found in two sections of California Water Code, §10610-10656 and §10608; and

WHEREAS, the CONSULTANT must submit the City adopted UWMP to the State of California Department of Water Resources (DWR) on or before July 1, 2021; and

WHEREAS, CONSULTANT represents that it is fully qualified to perform such professional services by virtue of its experience and the training, education and skill of its principals and employees; and

WHEREAS, CONSULTANT further represents that it is willing to accept responsibility for performing such services in accordance with the terms and conditions set forth in this Agreement; and

WHEREAS, the execution of this Agreement was approved by the Huntington Park City Council at its Regular Meeting of November 17, 2020.

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions herein contained, CITY and CONSULTANT agree as follows:

I. ENGAGEMENT TERMS

- 1.1 SCOPE OF SERVICES: Subject to the terms and conditions set forth in this Agreement and all exhibits attached and incorporated hereto, CONSULTANT agrees to perform the services and tasks set forth in that certain document entitled "Scope of Services" and attached hereto as **Exhibit "A"** (hereinafter referred to as the **"Scope of Services"**). CONSULTANT further agrees to furnish to CITY all labor, materials, tools, supplies, equipment, services, tasks and work necessary to competently perform and timely complete the services and tasks as set forth in the Scope of Services. For the purposes of this Agreement the aforementioned services and tasks set forth in the Scope of Services shall hereinafter be referred to generally by the capitalized term "Work."
- 1.2 TERM: This Agreement shall have an initial term of one (1) year commencing from the Effective Date unless terminated as provided elsewhere in this Agreement (hereinafter, the "Term"). Nothing in this Section shall operate to prohibit or otherwise restrict the CITY's ability to terminate this Agreement at any time for convenience or for cause as further set out herein.
- 1.3 COMPENSATION: During the term of this Agreement and any extension term provided herein, CONSULTANT shall perform the Services set forth in Section 1.2 above, for a not-to-exceed fee of \$37,000, included in the proposal reflected in **Exhibit "A"**. CONSULTANT shall not exceed the Contract Price unless such added expenditure is first approved by the CITY Council acting in consultation with the City Manager. In the event CONSULTANT's charges are projected to exceed the Contract Price prior to the expiration of the Term or any single extension term, CITY may suspend CONSULTANT's performance of any additional Work outside the Work as defined in Exhibit A, pending CITY approval of any anticipated expenditures in excess of the Contract Price or any other CITY-approved amendment to the compensation terms of this Agreement.
- 1.4 PAYMENT OF COMPENSATION: On the first of each month, CONSULTANT shall submit to CITY an itemized invoice for that month's Base Fee and indicating the additional services and tasks performed during the recently concluded calendar month, including services and tasks performed and the reimbursable out-of-pocket expenses incurred. If the amount of CONSULTANT's monthly compensation is a function of hours worked by CONSULTANT's personnel, the invoice shall indicate the number of hours worked in the recently concluded calendar month, the persons responsible for performing the Work, the rate of compensation at which such services and tasks were performed, the subtotal for each task and service performed and a grand total for all services performed. Within thirty (30) calendar days of receipt of each invoice, CITY shall pay any undisputed amounts. Within thirty (30) calendar days of receipt of each invoice, CITY shall notify CONSULTANT in writing of any disputed amounts included in the invoice. CITY shall not withhold applicable taxes or other authorized deductions from payments made to CONSULTANT.
- 1.5 ACCOUNTING RECORDS: CONSULTANT shall maintain complete and accurate records with respect to all matters covered under this Agreement for a period of

three (3) years after the expiration or termination of this Agreement. CITY shall have the reasonable right to access and examine such records, without charge. CITY shall own and further have the right to audit such records, to make transcripts therefrom and to inspect all program data, documents, proceedings, and activities.

- 1.6 ABANDONMENT BY CONSULTANT: In the event CONSULTANT ceases to perform the Work agreed to under this Agreement or otherwise abandons the undertaking contemplated herein prior to the expiration of this Agreement or prior to completion of any or all tasks set forth in the Scope of Services, CONSULTANT shall deliver to CITY immediately and without delay, all written materials, including any electronic communications, records and other work product prepared or obtained by CONSULTANT in the performance of this Agreement. Furthermore, CONSULTANT shall only be compensated for the reasonable value of the services, tasks and other work performed up to the time of cessation or abandonment, less a deduction for any damages, costs or additional expenses which CITY may incur as a result of CONSULTANT's cessation or abandonment.

II. PERFORMANCE OF AGREEMENT

- 2.1 CITY'S REPRESENTATIVES: The CITY hereby designates the City Manager (hereinafter, the "CITY Representative") to act as its representative for the performance of this Agreement. The City Manager shall be the chief CITY Representative. The CITY Representative or their designee shall act on behalf of the CITY for all purposes under this Agreement. CONSULTANT shall not accept directions or orders from any person other than the CITY Representative or their designee.
- 2.2 CONSULTANT REPRESENTATIVE: CONSULTANT hereby designates Phillip West to act as its representative for the performance of this Agreement (hereinafter, "CONSULTANT Representative"). CONSULTANT Representative shall have full authority to represent and act on behalf of the CONSULTANT for all purposes under this Agreement. CONSULTANT Representative or his designee shall supervise and direct the performance of the Work, using his professional skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Work under this Agreement. Notice to the CONSULTANT Representative shall constitute notice to CONSULTANT. CONSULTANT may, by written notice to CITY, advise CITY of any change in CONSULTANT Representative.
- 2.3 COORDINATION OF SERVICE; CONFORMANCE WITH REQUIREMENTS: CONSULTANT agrees to work closely with CITY staff in the performance of the Work and this Agreement and shall be available to CITY staff and the CITY Representatives at all reasonable times. All work prepared by CONSULTANT shall be subject to inspection and approval by CITY Representatives or their designees.
- 2.4 STANDARD OF CARE; PERFORMANCE OF EMPLOYEES: CONSULTANT represents, acknowledges and agrees to the following:

- A. CONSULTANT shall perform all Work skillfully, competently and in accordance with industry standards of CONSULTANT's profession;
- B. CONSULTANT shall perform all Work in a manner in accordance with this Agreement;
- C. CONSULTANT shall comply with all applicable federal, state and local laws and regulations, including the conflict of interest provisions of Government Code Section 1090 and the Political Reform Act (Government Code Section 81000 *et seq.*);
- D. CONSULTANT understands the nature and scope of the Work to be performed under this Agreement as well as any and all schedules of performance;
- E. All of CONSULTANT's employees and agents possess sufficient skill, knowledge, training and experience to perform those services and tasks assigned to them by CONSULTANT; and
- F. Except as otherwise set forth in this Agreement, all of CONSULTANT's employees and agents (including but not limited to subCONSULTANTS and subconsultants) possess all licenses, permits, certificates, qualifications and approvals of whatever nature that are legally required to perform the tasks and services contemplated under this Agreement and all such licenses, permits, certificates, qualifications and approvals shall be maintained throughout the term of this Agreement and made available to CITY for copying and inspection.

The Parties acknowledge and agree that CONSULTANT shall perform, at CONSULTANT's own cost and expense and without any reimbursement from CITY, any services necessary to correct any errors or omissions caused by CONSULTANT's failure to comply with its obligation set out herein or failure on the part of CONSULTANT's employees, agents, CONSULTANTS, subCONSULTANTS and subconsultants to fulfill its obligations herein. Such effort by CONSULTANT to correct any errors or omissions shall be commenced as soon as reasonably practicable upon their discovery or notice by either Party and shall be completed within seven (7) calendar days from the date of discovery or such other extended period of time authorized by the CITY Representatives in writing, in accordance with applicable industry standards. The Parties acknowledge and agree that CITY's acceptance of any work performed by CONSULTANT or on CONSULTANT's behalf shall not constitute a release of any deficiency or delay in performance. The Parties further acknowledge, understand and agree that CITY has relied upon the foregoing representations of CONSULTANT, including but not limited to the representation that CONSULTANT possesses the skills, training, knowledge and experience necessary to perform the Work skillfully, competently and in accordance with applicable industry standards of CONSULTANT's profession.

- 2.5 ASSIGNMENT: The skills, training, knowledge and experience of CONSULTANT are material to CITY's willingness to enter into this Agreement. Accordingly, CITY has an interest in the qualifications and capabilities of the person(s) who will perform the services and tasks to be undertaken by CONSULTANT or on behalf of CONSULTANT in the performance of this Agreement. In recognition of this interest, CONSULTANT agrees that it shall not assign or transfer, either directly or indirectly

or by operation of law, this Agreement or the performance of any of CONSULTANT's duties or obligations under this Agreement without the prior written consent of the CITY, which consent shall not be unreasonably withheld. CITY shall have up to sixty (60) calendar days to consider any proposed assignment by CONSULTANT. CONSULTANT can withhold consent where the CITY determines that the proposed assignee does not have the financial capacity to comply with the terms of this Agreement. In the absence of CITY's prior written consent, any attempted assignment or transfer shall be ineffective, null and void and shall constitute a material breach of this Agreement.

2.6 CONTROL AND PAYMENT OF SUBORDINATES: INDEPENDENT

CONSULTANT: The Work shall be performed by CONSULTANT or under CONSULTANT's strict supervision. CONSULTANT will determine the means, methods and details of performing the Work subject to the requirements of this Agreement. CITY retains CONSULTANT on an independent CONSULTANT basis and not as an employee. CONSULTANT reserves the right to perform similar or different services for other principals during the term of this Agreement, provided such work does not unduly interfere with CONSULTANT's competent and timely performance of the Work contemplated under this Agreement and provided the performance of such services does not result in the unauthorized disclosure of CITY's confidential or proprietary information. Any additional personnel performing the Work under this Agreement on behalf of CONSULTANT are not employees of CITY and shall at all times be under CONSULTANT's exclusive direction and control. CONSULTANT shall pay all wages, salaries and other amounts due such personnel and shall assume responsibility for all benefits, payroll taxes, Social Security and Medicare payments and the like. CONSULTANT shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: Social Security taxes, income tax withholding, unemployment insurance, disability insurance, workers' compensation insurance and the like.

2.7 REMOVAL OF EMPLOYEES OR AGENTS: If any of CONSULTANT's officers, employees, agents, CONSULTANTS, subCONSULTANTS or subconsultants is determined by the CITY Representatives to be uncooperative, incompetent, a threat to the adequate or timely performance of the tasks assigned to CONSULTANT, a threat to persons or property, or if any of CONSULTANT's officers, employees, agents, CONSULTANTS, subCONSULTANTS or subconsultants fail or refuse to perform the Work in accordance with this Agreement, such officer, employee, agent, CONSULTANT, subCONSULTANT or subconsultant shall be promptly removed by CONSULTANT and shall not be reassigned to perform any of the Work.

2.8 COMPLIANCE WITH LAWS: CONSULTANT shall keep itself informed of and in compliance with all applicable federal, State or local laws to the extent such laws control or otherwise govern the performance of the Work. CONSULTANT's compliance with applicable laws shall include without limitation compliance with all applicable Cal/OSHA requirements. To the extent that any changes in applicable law result in an increase in CONSULTANT's cost of performance, the Parties shall negotiate in good faith to reach a mutually agreeable price adjustment. Should the Parties fail to reach such an agreement within 30 days (or such other agreeable time period) of CONSULTANT's notice to CITY of its increased cost of performance,

either Party may terminate this Agreement upon 60 days' written notice.

(a) In the event that water treatment violations occur following the effective date of this Agreement, subject to Sub-Section (b) below and the applicable Force Majeure provisions, the CONSULTANT shall, in respect of violations that may be imposed by Applicable Law and to the extent due to CONSULTANT's fault, be responsible for: fines, penalties, or damages. Prior to settlement or payment of any such fines, penalties or damages, the CONSULTANT reserves the right to contest government or private actions, suits or proceedings for violations through administrative procedures or otherwise.

(b) To the extent that violations of applicable laws, rules, regulations or permits are caused by failures in the facilities or causes beyond CONSULTANT's control, including the CITY's failure to approve recommended repairs or maintenance, CONSULTANT will use its professional efforts to maximize performance of the Facilities but shall not be responsible for associated violations or damages, fines or penalties which result.

2.9 NON-DISCRIMINATION: In the performance of this Agreement, CONSULTANT shall not discriminate against any employee, subCONSULTANT, subconsultant, or applicant for employment because of race, color, creed, religion, sex, marital status, sexual orientation, national origin, ancestry, age, physical or mental disability or medical condition.

2.10. INDEPENDENT CONSULTANT STATUS: The Parties acknowledge, understand and agree that CONSULTANT and all persons retained or employed by CONSULTANT are, and shall at all times remain, wholly independent CONSULTANTs and are not officials, officers, employees, departments or subdivisions of CITY. CONSULTANT shall be solely responsible for the negligent acts and/or omissions of its employees, agents, CONSULTANTs, subCONSULTANTs and subconsultants. CONSULTANT and all persons retained or employed by CONSULTANT shall have no authority, express or implied, to bind CITY in any manner, nor to incur any obligation, debt or liability of any kind on behalf of, or against, CITY, whether by contract or otherwise, unless such authority is expressly conferred to CONSULTANT under this Agreement or is otherwise expressly conferred by CITY in writing.

2.11 CITY RESPONSIBILITIES: During the term of this Agreement, the CITY shall:

- a) obtain and maintain all state, federal, and local permits and licenses required for ownership, operation and maintenance of the Facilities, including without limitation, the CITY's Permits;
- b) comply with Applicable Law relating to the management, ownership, operation, maintenance, repair and replacement of the Facilities (to the extent that the responsibility of complying with those laws is not specifically assumed by the CONSULTANT under this Agreement). The CONSULTANT shall not be responsible for the CITY's failure to comply with any provision of Applicable Law that is not otherwise specifically assumed by the CONSULTANT hereunder.

III. INSURANCE

3.1 DUTY TO PROCURE AND MAINTAIN INSURANCE: Prior to the beginning of and throughout the duration of the Work, CONSULTANT will procure and maintain policies of insurance that meet the requirements and specifications set forth under this Article. CONSULTANT shall procure and maintain the following insurance coverage, at its own expense:

- A. Commercial General Liability Insurance: CONSULTANT shall procure and maintain Commercial General Liability Insurance ("CGL Coverage") as broad as Insurance Services Office Commercial General Liability coverage (occurrence Form CG 0001) or its equivalent. Such CGL Coverage shall have minimum limits of no less than Two Million Dollars (\$2,000,000.00) per occurrence and Four Million Dollars (\$4,000,000.00) in the general aggregate for bodily injury, personal injury, property damage, operations, products and completed operations, and contractual liability.
- B. Automobile Liability Insurance: CONSULTANT shall procure and maintain Automobile Liability Insurance as broad as Insurance Services Office Form Number CA 0001 covering Automobile Liability, Code 1 (any auto) or if CONSULTANT does not own or lease automobiles, Hired and Non-Owned Automobile Liability shall be accepted. Such Automobile Liability Insurance shall have minimum limits of no less than One Million Dollars (\$1,000,000.00) per accident for bodily injury and property damage.
- C. Workers' Compensation Insurance/ Employer's Liability Insurance: A policy of workers' compensation insurance in such amount as will fully comply with the laws of the State of California. However, if the CONSULTANT has no employees, for example a sole practitioner or a partner in a firm with only contracted support staff, then Workers' Compensation is not required by the State. CONSULTANT shall the city's form stating they are either the owner of the organization or a partner and are exempt from the State's workers' compensation requirements because they have no employees and agree to hold the Entity harmless from loss or liability for such. A waiver must be signed.

3.2 ADDITIONAL INSURED REQUIREMENTS: The CGL Coverage and the Automobile Liability Insurance shall contain an endorsement naming the CITY and CITY's elected and appointed officials, officers, employees, agents and volunteers as additional insureds.

3.3 The Entity, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the CONSULTANT including materials, parts or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the CONSULTANT's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 forms if later revisions used).

- 3.4 REQUIRED CARRIER RATING: All varieties of insurance required under this Agreement shall be procured from insurers admitted in the State of California and authorized to issue policies directly to California insureds. Except as otherwise provided elsewhere under this Article, all required insurance shall be procured from insurers who, according to the latest edition of the Best's Insurance Guide, have an A.M. Best's rating of no less than A:VII. CITY may also accept policies procured by insurance carriers with a Standard & Poor's rating of no less than BBB according to the latest published edition the Standard & Poor's rating guide. As to Workers' Compensation Insurance/ Employer's Liability Insurance, the CITY Representatives are authorized to authorize lower ratings than those set forth in this Section.
- 3.5 PRIMACY OF CONSULTANT'S INSURANCE: All policies of insurance provided by CONSULTANT (except Professional Liability and Workers' Compensation) shall be primary to any coverage available to CITY or CITY's elected or appointed officials, officers, employees, agents or volunteers. Any insurance or self-insurance maintained by CITY or CITY's elected or appointed officials, officers, employees, agents or volunteers shall be in excess of CONSULTANT's insurance and shall not contribute with it.
- 3.6 WAIVER OF SUBROGATION: All insurance coverage provided pursuant to this Agreement shall not prohibit CONSULTANT or CONSULTANT's officers, employees, agents, subCONSULTANTS or subconsultants from waiving the right of subrogation prior to a loss. CONSULTANT hereby waives all rights of subrogation against CITY.
- 3.7 VERIFICATION OF COVERAGE: CONSULTANT acknowledges, understands and agrees, that CITY's ability to verify the procurement and maintenance of the insurance required under this Article is critical to safeguarding CITY's financial well-being and, indirectly, the collective well-being of the residents of the CITY. Accordingly, CONSULTANT warrants, represents and agrees that it shall furnish CITY with original certificates of insurance and endorsements evidencing the coverage required under this Article. **The certificates of insurance and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf.** All certificates of insurance and endorsements shall be received and approved by CITY as a condition precedent to CONSULTANT's commencement of any work or any of the Work. Upon CITY's written request, CONSULTANT shall also provide CITY with certified copies of all required insurance policies and endorsements.

IV. INDEMNIFICATION

- 4.1 The Parties agree that CITY and CITY's elected and appointed officials, officers, employees, agents and volunteers (hereinafter, the "CITY Indemnitees") should, to the fullest extent permitted by law, be protected from any and all loss, injury, damage, claim, lawsuit, cost, expense, attorneys' fees, litigation costs, or any other cost arising out of or in any way related to this Agreement subject to Paragraph 4.2 and 4.3. Accordingly, the provisions of this indemnity provision are intended by the

Parties to be interpreted and construed to provide the CITY Indemnitees with protection as set forth herein and to the extent possible under the law. CONSULTANT acknowledges that CITY would not enter into this Agreement in the absence of CONSULTANT's commitment to indemnify, defend and protect CITY as set forth herein.

4.2 Work of CONSULTANT's Design Professionals Services: The duty to indemnify and hold harmless as set forth under this subsection shall apply to the negligence, recklessness or willful misconduct of any individual who qualifies as a "design professional" within the meaning of subsection (c)(2) of section 2782.8 of the California Civil Code in so far as such negligence, recklessness or willful misconduct occurs in the performance work or activities that must be performed by a "design professional." Subject to the limitation of the preceding sentence, to the fullest extent permitted by law, CONSULTANT shall indemnify and hold harmless the CITY Indemnities, defined above, from and against any and all liability, loss, damage, expense, cost (including without limitation reasonable attorneys' fees, expert fees and all other costs and fees of litigation) to the extent caused by the negligence, recklessness, or willful misconduct of CONSULTANT or any of CONSULTANT's officers, employees, servants, agents, CONSULTANTS, subCONSULTANTS or authorized volunteers or any other person or entity for whom CONSULTANT is legally liable in the performance of design professional services under this Agreement. The Parties understand and agree that the duty of CONSULTANT to indemnify and hold harmless pursuant to this subsection does not include an upfront duty to defend. CONSULTANT will reimburse the CITY Indemnitees' reasonably incurred defense fees and costs to the extent they are determined to have been caused by the negligence, recklessness or willful misconduct of CONSULTANT, or as the parties otherwise agree in settlement. CONSULTANT's obligation to indemnify does not apply to the extent that it is finally adjudicated that the liability was caused by the active negligence or willful misconduct of an indemnified party. If it is finally adjudicated that liability is caused by the comparative active negligence or willful misconduct of an indemnified party, then CONSULTANT's indemnification obligation shall be in proportion to the established comparative liability.

4.3 Work of All Other Persons/Non-Design Professionals: Except as otherwise provided under Section 4.2 of this Article, above, to the fullest extent permitted by law, CONSULTANT shall indemnify, defend and hold harmless the CITY Indemnitees from and against all liability, loss, damage, expense, cost (including without limitation reasonable attorneys' fees, expert fees and all other reasonable costs and fees of litigation) of every nature to the extent caused by CONSULTANT's negligent performance under this Agreement, including but not limited to the negligent acts, errors or omissions of CONSULTANT or CONSULTANT's officers, employees, agents, servants, CONSULTANTS, subCONSULTANTS or subconsultants or the failure of the same to comply with any of the duties, obligations or standards of care set forth herein. The duty to indemnify, defend and hold harmless under this subsection shall not encompass a duty to indemnify, defend or hold harmless for liability, loss, suit, damage, expense, or cost to the extent caused by the negligence or willful misconduct of any or all of the City Indemnitees. The duty to indemnify, defend and hold harmless as set forth under this subsection is intended to encompass liabilities, losses, damages, expense and costs not otherwise subject to subsection 4.2, above.

- 4.4 CITY shall have the right to offset against the amount of any compensation due CONSULTANT under this Agreement any amount due CITY from CONSULTANT as a result of CONSULTANT's failure to pay CITY promptly any indemnification arising under this Article and related to CONSULTANT's failure to either (i) pay taxes on amounts received pursuant to this Agreement or (ii) comply with applicable workers' compensation laws.
- 4.5 The obligations of CONSULTANT under this Article will not be limited by the provisions of any workers' compensation act or similar act. CONSULTANT expressly waives its statutory immunity under such statutes or laws as to CITY and CITY's elected and appointed officials, officers, employees, agents and volunteers.
- 4.6 CONSULTANT agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this Article from each and every subCONSULTANT or any other person or entity involved by, for, with or on behalf of CONSULTANT in the performance of this Agreement. In the event CONSULTANT fails to obtain such indemnity obligations from others as required herein, CONSULTANT acknowledges that its obligations under Sections 4.2 and 4.3 apply.
- 4.7 CITY does not, and shall not, waive any rights that it may possess against CONSULTANT because of the acceptance by CITY, or the deposit with CITY, of any insurance policy or certificate required pursuant to this Agreement. This hold harmless and indemnification provision shall apply regardless of whether or not any insurance policies are determined to be applicable to the claim, demand, damage, liability, loss, cost or expense.
- 4.8 This Article and all provisions contained herein (including but not limited to the duty to indemnify, defend and hold free and harmless) shall survive the termination or normal expiration of this Agreement and is in addition to any other rights or remedies which the CITY may have at law or in equity.

V. TERMINATION

- 5.1 TERMINATION WITHOUT CAUSE: Except for the first two years of this Agreement, either Party may, by written notice to the other, immediately terminate this Agreement at any time for convenience and without cause by giving written notice to Consultant of such termination, which notice shall specify the effective date of such termination, which effective date shall not be less than 90 days from the written notice. Upon such termination for convenience, CONSULTANT shall be compensated only for those services and tasks which have been performed by CONSULTANT up to the effective date of the termination. If this Agreement is terminated as provided herein, CITY may require CONSULTANT to provide all finished or unfinished Documents and Data, as defined in Section 6.1 below, and other information of any kind prepared by CONSULTANT in connection with the performance of the Work. CONSULTANT shall be required to provide such Documents and Data within fifteen (15) calendar days of CITY's written request. No actual or asserted breach of this Agreement on the part of CITY pursuant to Section

5.2, below, shall operate to prohibit or otherwise restrict CITY's ability to terminate this Agreement for convenience as provided under this Section.

5.2 EVENTS OF DEFAULT; BREACH OF AGREEMENT:

- A. In the event either Party fails to perform any duty, obligation, service or task set forth under this Agreement (or fails to timely perform or properly perform any such duty, obligation, service or task set forth under this Agreement), an event of default (hereinafter, "Event of Default") shall occur. For all Events of Default, the Party alleging an Event of Default shall give written notice to the defaulting Party (hereinafter referred to as a "Default Notice") which shall specify: (i) the nature of the Event of Default; (ii) the action required to cure the Event of Default; (iii) a date by which the Event of Default shall be cured, which shall not be less than the applicable cure period set forth under Sections 5.2.B and 5.2C below or if a cure is not reasonably possible within the applicable cure period, to begin such cure and diligently prosecute such cure to completion. The Event of Default shall constitute a breach of this Agreement if the defaulting Party fails to cure the Event of Default within the applicable cure period or any extended cure period allowed under this Agreement.
- B. CONSULTANT shall cure the following Events of Defaults within the following time periods:
- i. Within three (3) business days of CITY's issuance of a Default Notice for any failure of CONSULTANT to timely provide CITY or CITY's employees or agents with any information and/or written reports, documentation or work product which CONSULTANT is obligated to provide to CITY or CITY's employees or agents under this Agreement. Prior to the expiration of the 3-day cure period, CONSULTANT may submit a written request for additional time to cure the Event of Default upon a showing that CONSULTANT has commenced efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 3-day cure period. The foregoing notwithstanding, CITY shall be under no obligation to grant additional time for the cure of an Event of Default under this Section 5.2 B.i. that exceeds seven (7) calendar days from the end of the initial 3-day cure period; or
 - i. Within thirty (30) calendar days of CITY's issuance of a Default Notice for any other Event of Default under this Agreement. Prior to the expiration of the 30-day cure period, CONSULTANT may submit a written request for additional time to cure the Event of Default upon a showing that CONSULTANT has commenced efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 30-day cure period. The foregoing notwithstanding, CITY shall be under no obligation to grant additional time for the cure of an Event of Default under this Section 5.2B.ii that exceeds thirty (30) calendar days from the end of the initial 30-day cure period.

In addition to any other failure on the part of CONSULTANT to perform any duty, obligation, service or task set forth under this Agreement (or the failure to timely perform or properly perform any such duty, obligation, service or task), an Event of Default on the part of CONSULTANT shall include, but shall not be limited to

the following: (i) CONSULTANT's refusal or failure to perform any of the services or tasks called for under the Scope of Services; (ii) CONSULTANT's failure to fulfill or perform its obligations under this Agreement within the specified time or if no time is specified, within a reasonable time; (iii) CONSULTANT's and/or its employees' disregard or violate any federal, state, local law, rule, procedure or regulation; (iv) the initiation of proceedings under any bankruptcy, insolvency, receivership, reorganization, or similar legislation as relates to CONSULTANT, whether voluntary or involuntary; (v) CONSULTANT's refusal or failure to perform or observe any material covenant, condition, obligation or provision of this Agreement; and/or (vi) CITY's discovery that a statement representation or warranty by CONSULTANT relating to this Agreement is false, misleading or erroneous in any material respect.

- C. CITY shall cure any Event of Default asserted by CONSULTANT within forty-five (45) calendar days of CONSULTANT's issuance of a Default Notice, unless the Event of Default cannot reasonably be cured within the 45-day cure period. Prior to the expiration of the 45-day cure period, CITY may submit a written request for additional time to cure the Event of Default upon a showing that CITY has commenced its efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 45-day cure period. The foregoing notwithstanding, an Event of Default dealing with CITY's failure to timely pay any undisputed sums to CONSULTANT as provided under Section 1.4, above, shall be cured by CITY within five (5) calendar days from the date of CONSULTANT's Default Notice to CITY.
- D. Either Party may also immediately suspend performance under this Agreement pending the Defaulting Party's cure of any Event of Default by giving said Party written notice of the Party's intent to suspend performance (hereinafter, a "Suspension Notice"). A Party may issue the Suspension Notice at any time upon the occurrence of an Event of Default. Upon such suspension, CONSULTANT shall be compensated only for those services and tasks which have been rendered by CONSULTANT in accordance with this Agreement up to the effective date of the suspension. No actual or asserted breach of this Agreement on the part of CITY shall operate to prohibit or otherwise restrict CITY's ability to suspend this Agreement as provided herein.
- E. No waiver of any Event of Default or breach under this Agreement shall constitute a waiver of any other or subsequent Event of Default or breach. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.
- F. The duties and obligations imposed under this Agreement and the rights and remedies available hereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. In addition to any other remedies available to CITY at law or under this Agreement in the event of any breach of this Agreement, CITY, in its sole and absolute discretion, may also pursue any one or more of the following remedies:

- i. Upon a thirty (30) day written notice to CONSULTANT, the CITY may

terminate this Agreement in whole or in part;

- i. Upon written notice to CONSULTANT, the CITY may extend the time of performance;
- ii. The CITY may proceed by appropriate court action to enforce the terms of the Agreement to recover damages for CONSULTANT's breach of the Agreement or to terminate the Agreement; or
- iv. The CITY may exercise any other available and lawful right or remedy.

G. In the event CITY is in breach of this Agreement, CONSULTANT's sole remedy shall be the suspension or termination of this Agreement and/or the recovery of any unpaid sums lawfully owed to CONSULTANT under this Agreement for completed services and tasks.

5.3 SCOPE OF WAIVER: No waiver of any default or breach under this Agreement shall constitute a waiver of any other default or breach, whether of the same or other covenant, warranty, agreement, term, condition, duty or requirement contained in this Agreement. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

5.4 SURVIVING ARTICLES, SECTIONS AND PROVISIONS: The termination of this Agreement pursuant to any provision of this Article or by normal expiration of its term or any extension thereto shall not operate to terminate any Article, Section or provision contained herein which provides that it shall survive the termination or normal expiration of this Agreement.

VI. MISCELLANEOUS PROVISIONS

6.1 DOCUMENTS & DATA; LICENSING OF INTELLECTUAL PROPERTY: So long as CONSULTANT has been paid pursuant to this Agreement for the Work resulting in such Documents and Data, all Documents and Data shall be and remain the property of CITY without restriction or limitation upon their use or dissemination by CITY. For purposes of this Agreement, the term "Documents and Data" means and includes all materials, equipment, reports, analyses, correspondence, plans, drawings, designs, renderings, specifications, notes, summaries, strategies, charts, schedules, spreadsheets, calculations, lists, data compilations, documents or other materials developed and/or assembled by or on behalf of CONSULTANT in the performance of this Agreement and fixed in any tangible medium of expression, including but not limited to Documents and Data stored digitally, magnetically and/or electronically. This Agreement creates, at no additional cost to CITY, a perpetual license for CITY to copy, use, reuse, disseminate and/or retain any and all copyrights, designs, and other intellectual property embodied in all Documents and Data. CONSULTANT shall require all subCONSULTANTS and subCONSULTANT working on behalf of CONSULTANT in the performance of this Agreement to agree in writing that CITY shall be granted the same right to copy, use, reuse, disseminate and retain Documents and Data prepared or assembled by any subCONSULTANT

or subCONSULTANT as applies to Documents and Data prepared by CONSULTANT in the performance of this Agreement. CITY acknowledges that the Documents and Data are intended solely in connection with the Project for which they were prepared, and should the CITY reuse or modify them without CONSULTANT'S consent, it does so at its sole risk.

- 6.2 CONFIDENTIALITY: All data, documents, discussion, or other information developed or received by CONSULTANT or provided for performance of this Agreement are deemed confidential and shall not be disclosed by CONSULTANT without prior written consent by CITY. CITY shall grant such consent if disclosure is legally required. Upon request, all CITY data shall be returned to CITY upon the termination or expiration of this Agreement. CONSULTANT shall not use CITY's name or insignia, photographs, or any publicity pertaining to the Work in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of CITY.
- 6.3 FALSE CLAIMS ACT: CONSULTANT warrants and represents that neither CONSULTANT nor any person who is an officer of, in a managing position with, or has an ownership interest in CONSULTANT has been determined by a court or tribunal of competent jurisdiction to have violated the False Claims Act, 31 U.S.C., Section 3789 et seq. and the California False Claims Act, Government Code Section 12650 et seq.
- 6.4 NOTICES: All notices permitted or required under this Agreement shall be given to the respective Parties at the following addresses, or at such other address as the respective Parties may provide in writing for this purpose:

CONSULTANT:

CITY:

City of Huntington Park
Public Works
6550 Mile Avenue
Huntington Park, CA 90255
Attn: Ricardo Reyes, City Manager
Phone: (323) 582-6161

Such notices shall be deemed effective when personally delivered or successfully transmitted by facsimile as evidenced by a fax confirmation slip or when mailed, forty-eight (48) hours after deposit with the United States Postal Service, first class postage prepaid and addressed to the Party at its applicable address.

6.5 COOPERATION; FURTHER ACTS: The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as is reasonably necessary, appropriate or convenient to achieve the purposes of this Agreement.

6.6 SUBCONTRACTING: CONSULTANT shall not subcontract any portion of the Work required by this Agreement, except as expressly stated herein, without the prior written approval of CITY. Subcontracts (including without limitation subcontracts with subCONSULTANTS), if any, shall contain a provision making them subject to all provisions stipulated in this Agreement with the exception of provisions relating to insurance requirements and indemnification.

6.7 CITY'S RIGHT TO EMPLOY OTHER CONSULTANTS: CITY reserves the right to employ other CONSULTANTS in connection with the various projects worked upon by CONSULTANT.

6.8 PROHIBITED INTERESTS: CONSULTANT warrants, represents and maintains that it has not employed nor retained any company or person, other than a *bona fide* employee working solely for CONSULTANT, to solicit or secure this Agreement. Further, CONSULTANT warrants and represents that it has not paid nor has it agreed to pay any company or person, other than a *bona fide* employee working solely for CONSULTANT, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of CITY, during the term of his or her service with CITY, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

6.9 TIME IS OF THE ESSENCE: Time is of the essence for each and every provision of this Agreement.

6.10 GOVERNING LAW AND VENUE: This Agreement shall be interpreted and governed according to the laws of the State of California. In the event of litigation between the Parties, the venue, without exception, shall be in the Los Angeles County Superior Court of the State of California. If, and only if, applicable law requires that all or part of any such litigation be tried exclusively in federal court, venue, without exception, shall be in the Central District of California located in the City of Los Angeles, California.

6.11 ATTORNEYS' FEES: If either Party commences an action against the other Party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing Party in such litigation shall be entitled to have and

recover from the losing Party reasonable attorneys' fees and all other costs of such action.

6.12 SUCCESSORS AND ASSIGNS: This Agreement shall be binding on the successors and assigns of the Parties.

6.13 NO THIRD-PARTY BENEFIT: There are no intended third-party beneficiaries of any right or obligation assumed by the Parties. All rights and benefits under this Agreement inure exclusively to the Parties.

6.14 CONSTRUCTION OF AGREEMENT: This Agreement shall not be construed in favor of, or against, either Party but shall be construed as if the Parties prepared this Agreement together through a process of negotiation and with the advice of their respective attorneys.

6.15 SEVERABILITY: If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

6.16 AMENDMENT; MODIFICATION: No amendment, modification or supplement of this Agreement shall be valid or binding unless executed in writing and signed by both Parties, subject to CITY approval. The requirement for written amendments, modifications or supplements cannot be waived and any attempted waiver shall be void and invalid.

6.17 CAPTIONS: The captions of the various articles, sections and paragraphs are for convenience and ease of reference only, and do not define, limits, augment, or describe the scope, content, or intent of this Agreement.

6.18 INCONSISTENCIES OR CONFLICTS: In the event of any conflict or inconsistency between the provisions of this Agreement and any of the exhibits attached hereto, the provisions of this Agreement shall control.

6.19 ENTIRE AGREEMENT: This Agreement including all attached exhibits is the entire, complete, final and exclusive expression of the Parties with respect to the matters addressed herein and supersedes all other agreements or understandings, whether oral or written, or entered into between CITY and CONSULTANT prior to the execution of this Agreement. No statements, representations or other agreements, whether oral or written, made by any Party which are not embodied herein shall be valid or binding. No amendment, modification or supplement to this Agreement shall be valid and binding unless in writing and duly executed by the Parties pursuant to Section 6.15, above.

6.20 COUNTERPARTS: This Agreement shall be executed in three (3) original counterparts each of which shall be of equal force and effect. No handwritten or typewritten amendment, modification or supplement to any one counterpart shall be valid or binding unless made to all three counterparts in conformity with Section 6.16, above. One fully executed original counterpart shall be delivered to CONSULTANT and the two remaining counterparts shall remain with the City for

archiving and day-to-day reference by the department responsible for administering the Agreement on the City's behalf.

6.21 Notwithstanding any provision to the contrary contained in this Agreement, in no event shall either party be liable for punitive damages.

6.22 **FORCE MAJEURE:** A party's performance of any obligation under this Agreement shall be excused if, and to the extent that, the party is unable to perform because of any event of Force Majeure. In any such event, the party unable to perform shall be required to resume performance of its obligations under this Agreement upon the termination of the event or cause that excused performance hereunder. "Force Majeure" herein means an event which is beyond the reasonable control of a party, including without limitation: (a) acts of God; (b) flood, fire, earthquake, hurricane or explosion; (c) war, invasion, hostilities (whether war is declared or not), terrorist threats or acts, riot or other civil unrest; (d) government order or law that prevents CONSULTANT from performing its obligations as set forth in this Agreement; (e) actions, embargoes or blockades in effect on or after the date of this Agreement; (f) action by any governmental authority that prevents CONSULTANT from performing its obligations as set forth in this Agreement; (g) national or regional emergency; (h) strikes, labor stoppages or slowdowns or other industrial disturbances, other than those involving the affected parties employees;] (i) shortage of adequate power or transportation facilities.

[SIGNATURE PAGE TO FOLLOW]

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed the day and year first appearing in this Agreement, above.

Proposal for:

2020 Urban Water Management Plan

October 15, 2020

Submitted by:

West & Associates Engineering, Inc.

WEST&ASSOCIATES
ENGINEERING, INC.

October 15, 2020

Cesar Roldan
Director of Public Works
City of Huntington Park
6550 Miles Avenue
Huntington Park, CA 90255

Subject: 2020 Urban Water Management Plan

Dear Mr. Roldan:

West & Associates is pleased to submit our Proposal for the 2020 Urban Water Management Plan for the City of Huntington Park.

In this proposal, you will find that our team has extensive UWMP preparation experience. As Project Manager, I have been involved in the preparation of **nearly each page** of twenty-four (24) UWMPs for agencies throughout California. As a firm, our goal is to prepare highly professional UWMPs, of which we have provided a sample in this Proposal (Exhibit A). As is evident by the sample, our goal is to not merely complete the scope of work and be in good standing with DWR, but to provide the Districts with a report that **staff can enjoy reading** and rely on as a quick source of information.

We understand the City's needs and have reviewed the City' 2015 UWMP to get a head start on this project. We have also reviewed the Draft 2020 UWMP Guidebook and the Water Code (Sections 10630 to 10635), and note the **key changes to the 2020 UWMPs** in Section 4 of this proposal. We plan to maintain contact with the Department of Water Resources (DWR) to keep track of changes affecting the 2020 UWMPs. Ultimately, the 2020 UWMP will be prepared in accordance with the 1983 Urban Water Management Planning Act and subsequent amendments. We have provided an ambitious schedule to submit the UWMP to the DWR by early May 2021, about **two (2) months prior** to the due date assigned by DWR (July 1, 2021).

I have read, understood, and agreed to all statements in this Request for Proposal and acknowledge receipt of all addendums/amendments as well as to the terms, conditions, and attachments referenced. This proposal is valid for a period of no less than one-hundred & twenty (120) calendar days from the date of this submittal. We have also acknowledged and signed Addendum No. 1, which is included on the following page.

Sincerely,

A handwritten signature in blue ink that reads "Phillip West".

SECTION 2: CONSULTANT'S BACKGROUND

Company Background

West & Associates Engineering, Inc. was started in 2015 by Mr. Phillip West. We provide technical consulting services to clients throughout California for a broad range of services, including planning, design, and construction management. In particular, we **specialize** in the following types of work:

PIPELINES

Water Mains, Sewers, Storm Drains, etc.

FACILITIES

Wells, Pumping Stations, Lift Stations, Valve Vaults, Tanks, Reservoirs, Structures, etc.

UWMPs

Twenty-Four (24) UWMPs. See **Exhibit A**

GENERAL CIVIL

Streets & Streetscapes, Grading, Parks, Parking Lots, etc.

Services Listed Include ALL Major Phases of Work:

- Planning
- Design
- Construct. Management

Other Notable Services:

- Plan Check
- Staffing Augmentation
- Specialty Studies

Nearly all our company experience has been with public agencies. As such, **our focus is on public clients**. Mr. West and the project team members have experience with nearly **sixty (60)** public agencies throughout California.

Company Information

We are a small **California "S" Corporation**. Our office is located in Foothill Ranch (Lake Forest) in Orange County, California. Mr. Phillip West acts as the Principal/President of the firm.

WEST&ASSOCIATES
ENGINEERING INC.

www.westaeng.com

- California "S" Corporation
- Fed I.D. #81-5259524 / CA I.D. # C3986570
- Contact: Phillip West, P.E., QSD/QSP
- Office: (949) 716-7670
- Cell: (714) 728-8082
- philw@westaeng.com

We currently have four (4) W-2 employee staff members and four (4) part-time licensed support staff who assist the project team members. Our project team is listed in **Section 6** of the Proposal.

SECTION 2: CONSULTANT'S BACKGROUND

UWMP Project Examples

As mentioned in our Cover Letter, we have prepared twenty-four (24) UWMPs for public agencies in California. Below are the **three (3) most recent agencies** for which we have prepared a UWMP:

CITY OF BLYTHE – 2015 UWMP

DATE OF SERVICES: DECEMBER 2017 – APRIL 2018

Armando Baldizzone, Director of Public Works

[\(760\) 922-6611](tel:(760)922-6611)

abaldizzone@cityofblythe.ca.gov

CITY OF CALEXICO – 2015 UWMP

DATE OF SERVICES: JANUARY 2017 – MAY 2017

Liliana Falomir, Project Coordinator

[\(760\) 768-2160](tel:(760)768-2160)

falomirl@calexico.ca.gov

LAKE ARROWHEAD COMMUNITY SERVICES DISTRICT – 2015 UWMP

DATE OF SERVICES: APRIL 2016 – JUNE 2016

Aida Hercules-Dodaro, District Engineer

[\(909\) 336-7100](tel:(909)336-7100)

ahercules@lakearrowheadcsd.com

A sample of our work is provided in Exhibit A of Section 3.

Based on the clients listed above, a few notable highlights include:

- We are capable of providing full UWMP services (including meetings and presentations) to clients **despite the distance** from our office.
- We are versatile and able to understand all types of hydrologic and water supply conditions in California, and how these conditions affect the preparation of UWMPs.
- We are capable of fast-tracking the UWMP process with a successful track record (we have completed UWMPs in as **fast as three (3) months**).

Total UWMP Experience

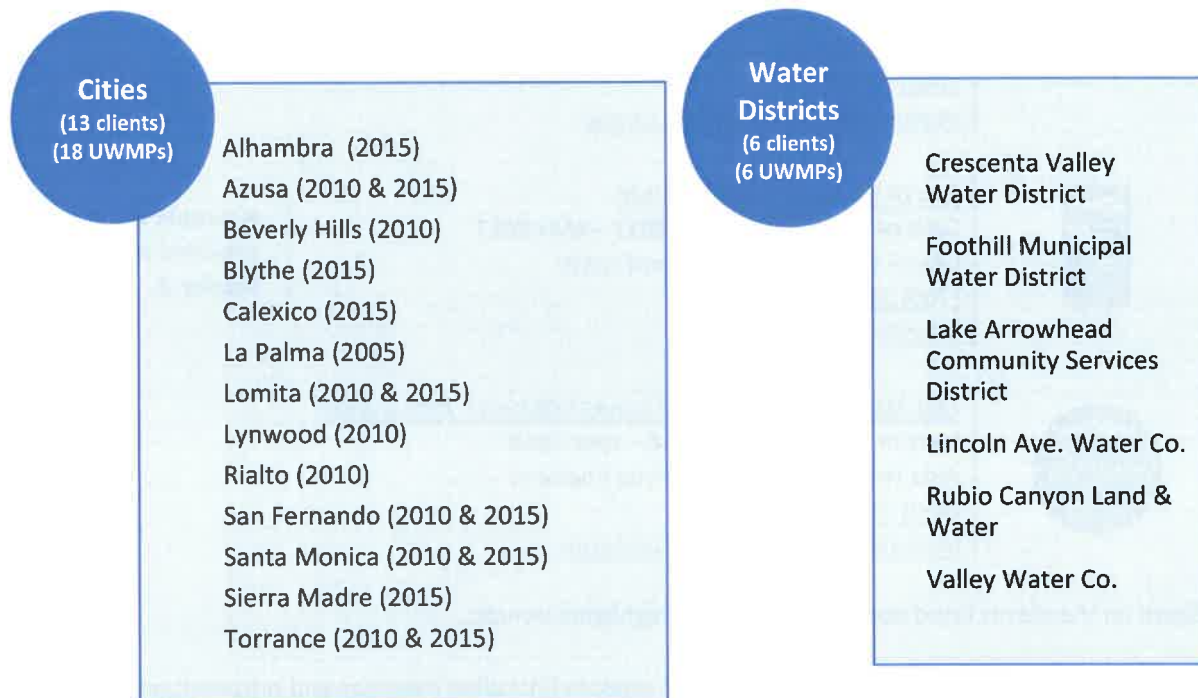

The West & Associates team members have very extensive experience with the UWMP process, having prepared a total of **twenty-four (24) UWMPs** for **nineteen (19) different clients** listed below:

- **Cities (13), including:** Azusa, Beverly Hills, Blythe, Calexico, Glendale, Glendora, La Palma, Lomita, Lynwood, Rialto, San Fernando, Santa Monica, Sierra Madre
- **Water Agencies (6), including:** Crescenta Valley Water District, Foothill Municipal Water District, Lake Arrowhead Community Services Department, Lincoln Avenue Water Company, San Gabriel Valley Municipal Water District, Valley Water Company

SECTION 3: QUALIFICATIONS AND EXPERIENCE OF PERSONNEL

Total UWMP Experience

The West & Associates team members have very extensive experience with the UWMP process, having prepared a total of **twenty-four (24) UWMPs** for **nineteen (19) different clients** listed below:

Mr. West was involved in the preparation of nearly each page of the UWMPs listed above. Three (3) of the above clients are actual West & Associates contracts. Mr. West prepared the other twenty-one (21) UWMPs listed above while working for his previous firm, where he managed the UWMP process. A sample of our work is displayed later in **Exhibit A** of this Section.

SECTION 3: QUALIFICATIONS AND EXPERIENCE OF PERSONNEL

Creative Results

Although UWMPs are required for State funding eligibility, the documents can be of good value for the Districts:

1. UWMPs can serve as a foundation document and a source of information for Water Supply Assessments (Senate Bill 610) and Written Verifications of Water Supply (SB 221).
2. In addition, a UWMP may serve as a long-range planning document for water supply, a source of data for development of a regional water plan, and a source document for cities and counties as they prepare their General Plans. These planning documents are linked, and their accuracy and usefulness are interdependent.

Therefore, our goal is to not merely complete the scope of work and be in good standing with DWR, but to provide the Districts with a report that staff can enjoy reading and rely on as a quick source of information. To accomplish this, we intend to prepare a UWMP that is highly professional and rich in content. We intend to provide a two-column style with photos and text inserts (to make data “pop”). The photos below present our solution for the Districts. This is also shown in **Exhibit A** of this Section.

Figure 1: Two-Column Style with Full-Page Photo

Figure 2: Two-Column Style with Photo and Text Insert.

SECTION 3: QUALIFICATIONS AND EXPERIENCE OF PERSONNEL

Statement(s)

West & Associates is not currently working on any projects which could pose a potential conflict of interest with this project. West & Associates also does not have any financial ties with any business or individuals related to this project. Finally, West & Associates has not experienced any disbarments, suspensions, or other forms of disciplinary or legal actions. In accordance with the information requested in the RFP, we hereby provide the following information:

No.	Information Requested in RFP	Company Data
1	Official name and address	West & Associates Engineering, Inc. 78 Anacapa Court Foothill Ranch, CA 92610
2	Proposer's primary point of contact	Phillip West (949) 716-7670 philw@westaeng.com
3	Type of entity	S-Corporation
4	Corporation Numbers	Fed No. 81-5259524 CA No. C3986570
5	Totally or partially owned by another business organization or individual?	No. Privately owned and operated.
6	Number of years Proposer has been in business under the present business name	5 years
7	Number of years of experience the Proposer has provided equivalent or related services	14 years
8	Failures or refusals to complete a contract?	No
9	Individuals/Firms who own an interest of 10% or greater in the firm	Mr. Phillip West, P.E.
10	Number of Employees (Including Part-Time Support Staff)	7
11	Financial interests in other lines of business?	No
12	Claims for Money or Damages History	None
13	Litigation/Adverse Judgement History	None
14	Termination of Contract "For Cause" History	None
15	Disciplinary Actions by Professional/Governing Bodies	None

SECTION 4: PROJECT APPROACH

General UWMP Project Understanding

It is our understanding that the City of Huntington Park (City) is seeking a qualified consultant to prepare the 2020 Urban Water Management Plan. As mandated by the State of California's Urban Water Management Planning Act, every urban water supplier providing water for municipal purposes to more than 3,000 customers, or supplying more than 3,000 acre-feet of water annually, is required to prepare and adopt an Urban Water Management Plan (UWMP) containing prescribed requirements. The Plan needs to be periodically reviewed every five years. UWMPs are required for a water supplier to be eligible for State grants and loans, including:

- Drinking Water State Revolving Fund – Primarily funds to help correct deficiencies
- Proposition 50 – Primarily funds for security and treatment technology
- Proposition 84 – Primarily funds for supplies and infrastructure

With regard to the funding opportunities listed above, the process typically goes as follows:

From our discussions with DWR, we understand that agencies that submit their UWMPs past the deadline are still eligible for grants or loans, but applications for such funds can be challenged by competing agencies for the same funding.

UWMP Significance for the Districts

UWMPs are considered to be a foundation document and a source of information for Water Supply Assessments (Senate Bill 610) and Written Verifications of Water Supply (SB 221). In addition, a UWMP may serve as a long-range planning document for water supply, a source of data for development of a regional water plan, and a source document for cities and counties as they prepare their General Plans. These planning documents are linked, and their accuracy and usefulness are interdependent.

Current Updates to UWMPs (2020)

To help provide our clients with the best possible service for the 2020 UWMPs, we have recently reached out to the Department of Water Resources (DWR) regarding key updates for the 2020 UWMPs. We have also reviewed the just-released Draft Guidebook for updates to the 2020 UWMPs. The following are **some of the key updates to the water code affecting the 2020 UWMPs**:

- CWC § 10631 (a): Include current and projected land uses in addition to population estimates.
- CWC § 10631 (f): Identify potential water supply projects during droughts of up to five (5) years.
- CWC § 10631.2 (a): UWMPs must report on the energy intensity of water supplies.
- CWC § 10632 (a)(3): Water Shortage Contingency Plan must include six (6) Standard Stages.
- CWC § 10632.5 (a): Water Shortage Contingency Plan must include Seismic Risk Assessment.
- CWC § 10635 (a): Water reliability projections must project droughts lasting up to five (5) years.
- CWC § 10635 (b)(4): Water reliability projections should account for impacts of climate change.

Guidance on the "60-Day" Notice

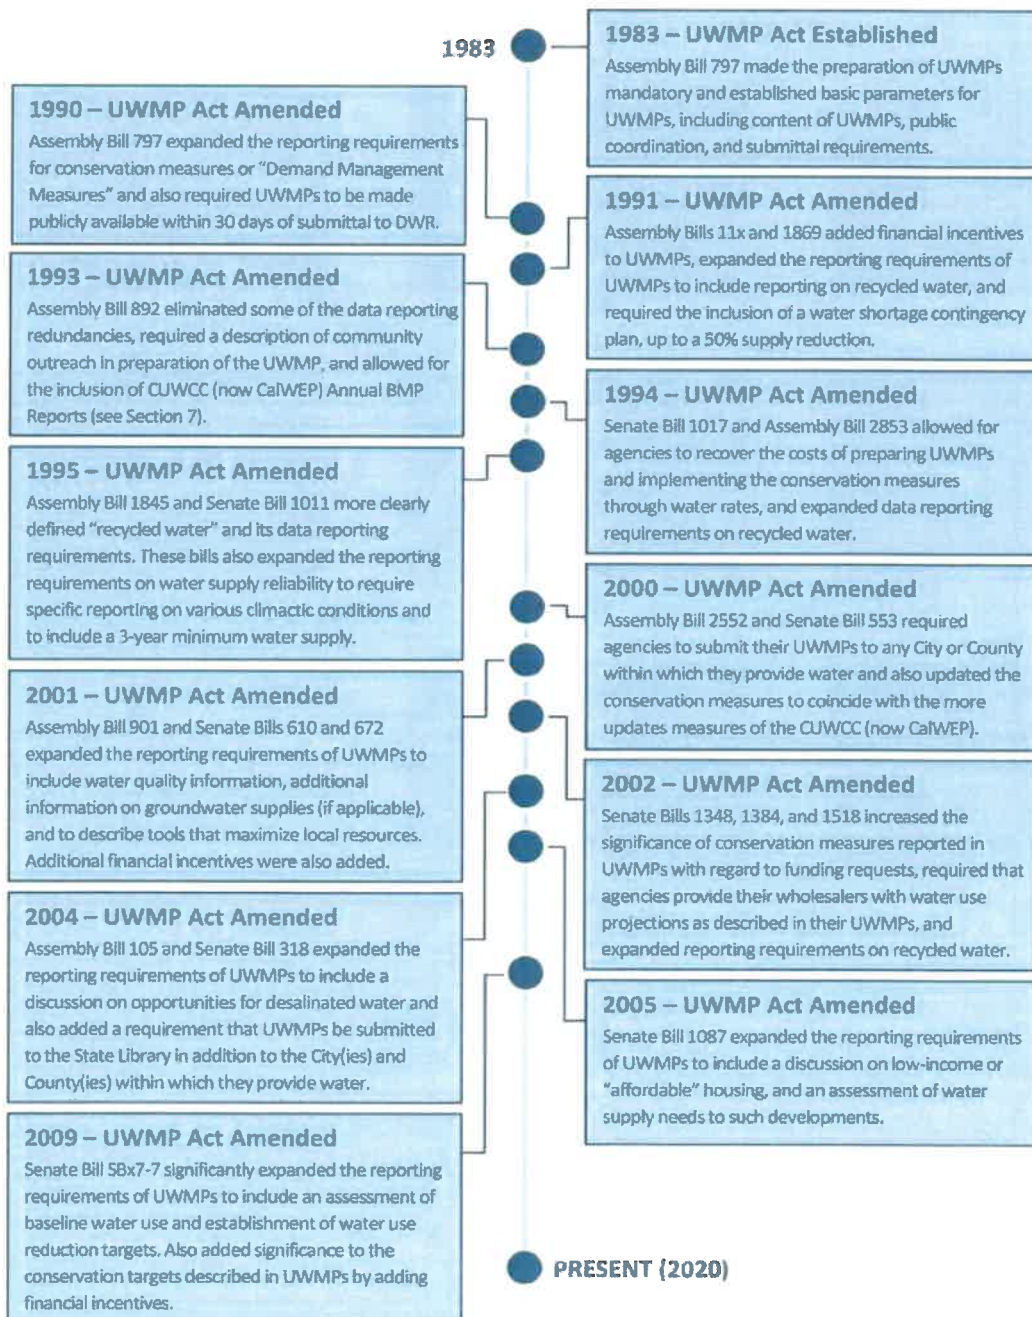

Some of our UWMP clients have questions regarding the "60-Day" notice of the Public Hearing. It may appear from first glance that the "60-Day" notice must be contingent on the Draft UWMP being available for review or inspection. However, the "60-Day" notice is simply an alert to neighboring agencies, including the

SECTION 4: PROJECT APPROACH

County, that the UWMP is being updated. Nevertheless, our schedule allows for the Draft UWMP to be available throughout the entire “60-Day” review period.

UWMP Timeline

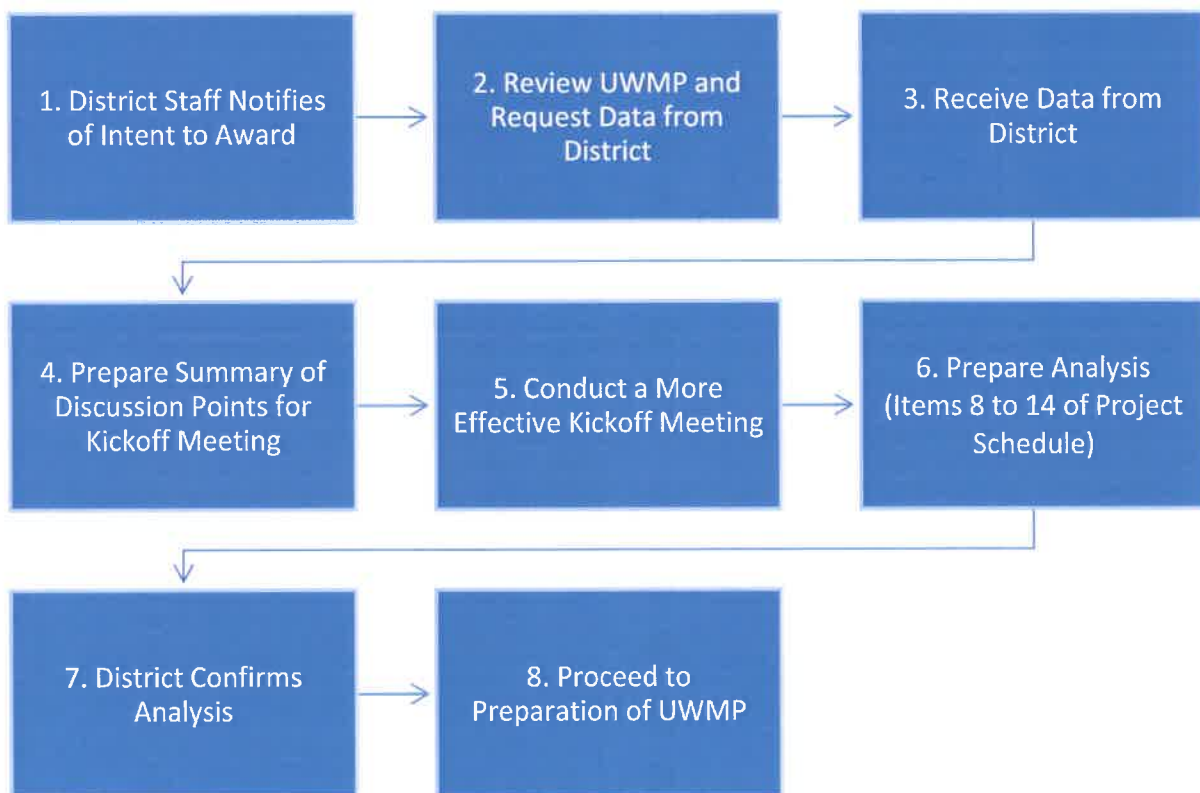

We prepared the graphic below to display our understanding of UWMPs prior to the 2015 UWMPs. The 2015 cycle resulted in less significant changes to the Water Code (UWMPs) than what is shown below:

SECTION 4: PROJECT APPROACH

Project Approach

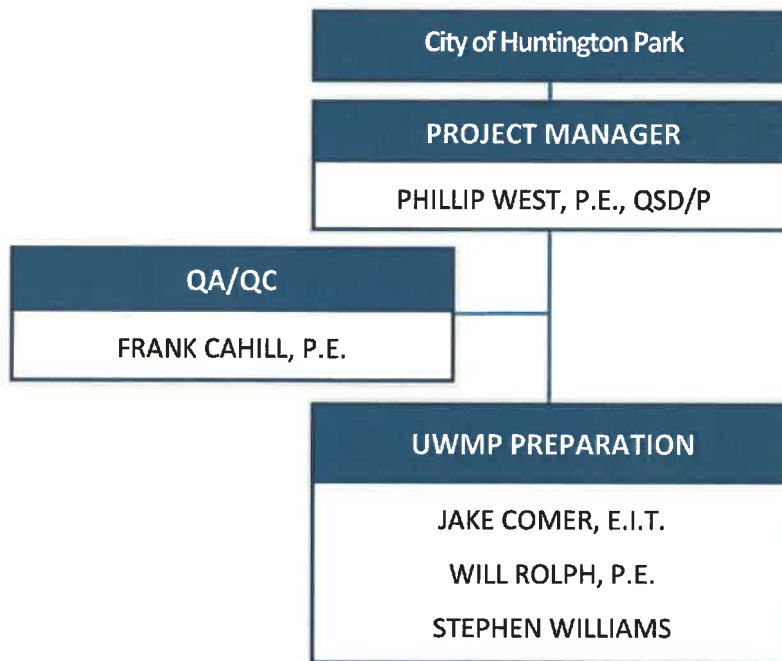

To accomplish the Scope of Work listed in the **Appendix**, we intend to begin preliminary work on this project upon notice of contract award (instead of upon Notice to Proceed). Typically, notice of contract award occurs up to two weeks prior to the Kickoff Meeting. The preliminary work conducted prior to the Kickoff Meeting will include conducting a thorough review of the previous UWMP and requesting data from the City in advance of the Kickoff Meeting. This approach will result in a more productive Kickoff Meeting and an accurate analysis of data. Most importantly, **an early start will save time**. Our approach is **illustrated below**.

SECTION 5: PROPOSED PERSONNEL

Organizational Chart

The project team will consist of the individuals below:

Resumes of the above individuals are provided later in this section.

Project Management

The project manager and team will approach the project as shown in Section 4 of this Proposal.

Project Team Roles

The Project Manager, Mr. Phillip West, has considerable experience in preparing Urban Water Management Plans. Mr. West has either personally prepared or overseen the preparation of twenty-four (24) UWMPs. He is familiar with DWR Staff and has kept himself updated of the UWMP requirements. Under his guidance, Mr. West will make certain that the project is on schedule and within budget.

The Engineers will assist and receive direction from Mr. West in doing research and obtaining statistics and reports from the Districts to compile all the information necessary to produce a comprehensive, thorough, and understandable UWMP. They will also help Mr. West in the formatting of the final report.

Mr. Cahill will provide necessary quality review and give keen insight to assist with the development of the UWMP. He will assure that the product is accurate and of high quality.

Phillip West, P.E., QSD/QSP
Project Manager

EDUCATION:
California State University,
Long Beach
B.S. Civil Engineering

REGISTRATION:
Registered Civil Engineer, California
No. 77453
Qualified SWPPP Developer (QSD)
Qualified SWPPP Practitioner (QSP)
Certificate No. 25034

OVERVIEW:

As Principal/President at West & Associates, Mr. West also serves as a Project Manager for all projects. The entirety of Mr. West's career has been **solely focused on public clients**, and he has served **nearly sixty (60) public agency clients** throughout his career. His experience has been very diverse and involves planning, design, construction management, field surveying, and even staffing augmentation. Most importantly for this particular project, Mr. West's background involves a **strong component of water infrastructure planning, design, and construction management**.

UWMP PROJECT EXPERIENCE:

Mr. West has a significant amount of UWMP experience as described below:

2015 Urban Water Management Plans

- Prepared nearly each page of the written report, coordinated with Client staff and outside agencies, assisted with Council/Board Adoption, and coordinated the submittal to the Department of Water Resources (DWR) for a total of sixteen (16) Urban Water Management Plans as follows:

• City of Alhambra	• City of Lomita
• City of Blythe	• Rubio Canyon Land & Water
• City of Azusa Light & Water	• City of San Fernando
• City of Calexico	• City of Santa Monica
• Crescenta Valley Water Dist.	• San Gabriel Valley Municipal Water District
• Foothill Municipal Water Dist.	• City of Sierra Madre
• Lake Arrowhead CSD	• City of Torrance
• Lincoln Avenue Water Com.	• Valley Water Company

2010 Urban Water Management Plans

- Prepared each page of the written report, coordinated with City staff and outside agencies, assisted with Council/Board Adoption, and coordinated the submittal to the Department of Water Resources (DWR) for a total of eight (8) Urban Water Management Plans for the following agencies:

• City of Azusa Light & Water	• City of Rialto
• City of Beverly Hills	• City of San Fernando
• City of Lomita	• City of Santa Monica
• City of Lynwood	• City of Torrance Municipal Water

Other (Recent) Experience:

- Mesa Water District: On-site staff augmentation for approximately one (1) year time period.
- Assisted with the preparation of the Well Site Selection Technical Memo for the City of Lynwood's Well 22. The Technical Memo evaluated several site alternatives within the City for a new Well 22. The Technical Memo concluded that the City's Lynwood Park Site was the most feasible location for a new well.
- Assisted with the preparation of the Well Site Selection Technical Memo for the City of Rialto's Well 3A. The Technical Memo evaluated several site alternatives within the City for a new Well 22.

Frank Cahill, P.E.
Quality Assurance/Control**EDUCATION:**

University College Dublin,
Ireland
B.Eng. Civil Engineering

REGISTRATION:

Registered Civil Engineer, California
No. 55373

OVERVIEW:

Mr. Cahill has about **twenty-five years** of experience in California with civil engineering management, design and construction for site development, and **municipal projects** in the **water/wastewater** industry. He will be providing quality review of plans prior to submittal to the City.

RELATED PROJECT EXPERIENCE

Mr. Cahill has been involved with the related projects described below and on the following page. These projects are only a small portion of Mr. Cahill's overall experience:

EAST ORANGE COUNTY WATER DISTRICT

Mr. Cahill acted as the District Engineer for East Orange County Water District from 2017 to 2018, for a period of nearly two years. District Engineer duties included oversight of current projects, planning and budgeting of proposed projects, direction of staff and resources. During his tenure, Mr. Cahill oversaw the implementation of the District's Master Plan Update.

IRVINE RANCH WATER DISTRICT

Project Manager & QA/QC services for the Culver Drive Recycled Water Main Replacement project. The project involved replacement of approximately 1,200 feet of existing recycled water main with a new 12-inch PVC recycled water main, along with new recycled service laterals, air-vacs and a blow-off, and abandonment of existing facilities. The project also involved a complex connection in a busy intersection that required traffic control and the installation of a large 8-inch meter vault to an existing golf course.

MOULTON NIGUEL WATER DISTRICT

Project Manager for the Wood Canyon Domestic Water Booster Pump Station which included four 150 HP pumps, suction and discharge piping and valves, LPG standby generator, electrical system and controls, masonry building, grading and miscellaneous site work. Also provided construction management and inspection services.

CITY OF SIMI VALLEY

Prepared a Water Master Plan for a proposed development in the City. The proposed development included roughly 200 homes, new golf courses, a clubhouse, and club member suites. The master plan included nearly 5 miles of new mains, a booster station, a new reservoir, and revitalization of an existing reservoir.

Quality Assurance/Control services for the design of about 30,000 feet of new streets for a proposed housing development in the City. The street improvements included new street design, curb and gutter, parking pop-outs, and parking lots for a clubhouse at a private golf course. The project also included street rehabilitation work. Mr. Cahill overlooked the design of over 22,000 feet of water mains and over 3,000 feet of sewer improvements within the project vicinity.

UNIVERSAL STUDIOS

Prepared Domestic and Fire Water Master Plans as a Universal Studios Project Engineer. Recommended modifications to enhance the performance of the existing systems.

Jake Comer, E.I.T.
Civil Engineer

EDUCATION:
California State University,
Long Beach
B.S. Civil Engineering

REGISTRATION:
Engineer-In-Training, CA (No. 18-460-16)
Licensed Engineer, CA (In Progress)

OVERVIEW:

Mr. Comer serves as an assistant engineer for various projects, including water, sewer, and storm drain projects. **The majority of Mr. Comer's experience has been with public agencies.**

UWMP PROJECT EXPERIENCE

2015 Urban Water Management Plans (UWMPS)

Assisted with preparation of a portion of 2015 UWMPS for various agencies, including:

- | | |
|----------------------------------|---|
| • City of Alhambra | • Rubio Canyon Land & Water |
| • City of Azusa Light & Water | • City of San Fernando |
| • Crescenta Valley Water Dist. | • City of Santa Monica |
| • Foothill Municipal Water Dist. | • San Gabriel Valley Municipal Water District |
| • Lake Arrowhead CSD. | • City of Sierra Madre City of Torrance |
| • Lincoln Avenue Water Com. | • City of Torrance |
| • City of Lomita | • Valley Water Company |

OTHER PROJECT EXPERIENCE

USACE LOS ANGELES DISTRICT

Performed field inspections of multiple levee systems using the Levee Inspection System (LIS) tablet and prepared Periodic Inspection Reports (PIR). Used available levee information (previous inspections, design manuals, as-built drawings, O&M manuals, etc.) to compile information that could assess the as-built condition of the levee to the current condition of the levee. Periodic Inspections consist of extensive reconnaissance efforts which drew from the afore mentioned available levee information and current field inspections data. Work also included a design criteria review in which the original levee design is evaluated to determine if it meets the current design criteria. The overall integrity of the levee was rated based on the deficiencies observed during the periodic inspection, such as excessive vegetation, erosion, slope instability, seepage, settlement, etc. Jake then presented these ratings to the USACE Los Angeles District and levee sponsor through PowerPoint.

Performed field inspections of over forty channels in both California and Arizona using the Levee Inspection System (LIS) tablet and prepared Continued Eligibility Reports. The previous inspection reports, as-builts, and site locations were reviewed prior to the inspections. Coordination with the local sponsor for each facility was also undertaken. The inspections consisted of walking along each channel, noting deficiencies and anything that may cause a fluctuation in the original design.

ORANGE COUNTY FLOOD CONTROL DISTRICT

Lead existing utilities research efforts at several bridge and channel intersections within the Westminster and East Garden Grove project vicinity. Aided with the design of proposed culverts and the relocation of conflicting utilities. Was hired by the Orange County Flood Control District to analyze key locations where channel systems intersected bridge crossings. Analyses of the design and cost for improvements would then be used to develop a cost for improving other locations. A feasibility study that revealed possible conflicting utilities was submitted along with a plan set.

**Will Rolph, P.E., P.L.S., QSD/P
Engineer****EDUCATION:**
California State University,
Long Beach
B.S. Civil Engineering**REGISTRATION:**
Licensed Civil Engineer, CA. No. 76698
Licensed Surveyor, CA 9381
Qualified SWPPP Developer (QSD)
Qualified SWPPP Practitioner (QSP)
Certificate No. 00812**OVERVIEW:**

Mr. Rolph assists Mr. West with a portion of West & Associates' projects. In the past several years, he has worked on numerous water/sewer/storm projects throughout Southern California. Mr. Rolph's primary background is related to large residential and commercial development project, but he also has experience working with California State agencies, such as Caltrans and the State Water Resources Control Board (SWRCB). **A significant portion of Mr. Rolph's experience is water and water-quality related.**

Mr. Rolph's background involves a strong component of water and sewer utility design, including pumping stations, reservoirs, pipelines, etc. Some of the projects that Mr. Rolph has been involved in include:

RECENT UWMP-RELATED PROJECT EXPERIENCE:

Mr. Rolph has a very strong background in California State water and water-quality documents, including:

- SWPPPs
- WQMPS
- SUSMPS
- SQUIMP

Mr. Rolph has produced many of the above documents for or on behalf of the following agencies:

- Contractors
- Developers
- Private Commercial or Private Large Residential Properties
- Caltrans
- State Water Resources Control Board (SWRCB)

OTHER PROJECT EXPERIENCE

Mr. Rolph has experience in the projects described below:

New PVC C900 Watermain for Eagle Rock Residential Development

Corona R-3 Potable Water Reservoir.

Plant 224 – New Pump Station in Whittier.

Silver Lake Reservoir Complex.

New PVC C900 Watermain for Eagle Rock Residential Development

San Jose Elementary, Pomona CA

Washington Elementary School, Pomona CA

SR 10 Onramp Improvements, San Bernardino County, CA

Storm Drain Improvements, San Juan Capistrano CA

Stephen Williams
Assistant Engineer**EDUCATION:**
Penn State University,
B.S. Business (Organizational Leadership)**OVERVIEW:**

Mr. Williams provides Engineering, Drafting, Surveying, and QA/QC assistance for West & Associates Projects. Prior to his experience in the water/wastewater industry, Mr. Williams had worked in the manufacturing industry for about 10 years, wherein he supervised a team. His skills with the finer details add to the precision of work for the project team. To date, Mr. Williams has experience on the design of over **30,000 feet of water and sewer mains** for four (4) public agencies.

PROJECT EXPERIENCE

Mr. Williams has been involved with the related projects described below:

CITY OF ALHAMBRA

Engineering services for the Chapel Avenue Sewer Main Replacement project. The project involved replacing an existing 8-inch sewer main with a 12-inch sewer main, including manhole rehabilitation, connections to existing sewer service laterals, and street rehabilitation. The work also included a Preliminary Design Report (PDR) which evaluated design alternatives and calculated sewer flows and capacity of the existing and new main. Finally, the project also involved street rehabilitation.

Engineering services for the Winchester Avenue and Winthrop Drive Water Main Replacement project. The project involved replacing distribution mains and a transmission main along with new service laterals, hydrants, air-vacs and blow-offs, connections to existing mains, and abandonment of existing facilities. The total length of the project was approximately 10,000 feet.

CITY OF CHINO

Engineering services for the Baker Avenue Water Main Replacement project. The project involved replacing a distribution main along with new service laterals, hydrants, and connections to existing mains. The project also involved coordination with the Division of Drinking Water for the location of the new water main. The total length of the project was approximately 700 feet.

CITY OF CHINO HILLS

Engineering services for the Maroon Bell – Winchester Water Main Replacement project. The project involved land surveying, replacing distribution mains along with new service laterals, hydrants, air-vacs and blow-offs, connections to existing mains, and abandonment of existing facilities. The project also involved street rehabilitation. The total length of the project was approximately 3,500 feet.

GOLDEN STATE WATER COMPANY

Project assistant services for GSWC's Lawndale Area Water Main Replacements – Hawthorne Blvd Project, including review of plans and minor adjustments to Design of Plans per Caltrans' comments.

CITY OF SIMI VALLEY

Assistant engineering services for the design of about 30,000 feet of new streets for a proposed housing development in the City. The street improvements included new street design, curb and gutter, parking pop-outs, and parking lots for a clubhouse at a private golf course. The project also included street rehabilitation work. Mr. Cahill overlooked the design of over 22,000 feet of water mains and over 3,000 feet of sewer improvements within the project vicinity.

SECTION 6: QUALITY ASSURANCE/QUALITY CONTROL

Quality Assurance/Control

From our UWMP experience, we understand that the Department of Water Resources (DWR) may take a few years to review the UWMP. Should DWR have any comments to the UWMP, we are able to respond to any DWR comments even if the comments are received a few years after completion of the 2020 UWMP. However, our goal is to prepare a UWMP that meets DWR requirements. To accomplish this, we will implement the following quality assurance/control measures:

- The Project Manager, Mr. Phillip West, will be directly involved with this project. Instead of periodic reviews and dictations to engineering staff, he will work alongside engineering staff to ensure the work is done properly. All staff members have access to the same files and can edit as the needs arise without things being “lost-in-translation”. This drastically reduces errors during the work process.
- We will keep in touch with DWR on a regular basis. This will include phone calls, emails, and webinars. In fact, we have been in touch with DWR recently in the months of May and July regarding proposed changes to the 2020 UWMPs.
- All work will go through a quality assurance/control process before submittal to the client. We strive to have all projects reviewed by an experienced individual not directly involved with the project, although general familiarity with the project and the client is desirable. During the quality assurance/control process, Adobe PDF software is utilized to review documents as opposed to printing hard copies. Although this is a “green” method, its primary function is to **save time and to keep records of our quality control**. This is also important if any quarantines persist during this project. The review of the construction documents shall focus on the following three key areas: 1) conformance to DWR criteria, 2) accuracy of data, and 3) quality of writing.

To ensure the Final UWMP adheres to DWR requirements, we will complete the UWMP checklist before each submittal. The checklist will provide the Section and/or Page number where the information can be found in the UWMP. This will help the City confirm that the UWMP adheres to DWR requirements before it is submitted to DWR.

SECTION 7: REFERENCES

References

The following are key references in addition to the recent UWMP projects listed in Sections 2 and 3.

SECTION 8: SCHEDULE AND SCHEDULE CONTROL

Project Schedule

We have included our project schedule on the following page in MS Project format. The schedule is based on a start date (Kickoff Meeting) of November 12, 2020 in accordance with the Tentative City Council Award Date as shown on Page 10 of the RFP ("Attachment 1 - Important Dates"). The schedule shows submittal of the 2020 UWMP to DWR by **early May 2021**, which is about **two (2) months prior** to the DWR-assigned due date of July 1, 2020.

***Note:** The schedule provides sufficient time for the 60-day notification period prior to the Board of Directors Adoption/Public Hearing.*

**City of Huntington Park
2020 Urban Water Management Plan
Project Schedule**

APPENDIX: DETAILED SCOPE OF WORK

Scope of Services

This Section provides the Scope of Services as listed below. The sequence of tasks is presented in our **project schedule**, contained in the previous Section.

A. Project Management & Meetings

Work to be performed under this category shall commence by conducting a Kick-Off meeting with the City staff to form internal contacts and to lay out the agenda and schedule. Following the kickoff meeting, this category will include the following tasks:

1. Establishing quality assurance and control standards.
2. Establishing contacts with outside agencies to obtain additional data and assistance.
3. Schedule monitoring and updating as necessary.
4. Coordination with the City to clarify data and to schedule deliverables and meetings.
5. Coordination with the City staff to issue the 60-day notice.
6. Coordination with the City Staff to issue the 2-week notice and the 1-week notice.
7. Progress meetings with City staff.
8. Coordination with the City Staff prior to the public hearing.
9. Other meetings as necessary.
10. Preparation of meeting agendas and minutes.
11. Printing, packaging, and delivery of documents.
12. Invoicing at Draft and Final Levels of UWMP.

B. Data Collection & Analysis

1. Projected Population & Commercial/Industrial/Institutional (CII) Growth
Prepare population and CII projections based on the 2015 UWMP for compliance with the Water Code and Guidebook. Projections will address permanent and transient populations.
2. Projected Demand
Prepare a complete demand forecast, including permanent and transient populations, distribution system water loss, CALGreen Codes, and water savings from demand management measures as well as state and municipal codes and standards for a minimum 25-year horizon.
3. Projected Supply
Prepare an update of current and potential water sources for a minimum 25-year horizon. Include supply use targets in GPCD as well as acre feet (AF), based on the baseline developed in projected demand. Consider all data available including the hydrological model, Replenish reports, Technical Review Team agenda items, and historic documents.
4. Water-Energy Intensity Analysis
Calculate energy intensity of groundwater, conveyance, treatment, storage, and distribution.
5. Drought Risk Assessment and Climate Assessment
These assessments will be a part of the UWMP. Quantify the impact of climate change and drought risk on supplies. Evaluate plausible worst-case conditions for a period of at least ten years. Consider reviewing the Drought and Water Shortage Risk Explorer Tool for Small Water Suppliers and Rural Communities for local risk scores and indicators.
6. Water Shortage Contingency Plan
The Water Shortage Contingency Plan (WSCP) will be part of the UWMP. The WSCP must demonstrate the ability of the City to meet demands under a supply shortage up to 50 percent, with levels of shortage and response actions. The Consultant shall work with the City staff to develop:

APPENDIX: DETAILED SCOPE OF WORK

- a. An annual water budget forecast process and assessment.
 - b. A list of indicators that should be reviewed annually to determine if a water supply shortage is anticipated.
 - c. A worksheet that can be used to compare supply and demand, including available supply mitigation options.
 - d. A calendar indicating the months or seasons when the water budget shall be developed and when indicators of a potential shortage should be evaluated.
 - e. A description of revenue impacts in water shortage periods. Potential water rate adjustments may be developed in collaboration with the City.
 - f. A process flow chart to document implementation actions to be taken.
 - g. An organizational chart showing which the City staff are responsible for tracking and implementing the WSCP.
 - h. A Public Outreach plan based on WSCP implementation.
7. **Seismic Risk Assessment and Mitigation Plan**
- The seismic risk assessment must include a description of the vulnerability of each of its water system(s) facilities as follows:
- a. Evaluate seismic risk zone for the water supplier.
 - b. Identify best practices to reduce seismic risk at critical water facilities (e.g. tie tanks to foundations, flex couplings at tanks, anchoring at pump stations, and treatment plants).
 - c. Inventory major equipment at pump stations (including wells), treatment plants, and most critical facilities.
 - d. Confirm best practices are implemented by the water supplier at the facilities.
 - e. Identify facilities that are most at-risk and the relative impact of that facility on water delivery. Develop a plan to reduce the risk at these facilities.

C. Outreach & Coordination with Other Agencies and Stakeholders

This work item will include contacts with outside agencies necessary to obtain additional data and assistance.

1. Coordination with local water agencies to provide data for use in preparing the UWMP; to obtain water supply forecasts, reliability assessments, and water shortage contingency planning for the region; and for discussion of imported water quality.
2. Coordination with DWR as necessary.
3. Prepare public notices for the City staff's review and approval prior to issuance of public hearing.
4. Draft the 60-day notice for the City use in sending out to agencies.
5. Draft the 2-week and the 1-week notices for the City use in publishing to the local press.

D. Preparation of Urban Water Management Plan

This work item will include the preparation of the City UWMP per the latest requirements, and shall include the following content:

1. Describe the service area of the City. Include current and projected population in five-year increments over a 25-year period. This data will be provided by the City.
2. Identify and quantify the existing and planned sources of water available to the City over the same five-year increments over a 25-year period.
3. Describe the groundwater basin from which the City extracts groundwater, and provide information such as the static pumping levels, water quality, extraction rate, total storage, and recharge. This data will be provided by the City.

APPENDIX: DETAILED SCOPE OF WORK

4. Describe the reliability of the water supply and vulnerability to seasonal or climatic shortages. Provide data for an average water year, a single dry water year, and multiple dry water years.
5. Describe the opportunities for exchanges or transfers of water on a short-term or long-term basis.
6. Quantify past, current, and projected water use in the same five-year increments over a 25-year period. Identify the uses among water use sectors, including:
 - a. Single-family residential
 - b. Multi-family residential
 - c. Commercial
 - d. Industrial
 - e. Institutional and Governmental
 - f. Landscape
 - g. Sales to other agencies
 - h. Agricultural
7. Describe the City water demand management measures (DMMs), including:
 - a. A schedule of implementation for all water demand management measures proposed or described in the UWMP.
 - b. A description of the methods that the City will use to evaluate the effectiveness of water demand management measures implemented or described in the UWMP.
 - c. An estimate, if available, of existing conservation savings on water use within the City service area, and the effect of such savings on the City ability to further reduce demand.
8. Evaluate each water demand management measure that is not currently being implemented or scheduled for implementation. In the course of the evaluation, first consideration will be given to water demand management measures that offer lower incremental costs than expanded or additional water supplies. This evaluation shall do the following:
 - a. Take into account economic and non-economic factors, including environmental, social, health, customer impact, and technological factors.
 - b. Include a cost-benefit analysis, identifying total benefits and total costs.
 - c. Include a description of funding available to implement any planned water supply project that would provide water at a higher unit cost.
 - d. Include a description of the City legal authority to implement the measure and efforts to work with other relevant agencies to ensure the implementation of the measure and to share the cost of implementation.
9. Prepare a detailed description of expected future projects and programs, other than the demand management programs, that the City may implement to increase the amount of the water supply available to the City in average, single-dry, and multiple dry water years.
10. Describe the opportunities for development of desalinated water, including ocean water, brackish water, and ground water as a long-term supply.
11. Provide the wholesale agency with water use projections in five-year increments over a 25-year period, or as far as data is available.
12. Prepare an Urban Water Shortage Contingency Plan (WSCP), which includes the following items:
 - a. Stages of action to be undertaken by the City in response to water supply shortages, including up to a 50 percent reduction in water supply and an outline of specific water supply conditions that are applicable to each stage.
 - b. An estimate of the minimum water supply available during each of the next three water years based on the driest three-year historic sequence for the City water supply.

APPENDIX: DETAILED SCOPE OF WORK

- c. Actions to be undertaken by the City to prepare for and implement during a catastrophic interruption of water supplies, including a regional power outage, an earthquake, or other disasters.
 - d. Additional mandatory prohibitions against specific water use practices during water shortages, including prohibiting the use of potable water for street cleaning.
 - e. Consumption reduction methods in the most restrictive stages.
 - f. Penalties or charges for excessive use.
 - g. The revenues and expenditures of the City, and proposed measures to overcome those impacts.
 - h. A draft water shortage contingency resolution or ordinance.
 - i. A mechanism for determining actual reductions in water use pursuant to the urban water shortage contingency analysis.
- 13. Evaluate the requirements of Senate Bill No. 7 (SBx7-7) to achieve a 20% reduction in urban per capita water use by December 31, 2020. Since this date is approaching, this requirement will be reevaluated with DWR upon project kickoff.
 - 14. Provide, to the extent available, information on recycled water and its potential for use as a water source in the City service area.
 - 15. Include information, to a practicable extent, on the quality of existing sources of water available to the City in five-year increments over a 25-year period. Identify how the quality of these sources affect water management strategies and supply reliability.
 - 16. Provide an assessment of the reliability of the City water service, which will include an assessment of the reliability of the City water service to its customers during normal, dry, and multiple dry water years. This water supply and demand assessment shall compare the total water supply sources available to the City, with the total projected water use in five-year increments over a 25-year period for a normal water year, a single dry water year, and multiple dry water years.
 - 17. Prepare a report outlining the findings, conclusions, and recommended actions pursuant to the Urban Water Management Planning Act.

E. Presentation of UWMP

Work to be performed under this work item shall include preparation of presentation documents and presentation of the UWMP as follows:

- 1. Preparation of documents including exhibits, agenda, and PowerPoint files.
- 2. Presentation to the City staff, general public, and City Council during progress meetings.
- 3. Provide assistance to the City staff in scheduling public hearing.
- 4. Presentation of 2020 UWMP to the City Board at the Public Hearing (Board Meeting).
- 5. Provide assistance to the City staff for the adoption and resolution of the City 2020 UWMP

F. Submission to Department of Water Resources

Once the City adopts its 2020 UWMP, we will finalize the entire document (including appendices) submit the FINAL UWMP to DWR electronically via their "WUE" tool. We will also assist City staff in providing CD copies of the FINAL UWMP to the County and the State Library, as required by DWR.

APPENDIX: DETAILED SCOPE OF WORK

G. Project Deliverables

We will provide the following deliverables for the City during the course of this project:

1. Initial Data Request Memo upon Notice of Contract Award (to Kick-Start Task B above)
2. Technical Analysis (Spreadsheets, Tables, and/or Graphs) for:
 - a. Population Analysis
 - b. Supply/Demand
 - c. Other Analysis (Water Quality, Energy, Drought, Contingency)
3. Three (3) Hard Copies of the First Draft of the UWMP
4. Three (3) Hard Copies of the Final Draft of the UWMP
5. Three (3) Hard Copies of the Final Record (Adopted) 2020 UWMP
6. Electronic Copies of the following:
 - a. PDF and Microsoft Word version of the Draft of Demand Projections, Draft of the Water Shortage Contingency Plan, First Draft, Final Draft, and Final Record 2020 UWMP
 - b. 60-day notice letter (template for City use)
 - c. 2-week notice and 1-week notices (template for City use)
 - d. Agenda for the Public Hearing
 - e. PowerPoint Presentation at the Public Hearing
 - f. City Board Resolution (Included in the UWMP; City to provide)
 - g. PDF version of Final Record 2020 UWMP with Appendices to Outside Agencies
7. Other deliverables as necessary.

SECTION 9: FEE SCHEDULE/COST PROPOSAL

Detailed Fee Estimate

Task No.	ITEM	PM	ENGR	QA/QC	SEC	TOTAL	
		\$120	\$110	\$112	\$65	HRS.	\$
NON-OPTIONAL WORK LISTED IN PROPOSED SCOPE							
Pt. 1 - PROJECT MANAGEMENT & MEETINGS							
1	Kickoff Meeting Including Agenda & Minutes	4	8			12	\$1,360
2	Coordination & Support for 60-day Notice	1	3			4	\$450
3	Coordination & Support for the 2-week Notice and 1-week Notice	1	3			4	\$450
4	Progress Meetings (2)	8	8			16	\$1,840
Subtotal		14	22	0	0	36	\$4,100
Pt. 2 - DATA COLLECTION & REVIEW							
1	Data Collection and Review	2	8			10	\$1,120
2	Technical Analysis (Population, Supply/Demand, Water Quality, etc.)	4	20			24	\$2,680
Subtotal		6	28	0	0	34	\$3,800
Pt. 3 - OUTREACH & COORDINATION WITH OTHER AGENCIES & STAKEHOLDERS							
1	Coordination with Local Agencies Including County	4	8			12	\$1,360
2	Coordination with Department of Water Resources	4	8			12	\$1,360
Subtotal		8	16	0	0	24	\$2,720
Pt. 4 - UWMP PREPARATION & SUBMITTAL							
1	Prepare & Submit First Draft UWMP	12	80	14	8	114	\$12,328
2	Prepare & Submit Final Draft UWMP	8	32	8	8	56	\$5,896

Cesar Roldan, Director of Public Works
City of Huntington Park
6550 Miles Avenue
Huntington Park, CA 90255

Subject: Proposal to Update the Urban Water Management Plan

Dear Mr. Roldan:

The City of Huntington Park seeks an experienced engineering firm to update their Urban Water Management Plan (UWMP) to ensure sufficient water supplies are on hand to accommodate current and future water needs. Infrastructure Engineers is proposing a seasoned team of professionals with extensive experience in assessing and planning for water resources. Our proposed project manager, Charlie Marr, PE, has provided water master planning and water resources analyses for more than 30 years. His expertise in urban water planning includes water resources investigations, analysis of potential water supply sources and development of future water supply scenarios. He is proficient in preparing technical studies in support of state regulations, such as the California Environmental Quality Act, Urban Water Management Planning Act, and the Water Conservation Act.

Our Vice President of City Engineering Services, Douglas Benash, PE, QSP/QSD, will serve as Principal-in-Charge to provide oversight and quality assurance. He has the authority to commit the necessary resources to the 2020 UWMP update to ensure timely delivery of a compliant document that will meet the requirements of the new 2020 Urban Water Management Plan Guidelines (draft).

We are confident the references provided will assure the City that we have the hands-on experience and know-how to complete this work on schedule and within budget. Our entire team stands ready to assist the City with this important project as soon as the notice to proceed is given.

We have read, understood, and agreed to all statements in the Request for Proposal and acknowledge receipt of all addendums/amendments as well as to the terms, conditions, and attachments referenced. As Chief Operating Officer of Infrastructure Engineers, I am authorized to bind the firm to all commitments made in this proposal. If you have any questions, please contact our proposed Principal-in-Charge, Douglas Benash, PE, QSP/QSD. Contact information for Mr. Benash is directly to the right. Thank you for this opportunity to continue to be of service to the City of Huntington Park.

Sincerely
Infrastructure Engineers

Farzad Dorrani, MS
Chief Operation Officer

AUTHORIZED REPRESENTATIVE:

Douglas Benash, PE, QSP/QSD
Principal-in-Charge
13200 Crossroads Parkway, Suite 400
Industry, CA 91746

Infrastructure Engineers Background

Infrastructure Engineers has provided Urban Water Management Plan (UWMP) services to cities and water agencies throughout Southern California since the inception of the program in 2000. Additionally, we have performed numerous Water Supply Assessments (WSA) over the years, with five completed within the last two years and two currently underway. Our skilled personnel have overseen every step of the process including projecting long-range water demands, estimating water savings based on state mandates and conservation trends, identifying existing and future water supplies, assessing supply reliability, and developing plans for meeting future water supply shortages. We are presenting the City with a team of highly experienced and skilled engineers and who can provide all the services needed to complete the City's 2020 UWMP and the associated public outreach activities. Team members have provided the following services for decades:

- Urban Water Management Plans
- Water Assessment Plans
- Water Well Studies
- Water System Evaluations and Appraisals
- Water System Maintenance and Operations
- Water Rate Adjustment Reports
- Replacement and Expansion of Water Lines
- City Water Conservation Ordinances
- Contract Water Superintendents
- Clean Water State Revolving Fund Grant Applications
- Water Well and Reservoirs Design

Many of our staff have been city employees in managing and supporting roles so they understand the concerns regarding schedules, budgets, and project maintenance. They also possess first-hand knowledge of the City's operations and priorities, which empowers them to be strong advocates for every community our firm is fortunate to hold as a client, including the City of Huntington Park.

Our proposed Project Manager, Charlie Marr, PE, has extensive experience in urban water and system management planning and is an authority on water resources investigations, analysis of potential water supply sources, and development of future water supply scenarios. He has prepared technical studies, conducted water supply investigations, and produced distribution planning documents in support of state regulations for municipalities and water agencies including the City of Alhambra, the City of Simi Valley, the City of Thousand Oaks, the City of Chino Hills, Santa Margarita Water District, Rancho California Water District, and the City of San Clemente. His breadth of experience in the field makes him uniquely qualified to oversee the UWMP Update for the City of Huntington Park.

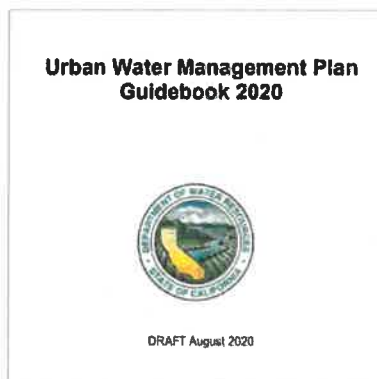

Charlie Marr
Project Manager

We are also proposing James Tsumura in the role of Systems Evaluator. Mr. Tsumura has 15 years of municipal water system operations experience including serving as Water Supervisor for the City of La Palma where he completed the update for the 2016 UWMP. He prepared a long-range baseline water demand forecast, gathered all the necessary data to complete the update, and presented the report to City Council for approval. He understands that dedication and precision are critical in providing the detailed analysis required to produce a thorough and exact UWMP. He is also seasoned in updating water system master plans, performing water system condition assessments, and conducting water system evaluations and water quality testing.

James Tsumura
Systems Evaluator

Although the 2020 UWMP Guidebook has yet to be released, our team stays current on the subject by following the workshops and public meetings hosted by the Department of Water Resources. As well, we have examined the draft Guidebook for 2020 Urban Water Management Plans and have concluded that the available information is sufficient to provide an accurate proposal to complete the required tasks listed in the RFP. Additionally, we are aware the City is currently updating its Water System Master Plan which should provide our team with

modified City water system supply and demand information that we would incorporate into the updated UWMP.

Qualifications and Experience

The Infrastructure Engineers team has been producing UWMPs since the inception of the program in 2000. We have successfully prepared UWMPs, Water Supply Assessments (WSAs), Water Master Plans, and Rate Studies by delving deep into data to obtain the necessary information to produce defensible reports.

Team Experience

We are proposing a team of highly experienced and skilled engineers who can provide all the services needed to complete the City's 2020 UWMP and the associated public outreach activities. The chart below offers a brief snapshot of the unique qualifications of the individuals we are offering the City.

Name/Role	Education	Certifications	Related Experience
Charlie Marr, PE <i>Project Manager</i>	BS, Civil Engineering	Registered Civil Engineer, CA, No. 53435	• 2015 UWMP, City of Alhambra, CA • Water Supply Assessments, Beaumont and Rancho Cucamonga • Water Supply Assessments, Palomino Business Park, Norco, and OC Prado, Chino • Urban Water Management Plans, Various Locations • Water Supply Assessments, Various Locations • La Palma Water System Master Plan Update, La Palma
Douglas Benash, PE, QSP/QSD <i>Principal-In-Charge QA/QC</i>	BS, Civil Engineering	Registered Civil Engineer, CA, No. 53935; QSP/QSD	• City Engineer, City of La Palma • City Engineer, City of Bell Gardens • City Engineer, City of Bell Gardens • Project Manager, Cities of Montebello and Bell Gardens
James Tsumura <i>Systems Evaluator</i>		California Certified Water Distribution Operator, Grade 4 - #29037 California Certified Water Treatment Operator, Grade 3 - #27218 American Water Works Association Water Distribution Operator, Grade 3 - #16669 FEMA NIMS/SEMS Incident Command System -100, 700 and 300	• Water System Master Plan Update, City of La Palma • Water System Condition Assessment, City of Huntington Park • Water System Evaluation and Water Quality Testing, Azusa Springs Water System • Water Superintendent, City of Glendora

Project Experience

2015 Urban Water Management Plan - City of Alhambra

Our Project Manager, Charlie Marr, PE, prepared the 2015 UWMP for the City of Alhambra pursuant to the requirements of the UWMP Act of 1983. The Act was essentially the first legislation requiring a water supplier to document how their current water supply entitlements compare to existing demands. The 2015 Plan included a host of minor revisions, but nothing on the order of the Water

Conservation Act and per-capita water use demand calculations and targets of 2010. Besides the recording of the progress to achieving the targets set in 2010 ("20 by 2020"), the 2015 revisions included some minor updates with regard to Demand Management Measures, submittal procedures, standardization of all supply and demand tables, and the UWMP checklist. As an important part of the UWMP team, Charlie calculated and recorded the information required for the standardized tables and performed quality control to ensure the UWMP Guidebook requirements were met. The City's most important source of water supply is local groundwater, and the City's planned water supply enhancements are designed to maximize this source to ensure the most affordable water supply portfolio.

The initial submittal was not approved due to insufficient water shortage contingency stages, and documentation allowing the use of the Department of Finance data for determining service area population. These were addressed and a subsequent update of the 2015 UWMP was submitted. In May 2017, DWR completed its review of the updated Plan and issued a final acceptance letter to the City.

Water Master Plan - City of La Palma

Infrastructure Engineers prepared La Palma's 2019 WSMP Update to their 2008 Master Plan. Our Project Manager, Charlie Marr, PE, had previously prepared the 2008 study. The 2019 update included hydraulic analysis and focus on updating the City's water operations plan and water supply emergency plan. The City's water utility had undergone significant changes since the 2008 study and the update

needed to reflect that as the basis for a revised CIP, which was then geared toward bolstering the water supply and distribution system in order to accommodate less reliance on imported water. The update introduced potential relocation of a major water production well, storage and boosting plant, as well as established preliminary coordination with neighboring water utilities for emergency interconnections.

Evaluation of City-Owned Water Systems - City of Montebello

The City of Montebello retained Infrastructure Engineers to perform an evaluation study and report on the two City-owned water systems. The City owns two geographically separate water systems providing domestic potable water service and fire protection water supplies in areas called the Southern System and the Northern System. The Southern System serves approximately 200 generally industrial and commercial properties, including several hotels and motels. The Northern System serves approximately 1,420 generally residential customers, including shopping center customers and the irrigation needs of the Montebello Municipal Golf Course. The report had dual purposes. The first purpose was to explore the City's options should it decide to continue the present operational procedure, to lease the systems, or to sell the systems. As a part of this process, the report contained comments on the value of the systems. The second purpose was to determine whether or not the City's water system could provide water service to an undeveloped area in the Montebello Hills, known as the Chevron Hills PXP property, which was a production oil field. PXP had applied to the City to develop the 500-acre area into 1,200 to 1,500 residential housing units with a minor area for commercial use.

Although the report was not a Master Plan to determine the needs for capital replacement improvements, certain recommendations were made for initial minimum improvements that were needed to improve the reliability of the existing water systems.

Water System Master Plan for City-Owned Water System - City of Bell Gardens

The City of Bell Gardens owns a potable water system that serves about 30% of the City's area, principally in the northern part of the City. The water system has 1,460 metered services. Infrastructure Engineers performed an evaluation of the existing water main system, which resulted in a few recommendations. These recommendations included installing larger diameter replacement water mains, improving circulation in the system through installation of a new water main to close a gap, improving distribution of water supply and conveyance by strengthening the center of the system through installation of replacement water mains in several areas, strengthening the interconnection between Water Well No. 1 and MWD connection, and continuing an annual program of marketing of rights for lease that were not anticipated to be used

Project Approach

The Infrastructure Engineers team will update the City's 2015 UWMP pursuant to California Water Code and UWMP Act of 1983. We will evaluate and compile the information, as needed, pursuant to the RFP and all requirements of the 2020 UWMP as dictated by the state DWR Guidebook. The plans are required to be updated every five years and we assume all the required water production and consumption data information will be available through Fiscal Year 2019-20. The entire project will take an estimated 35 weeks to complete, from preliminary work beginning in early November of this year to final submittal on July 1, 2021. Below is our approach to the tasks listed in the RFP and the estimated timeframe to complete.

Task 1 – Kick-off Meeting/Preliminary Work (includes Project Management and Notifications)

11 weeks (November 1, 2020 – Jan 15, 2021)

a. Document Review: An essential step toward complying with the necessary components of the Urban Water Management Plan is to conduct an accurate assessment of the findings of the 2015 UWMP, as well as other recent studies the City has performed relative to the additions and revisions for the 2020 Plan. Our Project Manager, Charlie Marr, will lead a data-needs meeting that will expand on the information requests from the kickoff meeting, and include key City staff from Planning and Public Works and any other department representation the City deems appropriate. The meeting will be used to update the Project schedule and demonstrate that our approach will ensure all UWMP requirements are met. Other studies pursuant to the revisions of the 2020 UWMP that the City may have completed, started, or be considering, include a Drought Risk Assessment, Seismic Risk Assessment and Mitigation Plan, the required update to its Water Shortage Contingency Plan, and/or the Energy Intensity Analysis. In addition, the City may have an updated Water Audit as administered by the American Water Works Association (AWWA). These, along with the standard demand and production data for the last five years and Demand Management Measures status, are envisioned to be the critical data we will need for compiling a thorough 2020 UWMP. This task includes the proper references in the UWMP Act and Water Code; the City's compliance method and any cooperative regional planning efforts it may have participated in; and notifications required for water agencies, public outreach, and stakeholders during the early stages of the Project to ensure it meets the minimum 60-day advance notification requirement.

b. Meetings and Communication: The UWMP Update for 2020 will include coordination of resources and staff from both the City and Infrastructure Engineers to provide effective communication throughout the life of the project. Our team will facilitate a project kickoff meeting to be held at the City's offices or virtually, as COVID19 guidelines or City allow. The kickoff meeting will identify project objectives, the schedule for completion of each task identified herein, and initial information requests. In accordance with the RFP, we will coordinate bi-weekly check-in meetings using virtual meeting tools for the first critical months of the Project. Infrastructure Engineers recommends monthly virtual check-in meetings at the latter stages when staff input is complete. These meetings are proposed through April 2021 which is the target deadline for a complete draft of the 2020 UWMP.

Task 2 – Demand Projections (includes System Description, Baselines and Targets, and Water Supply Sources)

9 weeks (December 1, 2020 – January 31, 2021)

a. System Description and Water Use: This section describes the City's water system, population and climate, and includes updated calculations of the City water system's existing and future water demands by water use classification and projected out 20 or 25 years. Even though the City is essentially built out, our team recommends projecting out the additional five years (to 2045) in order for future potential

redevelopment projects requiring a WSA (pursuant to SB 610) to have documentation showing a minimum 20-year future water supply availability throughout the life of the 2020 UWMP (the next plan is not due until 2025). This also includes determination of demand for low-income households and validation that the City is current with water loss auditing requirements.

b. Baselines and Targets: Baselines and targets were originally calculated with the 2010 UWMP.

Infrastructure Engineers will summarize the City's calculations methodology and progress toward achieving its 2020 water use reduction goals and evaluation of the effectiveness of the City's compliance plan.

Because the City's per-capita water use was below the threshold requiring reduction, this will be considered a mere formality as long as the City's current consumption remains below 100 gallons per capita per day.

c. Water Supplies: We will also include descriptions of each water source and respective capacity rights to each source. Descriptions will feature a detailed groundwater basin description and any change in its status since the 2015 UWMP. Although the City identified no planned increase in recycled water use, this section will describe the City's wastewater collection system and discuss the City's current status of recycled water use if opportunities have changed since the 2015 UWMP. Unless the City has recently changed its policy toward increased use, this section will include the reasons for opting to forego any increase in recycled water use. Other sources that could be described, such as desalination, transfer capacities, and other potential future supply opportunities, will be discussed in this section. Finally, this section will include a discussion on the estimated impacts to the City due to climate change.

Task 3 – Water Shortage Contingency Plan (includes Supply Reliability and Drought Risk Assessment)

15 weeks (January 15, 2021 – April 15, 2021)

a. Water Shortage Contingency Plan: This task assumes the City has updated its water shortage contingency planning thresholds to be consistent with DWR's new criteria. The new criteria include, among other things, additional water shortage levels greater than 50 percent, shortage response actions, and procedures for preparing the new annual Water Shortage Demand assessments.

b. Supply Reliability and DRA: In addition, our team will describe and evaluate the reliability of the City's water supply portfolio and update its analysis of supply and demand comparison under normal, single-dry and multiple-dry years scenarios. This updated section will include a new requirement for drought risk assessment (DRA) to evaluate risk under a severe drought period lasting five consecutive years. Infrastructure Engineers will review any documentation the City has begun for its DRA and include the components necessary to comply with the new requirement. The new DRA requirement is intended to assist suppliers in addressing potential extended water supply outages either by augmenting supplies or reducing demands or both. Unless the City has achieved a significantly reduced reliance on direct imported potable water from 27 percent as stated in the 2015 UWMP, the new DRA requirement will be a significant component to add to the UWMP. Other vulnerabilities include groundwater basin overdraft, power outages, and financial impacts, which will also be discussed in the Supply Reliability section.

Task 4 – Complete Draft of UWMP

9 weeks (March 15, 2021 – May 31, 2021)

a. Draft Report: A draft 2020 UWMP report will be completed for staff review prior to presenting to City Council and public review. The 2020 UWMP report will include high-quality graphics illustrating the City's service area, and any necessary charts and graphs that could enhance the presentation of the data throughout the report. Infrastructure Engineers will provide hardcopies as needed.

b. SBX7-7 Verification: Per the recommendation of the UWMP Guidebook, we will include an update to the City's detailed SBX7-7 Verification Form as an appendix item. The Form is a series of tables confirming the City's compliance with the Water Conservation Act of 2009.

c. Demand Management Measures: Assuming the City has been updating the progress and effectiveness of its Demand Management Measures, this will include a summary update since 2015.

d. Appendices: The complete list of appendix items for the final draft could include all of the following:

1. Checklist
2. DWR Standardized tables
3. SBX7-7 Verification tables
4. Groundwater Management documents
5. Demand Management Measures Status
6. Water Audit
7. City Ordinances (Water conservation, Landscape Ordinance, Water Shortage contingency Plan, UWMP Resolution upon adoption)
8. Notifications to Public, County, Wholesalers, and Adjacent Water Agencies

Task 5 – Complete Final UWMP

5 weeks (May 15, 2021 – June 15, 2021)

a. Address Comments: Following staff review, all comments will be addressed and/or incorporated into a final report for presentation to City Council then advertised for public review to initiate the 30-day public review period. Any appendix items not included in the draft will be added to the Final

b. Presentation Assistance: This includes staff assistance for preparing presentation items for the first public hearing in May 2021 for presenting to City Council and the public to start the 30-day public review.

c. Final Report: Our team will supply the City with hardcopies of the final report, and electronic copy in both Word and PDF formats containing all the files used to create the UWMP document, as necessary.

d. Report Adoption: A final public hearing in June 2021 will invite public comment and present any written comments received during the 30-day review period. The final hearing is envisioned for Council adoption.

Task 6 – Plan Submittal

July 1, 2021

This task includes the activities required to assemble the final 2020 UWMP in electronic format for submittal via the DWR website. Infrastructure Engineers will submit the plan electronically by the July 1 submittal date.

Task 7 – Corrections

It should be noted that DWR could take many months, or even years, to review any submitted UWMP for the 2020 cycle. Any DWR comments will likely not be provided to the City expeditiously. IE will prepare the most complete and thorough UWMP feasible with the data we are provided by staff. We will not recommend going out to the public or for Council adoption until we feel the report has used accurate and complete data. If IE determines any UWMP requirement is not met and outside of our control – for example, has not achieved the City's GPCD goal for 2020 or has not diligently pursued its DMMs – we will recommend the City take the additional time to meet the requirement and recommend not taking the Plan to Council for formal adoption within the planned Project schedule. OR, if the City has plans to go after grant or low-interest funding from the State within the next few years, then we could adopt and submit the report knowing about its shortcomings. The fact that the State cannot provide timely review should not be a detriment to a water agency seeking funding for critical water system improvements. IE would defer to the City and its legal team on the best course of action if we feel there is a shortcoming within the 2020 UWMP.

Proposed Personnel

Education

BS, Civil Engineering

Registrations/CertificationsRegistered Civil Engineer, CA,
No. 53435**Years of Experience:** 32**Charlie Marr, PE**
Project Manager

Charlie Marr brings more than 30 years of engineering and management experience in water and sewer systems planning and design, hydraulic modeling, master planning, and water resources analysis. He has distinct expertise in

urban water and system management planning, including water resources investigations and analysis of potential water supply sources and development of future water supply scenarios. Charlie's expertise also includes preparing technical studies in support of state regulations, such as the California Environmental Quality Act (CEQA) (SB 610, 221), Urban Water Management Planning Act, Water Conservation Act, and General Waste Discharge Requirements stemming from the federal regulations of sewer Capacity, Management, Operations and Maintenance (CMOM).

Select Project Experience**2015 UWMP - City of Alhambra**

Charlie prepared the 2015 UWMP for the City of Alhambra pursuant to the requirements of the UWMP Act of 1983. The 2015 Plan included a host of minor revisions, but nothing on the order of the Water Conservation Act and per-capita water use demand calculations and targets of 2010. Besides the recording of the progress to achieving the targets set in 2010 ("20 by 2020"), the 2015 revisions included some minor updates with regard to Demand Management Measures, submittal procedures, standardization of all supply and demand tables, and the UWMP checklist. Charlie calculated and recorded the information required for the standardized tables and performed quality control to ensure the UWMP Guidebook requirements were met.

Urban Water Management Plans - Various Locations

Charlie prepared UWMPs pursuant to the requirements of the UWMP Act of 1983 for numerous cities. He conducted studies, gathered data, provided service area descriptions, identified water sources, and calculated water supply and demands to create UWMPs for the following clients:

- City of Simi Valley (Ventura County Waterworks District No. 8)
- City of Chino Hills Supplement
- Rancho California Water District
- City of Indio
- City of Victorville
- City of Thousand Oaks
- City of Alhambra
- City of Chino Hills
- City of Thousand Oaks
- San Bernardino County Special Districts
- Montecito Water District

Education

BS, Civil Engineering

Registrations/CertificationsRegistered Civil Engineer, CA,
No. 53935; QSP/QSD**Years of Experience: 25****Douglas Benash, PE, QSP/QSD*****Principal-In-Charge
QA/QC***

Douglas Benash, PE, QSP/QSD has more than 25 years of experience in municipal engineering, construction management, contract administration, engineering design and regulatory compliance. In working with small jurisdictions as a City Engineer, he has been involved in all aspects of the projects that cities have designed and constructed. This includes coordinating with local, county, state and federal agencies and various utilities to ensure successful project completion.

Select Project Experience**City Engineer, City of La Palma**

Douglas is currently the project manager for the City's Water System Master Plan update. As the City Engineer, tasks include reviewing design proposals to prepare project construction documents, coordinating and scheduling with staff, managing the CIP, overseeing the staff management through project completion and providing analysis of requests for information, change orders, time and material verification and project closeouts.

City Engineer, City of Bell Gardens

Responsible for division-wide, high-level leadership, management, supervision and administration of an engineering division, its staff and extended resources. Planned, directed, supervised and reviewed activities of the division, including CIP projects, land development and databases. Worked with all phases and types of municipal infrastructure projects and all levels of personnel to see those projects through to successful completion.

City Engineer/Deputy Director of Public Works, City of Monrovia

Managed engineering operations for the City, inclusive of budget, development and redevelopment projects, capital improvements, regulatory compliance, general and traffic engineering, utilizing the staff to complete the priority projects of the Department. Continued and initiated several programs to implement environmental accords focusing on storm water, flood control, LEED building standards and utility impacts for the City. Managed the successful completion of water and sewer utility projects, mainline replacement and capital improvements as well as storm water regulatory compliance and program implementation.

Project Manager, Cities of Montebello and Bell Gardens

Project manager during design phase and construction manager on numerous successfully completed federally and locally funded street improvement projects, which included complete ADA ramp improvements at intersections with associated coordination with private property improvements.

and 300

Years of Experience: 15

James Tsumura
Systems Evaluator

James Tsumura has 15 years of municipal water system operations experience with a versatile skill set that includes experience in customer service and proven employee training and leadership abilities. He has received multiple awards as employee and supervisor of the year and has been recognized as a dedicated and detail-oriented supervisor.

Select Project Experience**Water System Master Plan Update, City of La Palma**

James and Infrastructure Engineers were selected in July of 2019 to provide a detailed evaluation and analysis of the current system needs and provide an update to the 2008 Water System Master Plan. The project included a detailed evaluation of emergency supply and storage alternatives, analysis to identify and quantify emergency scenarios, evaluate the need for new storage and production well sites, preparation of operation plans, development of hydrant flushing program, review of water quality concerns, review of operational efficiencies of well pumps and booster stations, and update to the current CIP.

Water System Condition Assessment, City of Huntington Park

Performed a comprehensive Water System Condition Assessment in 2019 to assist the City of Huntington Park to better understand what assets the water system owned and the condition of those assets. This required site visits and inspections of all water facilities as well as interviews with water system operators. A comprehensive analysis of water system demands and capabilities as well as water system operations were completed. Recommendations were made for further inspections of specific facilities and repair work to be performed on crucial pieces of equipment to enhance reliability and safety.

Water System Evaluation and Water Quality Testing, Azusa Springs Water System

This small water system, owned by the Rivers and Mountains Conservancy located in Azusa, CA, suffered a catastrophic failure in its water treatment facility in late 2018. Seeking professional assistance in evaluating their water system and getting recommendations to get the water system back into compliance, they were referred to Infrastructure Engineers by Azusa Light and Water. Thorough inspection of the water system revealed that an electrical surge had shorted out two water quality analyzers that controlled the water treatment plant. Two rounds of water quality samples were required by the Water Boards to begin the process of bringing the system back into compliance. Recommendations for repairs and improvements and references to equipment vendors were provided to the project manager for consideration.

Quality Assurance/Quality Control

Quality assurance and quality control (QA/QC) are top priorities for Infrastructure Engineers. Producing engineering and compliance documents of the highest caliber is what keeps us in business. Our QA/QC practice involves a comprehensive process to ensure delivery of quality products and services to meet your stringent criteria.

Infrastructure Engineers appoints an experienced and qualified QA/QC reviewer to provide leadership and guidance in producing complete and comprehensive documents to meet all industry standards as well as the City's expectations.

Key elements of our quality control are the assignment of skilled personnel who are experienced in the particular discipline, effective and constant communications, and monitoring of project progress. The quality control process includes the following principles:

- ➔ Assignment of skilled professionals instituting a comprehensive and interactive orientation of the project goals and the means of achieving these goals
- ➔ Daily contact by the Project Manager with each on-going activity to provide support and guidance, to maintain focus and momentum, and to monitor the quality of work
- ➔ Maintaining regularly scheduled project staff meetings for reviewing work status, reviewing technical elements of the project, coordinating and interfacing of activities, reviewing budget parameters, and discussing upcoming activities and responsibilities
- ➔ Internal (peer review) audits of municipal services for quality, accuracy, and completeness
- ➔ Strictly and rigorously following Infrastructure Engineers-developed QA/QC standards and guidelines
- ➔ Review by the Project Manager prior to submittal to assure services meet all standards and codes, project goals and objectives, and contract requirements
- ➔ Design QA/QC are carried out by our highly experienced and licensed professional civil engineers
- ➔ Constructability reviews during the design phase are carried out by our experienced construction managers and inspectors

1 COVER LETTER

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

October 15, 2020

City of Huntington Park – City Clerk's Office
Attn: Cesar Roldan, Director of Public Works
6550 Miles Avenue
Huntington Park, CA 90255

Subject: Request for Proposal to Update the Urban Water Management Plan

Dear Mr. Roldan and City of Huntington Park Public Works Staff,

The City of Huntington Park (City) is currently addressing the need to prepare its 2020 Urban Water Management Plan (UWMP) to meet all State of California Department of Water Resources (DWR) requirements. UWMPs are vital documents that help to organize, track, and develop long-term resource planning to ensure that urban water system suppliers may continue to provide customers with the reliable water supply they expect. In order to meet the 2020 UWMP submittal date to the DWR (which is July 1, 2021), the City is seeking consultants that can provide timely, cost efficient and high-quality engineering support.

MKN & Associates, Inc. (MKN) seeks the opportunity to be the firm that will deliver exactly what the City expects – and more. Our team brings the necessary expertise, UWMP experience and company size to deliver responsive, high quality engineering services to the City. MKN has previous 2015 UWMP experience for several clients, and these same staff members will be involved in the development of Huntington Park's 2020 UWMP Update. All of our previous UWMP's have been approved by the DWR with minor updates, on time, and within budget.

As requested, this cover letter provides MKN's primary point of contact and is signed by a Principal of the firm having the authority negotiate and contractually bind and extend the terms of this proposal.

REQUIRED STATEMENT

I have read, understood, and agreed to all statements in this request for proposal and acknowledge receipt of all addendums/amendments as well as to the terms, conditions, and attachments referenced.

We look forward to the opportunity to work with your team to deliver this project. Thank you for your consideration.

MKN & Associates, Inc.

2 FIRM BACKGROUND

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

SECTION 2

FIRM BACKGROUND

MKN's Client Centric Origins

MKN & Associates, Inc. (MKN) is a water, wastewater and recycled water engineering firm located and focused exclusively in Southern California. Our firm was formed and has grown to over 40 professional engineers, planners, construction managers/inspectors and support staff because of the need from agencies similar to the City of Huntington Park (City). Since 2012, MKN has focused on meeting a growing need by public agencies for responsive, technically capable consultants who are committed to a long-term relationship based on excellence.

Water is our Focus

Our principals have decades of experience in management and leadership roles for some of the highest ranked engineering firms in the world, and we are excited to bring our expertise to the City. MKN practice groups include Treatment, Infrastructure, Program Management, Planning and Hydraulic Modeling, and Construction Management. While MKN offers a wide range of water, wastewater and water reuse expertise, these engineering services represent a core competency for our firm.

MKN's key staff bring extensive Urban Water Management Plan and other planning experience for agencies. We understand the need to be responsive and to adapt, and most importantly meet and exceed the City's expectations.

MKN's Irvine Office will provide local support for the development of the City's 2020 UWMP update.

MKN is Committed to the City of Huntington Park.

MKN is proud to manage locally focused projects that impact our communities. MKN's Keenan Bull brings direct Huntington Park experience, and MKN's PM Tanner Bennett is a short 20 minute drive from Huntington Park and will be responsive and available to meet on short notice. MKN's Principal-in-charge Ryan Gallagher also has experience with Huntington Park's neighbors, including the City of Maywood, City of Compton and Sativa LA County Water District.

3 QUALIFICATIONS AND EXPERIENCE

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

SECTION 3

QUALIFICATIONS AND EXPERIENCE

The MKN team delivers extensive experience with both previous UWMP's as well being under contract for multiple 2020 updates. As our experience demonstrates, we deliver experience beyond just UWMP's but encompass the full range of planning services, from water audits to AWIA compliance to full master plans. Partnering with MKN ensures both delivery of a comprehensive and compliant UWMP but a team that can provide insights and technical input on system operation, optimization and improvements.

Urban Water Management Plan Experience	Client
2020 Urban Water Management Plan	Atascadero Mutual Water Co
2020 Urban Water Management Plan	City of Santa Paula
2020 Urban Water Management Plan	East Niles Community Services District
2020 Urban Water Management Plan	City of Delano
2020 Urban Water Management Plan	Nipomo Community Services District
2020 Urban Water Management Plan	City of Lynwood
2015 Urban Water Management Plan	Nipomo Community Services District
2015 Urban Water Management Plan	Atascadero Mutual Water Co
2015 Urban Water Management Plan Review	City of Delano
2015 Urban Water Management Plan	East Niles Community Services District
2010 Urban Water Management Plan	East Niles Community Services District
2010 Urban Water Management Plan	City of Madera
2010 Urban Water Management Plan	City of Atwater
2010 Urban Water Management Plan	City of Kingsburg
2010 Urban Water Management Plan	City of Coalinga
2010 Urban Water Management Plan	City of Chowchilla
2005 Urban Water Management Plan	East Niles Community Services District

MKN's experience developing 2015 UWMP's (highlighted above) were all approved by DWR. As was widespread with the development of the 2015 UWMP's for other agencies across the state, MKN received minor comments and prepared an Errata Sheet for Minor Corrections. The corrections required by the State were widespread with respect to clarifying recycled water use within the service area as a supply source. The UWMP's were approved in a timely fashion that met DWR requirements and were completed with minimal effort while staying within the project budget.

As can be seen above, MKN has had several repeat clients that trust our firm to perform to the highest quality.

The proposed MKN team brings much more than just planning experience to the City of Huntington Park. Our team consists of focused Water Resources Planners, professional engineers, and support staff. Our staff works collaboratively across offices and are currently teaming to provide 2020 UWMP Updates for other water agencies. Our extensive work to build a standardized approach, as well as templated documents, forms, and tables will provide a streamlined and easy-to-follow approach to completing the 2020 UWMP Update. Huntington Park's staff can rest assured knowing that our team's experience will produce a high-quality Update that meets all state requirements and reduces the need for City review time and management.

MKN Brings a team that has worked together on previous successful projects and UWMP's. Two of our team members have attended state workshops and are intimately familiar with new UWMP requirements

Key Personnel	Office Location	Experience Highlight
Tanner Bennett, PE	Irvine Office	Current PM for City of Lynwood's 2020 UWMP Update
Ryan Gallagher, PE	Irvine Office	Master Planning and Water Audit Experience.
Josh Nord, PE	Bakersfield Office	Attendance at CA UWMP Guidelines Workshops & previous UWMP experience
Rob Lepore, GISP	Arroyo Grande Office	Water Resource Planner with 80+ similar planning projects. Attendance at CA UWMP Guidelines Workshops & previous UWMP experience
Keenan Bull, PE	Irvine Office	Previous experience performing engineering services for the City of Huntington Park
Cindy Esparza, EIT	Irvine Office	Currently supporting work on other 2020 UWMPs and brings continuity to the City of Huntington Park
Jason Wong, EIT	Irvine Office	Currently supporting work on other 2020 UWMPs and has experience in Master Plans, AWIA Risk and Resilience Plans, and modeling.

4 PROJECT APPROACH

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

SECTION 4

PROJECT APPROACH

PROJECT UNDERSTANDING AND APPROACH

In accordance with the Urban Water Management Planning Act of the California Water Code, the City of Huntington Park (City) is required to prepare an update to their UWMP every five years. The 2020 update is to be submitted to the Department of Water Resources (DWR) by July 1, 2021.

In each UWMP update cycle, the City is responsible for reporting how the City performed in achieving targets set in 2015 as well as explaining how the City is planning to manage demand and supplies into the future. In the 5-year period between 2015 and now, the California State Legislature enacted changes to the California Water Code and all changes are to be incorporated into the 2020 UWMP update by MKN. In preparation for this UWMP update cycle, MKN staff engaged in the DWR UWMP Guidebook Development workshop and performed a detailed review of the code changes that will impact how UWMPs are prepared. In order to be most efficient, MKN will utilize the 2015 UWMP as the baseline to expand upon and revise. MKN's team understands and commits to the diligent preparation of Huntington Park's 2020 UWMP in order to have minimal, if any, follow up responses that must be addressed after the State's review.

MKN delivers the City of Huntington Park a proven, well-defined approach to UWMPs. Our step wise approach *minimizes* effort by staff, provides a *clear and illustrative* process for sharing with Council, and results in an *accurate, complete plan* for DWR approval.

The following tasks incorporate all elements as shown in the City's RFP, but have been arranged for a seamless process to ensure a high-quality and timely delivery.

1 TASK GROUP 100 Project Management (Entire Project)

Task 101 | Project Management

MKN's Project Manager will appropriately assign and manage personnel to accomplish the defined scope tasks, manage the deliverables and the budget as well as communicate progress to the City. MKN's PM will also monitor and update the schedule on a monthly basis and submit the schedule (if changes are made) with the invoicing and progress reports.

Deliverables:

- Detailed Project Schedule (including anticipated City review periods) in electronic PDF format
- 30 minute virtual Monthly Status Report Meetings (6 total)

Task 102 | Quality Assurance/Quality Control

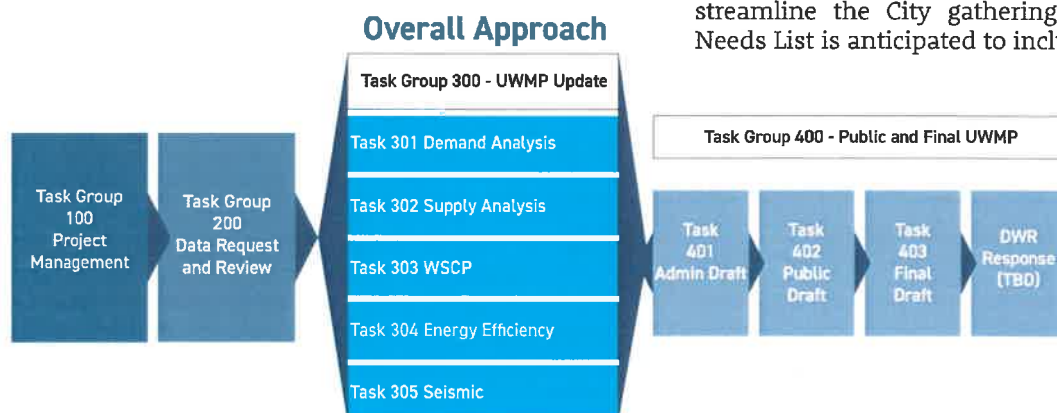

All project deliverables will be subjected to internal quality control review by personnel who have the appropriate expertise. See Section 6 for information on MKN's Quality Management System

Deliverables:

- Monthly invoicing progress reports, and schedule updates (in electronic PDF format)

2 TASK GROUP 200 Data Collection and Review (10 Days)

MKN will prepare a Data Needs List prior to the kickoff meeting so that the City can gather identified information in advance. MKN will format the data request to streamline the City gathering this information. Data Needs List is anticipated to include the following:

- Monthly production records; water billing records, summary of users in each category; planning documents; supply projects, current water shortage contingency plans and City requirements; energy records; SMGA GSPs (if required); City of LA County Hazard Mitigation Plans; wholesale suppliers; water contract information; annual validated water loss audits; any submitted reports to DWR. (for each source) for 2015 through 2020

MKN will setup a Sharepoint site that the requested data can be uploaded to and managed.

Deliverables:

- *Data Needs List(s) in electronic PDF format*

Assumptions:

- The City will provide data in electronic format (i.e., MS Word documents and MS Excel spreadsheets) so that MKN data manipulation can be kept to a minimum

3

TASK GROUP 300

UWMP Update (41 Days Total)

Each chapter of the City's UWMP will be updated based on the 2020 UWMP Guidebook. MKN will follow the Guidebook chapter layout and introduce each chapter's content with the relevant code sections. New general items required for 2020 UWMP include the following:

- An expanded layperson's description of supplies, demand, management approach; inclusion of GSPs (if applicable); energy analysis; seismic risk assessment.

The level of effort associated with the general update and the new 2020 elements are defined in the various task groups below:

Task 301 | Demand Analysis (25 Days)

The system description will be updated by MKN using current and projected population, climate, housing density, development, income levels, etc. Demand analysis will include past, current, and projected water demands including residential, commercial, industrial, institutional, landscape/recreation, agricultural, and groundwater recharge as well as the newly defined CII large landscape non-residential uses. Distribution system water loss (from validated water loss audits), water savings from codes and standards, and transient population demands will be included in the calculation.

Demand projections are also required to coordinate with local land-use authorities in the 2020 update. Thus, MKN will review the City-identified planning documents. Demand projections will be presented in the form of a brief technical memorandum for the City buy-in.

Deliverables:

- *Draft and final Demand Analysis TM (in PDF format)*

Assumptions:

- The City will review and provide comments on Demand Analysis TM within 2 weeks of submittal

Task 302 | Water Supply Analysis (25 Days)

In the 2020 update, the City will be required to evaluate each supply independently (i.e., each groundwater well, each surface supply, etc.) which will require evaluation individually in addition to in aggregate by category. Indications are that the supply and demand analysis will be required to be reported monthly, which is a change from past UWMP cycles but in practicality should be straightforward as the City likely already maintains this information. MKN will work with the City to reformat supply summaries into the DWR required intervals and include new items required in the 2020 UWMP Guidebook.

MKN will prepare a current and future supply summary draft for review and comment by the City staff. After the City comments are received, MKN will finalize the water supply-related chapters.

Deliverables:

- *Draft and final Water Supply Analysis TM (PDF)*

Assumptions:

- Existing/future demand and supply estimates will be based on water resource planning information provided by the City and/or local land planning agencies
- The City will review and provide comments on the Water Supply TM within 2 weeks of submittal

Task 303 | Water Conservation and Shortage Contingency Plan (WCSCP) (35 Days)

Water conservation and shortage contingency planning for the 2020 UWMP includes new requirements that the City coordinate with the DWR's six (6) predefined shortage levels and the City's planned actions in response to each. The City has an existing plan that can be cross-walked to the DWR-required tiers which range from <10% to >50% reductions in supply.

MKN will work with the City to understand each level proposed and MKN will prepare estimates of impacts for each proposed action for consideration and inclusion in the updated Water Shortage Contingency Plan.

Deliverables:

- *Draft and final suggested edits to WCSCP in electronic PDF format*

Assumptions:

- The City will review and provide comments on the WCSCP within 2 weeks of submittal

Task 304 | Energy Efficiency Analysis (15 Days)

Water code changes since 2015 will require that the City consider and report on energy usage related to the following water delivery tasks:

- Energy used to extract/divert supplies; to convey water supplies to treatment or distribution; to treat supplies; to distribute water; for treated water vs. non-treated water supplies; used to place water into or withdraw from storage; any other relative energy related information

MKN will work with the City to evaluate typically and readily available energy related data (such as meter readings for wells, etc.) and suggest a reporting approach. The Water Code allows for the City to only report on information that is readily available.

Deliverables: None - will be incorporated into relevant UWMP Section.

Assumptions:

- Energy usage will be provided in electronic format (i.e., MS Excel spreadsheets)

Task 305 | Seismic Risk Assessment (15 Days)

The 2020 UWMP update cycle must now include a seismic risk assessment and mitigation plan that assesses the vulnerability of the City facilities to seismic activities.

It is presumed that the City has not prepared an in-house seismic risk assessment and therefore **MKN has assumed that the City will tier off of the 2019 County of Los Angeles All- Hazards Mitigation Plan Update.** Although these documents are not specific to the City, MKN will identify the elements therein that are applicable to the City planning and mitigation and provide a summary reference.

Should the City wish to prepare a detailed seismic risk assessment and mitigation plan, MKN can perform that work under a separate authorization in conjunction with our specialty structural subconsultant.

Deliverables:

- None – this information will be incorporated into the relevant UWMP section.

Task 306 | Meetings, Workshops, Presentations, and Outreach

Early and regular communication is essential to successful execution of the work. Working with the City, MKN's PM will develop communications protocols. MKN will keep the City's team informed regularly without overloading the City staff.

MKN anticipates the following meetings and/or workshops:

- Kickoff and Data Needs Virtual Meeting (1 total)
- Draft Sections Review Meetings (3 virtual meetings)
- Customer Agency and Stakeholder Workshop (1 virtual) - 1 of 4
- Administrative Draft Review Meeting (1 virtual)
- City Planning or other Key Staff Mtg (1 virtual) - 2 of 4
- Council Meeting for Public Hearing (1 virtual) - 3 of 4
- Council Meeting for Adoption (1 virtual) - 4 of 4

Deliverables:

- Meeting agendas & notes in electronic PDF format
- Up to three (3) public notices for in electronic PDF format
- Customer Agency and Stakeholder Workshop Presentation in electronic format (MS PowerPoint)
- Up to three (3) City Council/Public presentations on plan elements (MS PowerPoint)
- Documentation of outreach all outreach activities to be included in 2020 UWMP Update

Assumptions:

- Meetings will be held by web conference

4

TASK GROUP 400

Public Review and Final UWMP (115 days total)

Task 401 | Administrative Draft of UWMP (15 Days)

MKN will utilize the 2015 UWMP as a baseline to prepare updated UWMP chapters from all subtasks in Task Group 300 and compile these chapters into an Administrative Draft UWMP for the City review. It is assumed the Microsoft Word and Excel files of the 2015 UWMP will be used for the 2020 UWMP. The DWR-issued UWMP completion checklist will also be completed. Both the Administrative Draft UWMP and checklist will be provided for the City review.

Deliverables:

- Administrative Draft UWMP and DWR forms in electronic PDF format

Assumptions:

- City will provide 2015 UWMP in electronic format (i.e., MS Word documents and MS Excel spreadsheets) so that MKN data manipulation can be kept to a minimum
- The City will provide comments on the Administrative Draft UWMP within 2 weeks of issuance

Task 402 | Public Draft of UWMP (10 Days + 60 Day Notice)

MKN will incorporate comments and prepare a Public Draft of the UWMP. It is recommended that the City notify local cities and counties at the beginning of the UWMP update process to provide ample opportunity for those agencies to participate in the UWMP process. Per the Water Code, a 60-day notice of the public hearing on the plan is required to be sent to local cities and counties.

Deliverables:

- Public Draft UWMP and DWR forms in electronic PDF, MS Word, and MS Excel format

Assumptions:

- MKN to send notification of UWMP update to local cities, counties, and other interested agencies provided by City Staff prior to the 60-day notice deadline
- The City will post the Public Draft of the 2020 UWMP for public access and review
- The City will compile all comments received into a single set of review comments

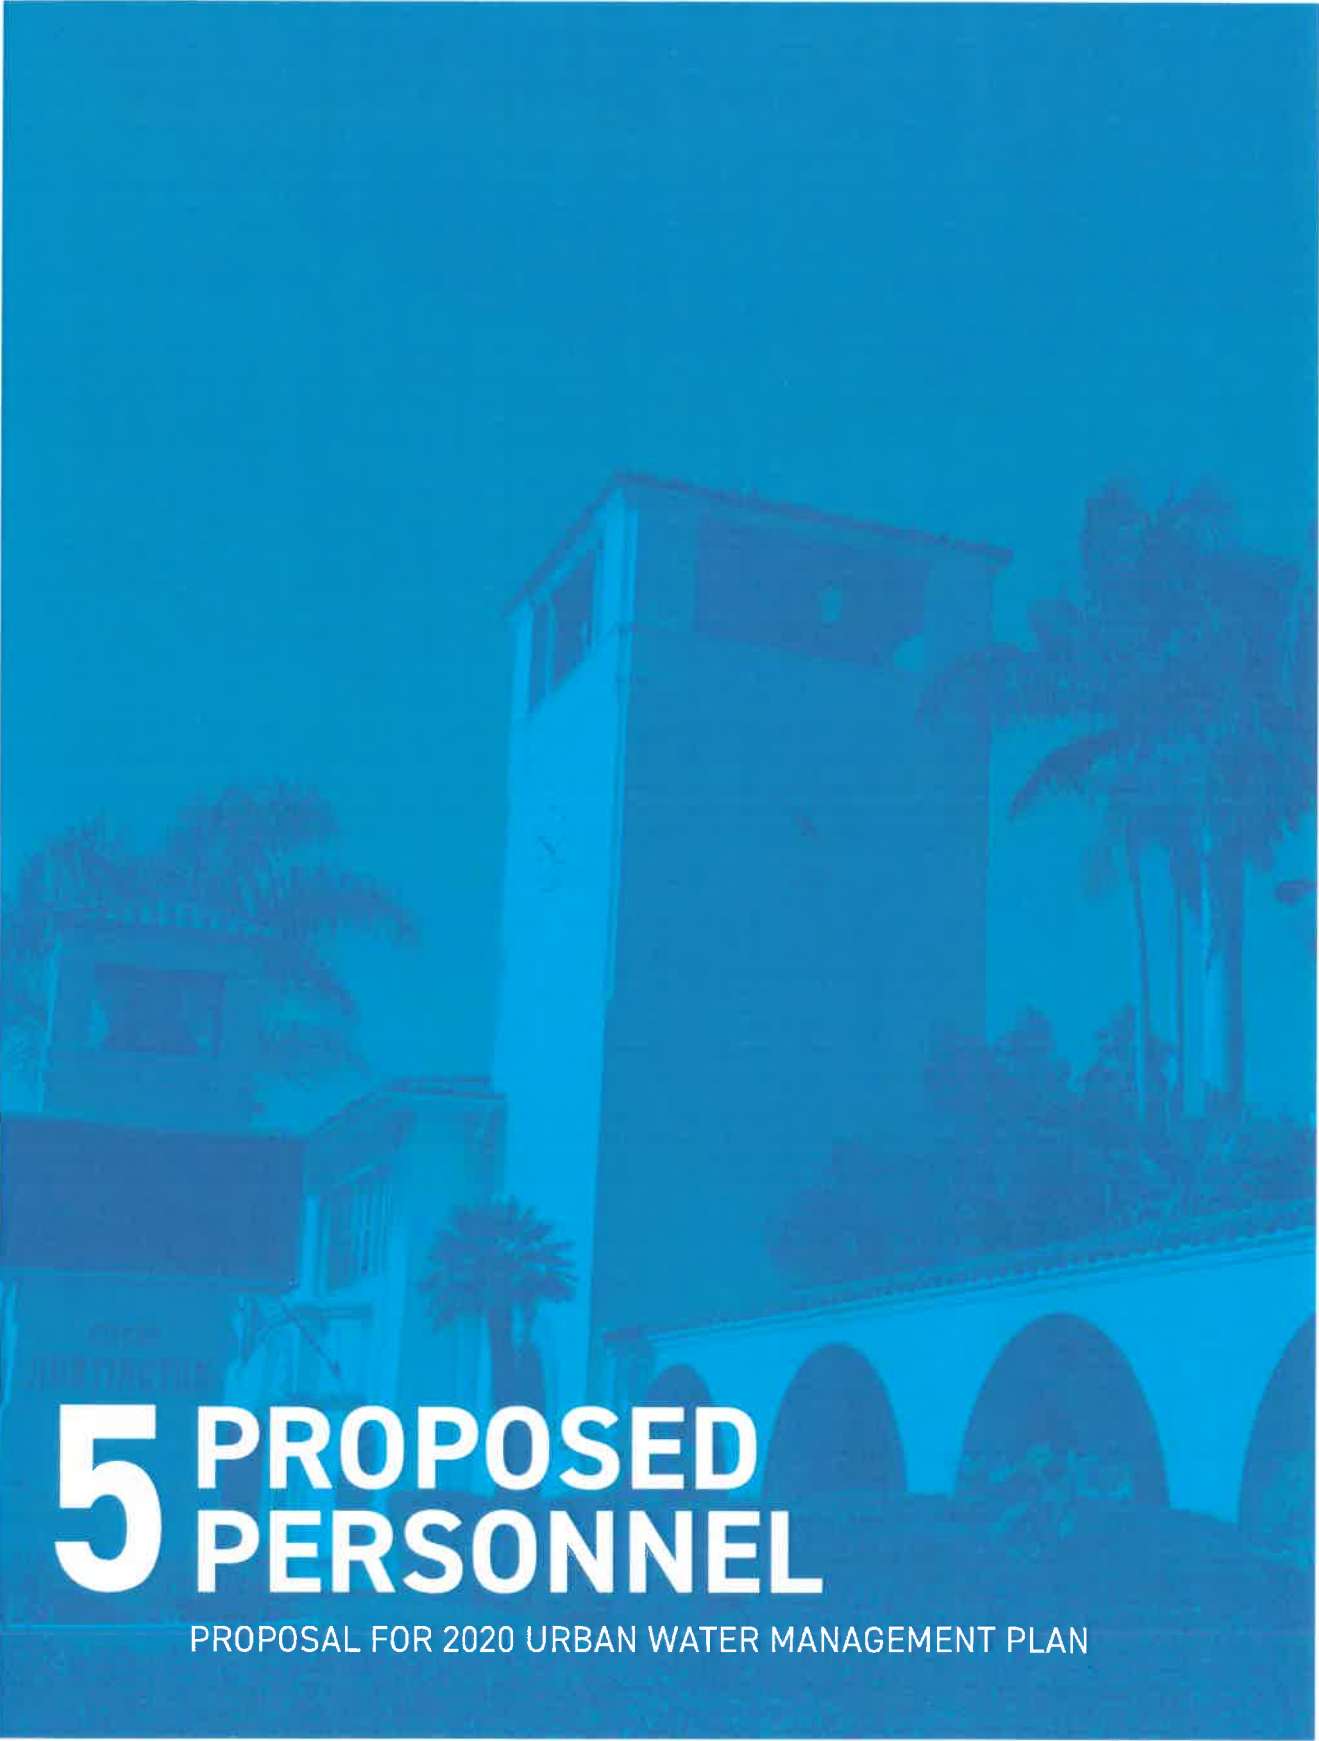

Task 403 | Complete Final Draft of UWMP (10 Days)

The Complete Final UWMP will be produced and will incorporate local city/county, public, and review comments received related to the Public Draft UWMP. MKN will submit the Complete Final UWMP to the City in PDF format and MS Word format and to DWR in PDF format by the designated date (July 1, 2021).

MKN and the City will respond to comments after the DWR review of the Final UWMP. We have allocated eight hours for responding to DWR comments and resubmittal of deliverables (if required).

Deliverables:

- Complete Final UWMP and DWR forms in electronic PDF and MS Word format on flash drive w/ all files
- Confirmation that the City's UWMP was uploaded to WUE portal in electronic PDF format
- Responses to DWR comments, as necessary (up to eight hours)

Tanner Bennett brings over ten years of experience in water and wastewater engineering design and construction. He has been the project engineer in the design of water and wastewater infrastructure, treatment and conveyance facilities, conditions assessments, alternatives analyses, equipment selection and sizing, and has provided engineers opinions of probable construction costs. He has led complex projects through engineering services during construction and construction management and has worked on several alternative delivery projects. Tanner is client-focused, results-driven, and seeks to build lasting relationships in which he can be viewed as a trusted advisor.

2020 Urban Water Management Plan, City of Lynwood | Lynwood, CA

Tanner is currently the project manager for the City of Lynwood's 2020 Update to its Urban Water Management Plan. He has assembled the team, is managing the tasks, schedule and budget, and is coordinating with the City of Lynwood staff to deliver the report prior to DWR's July 1, 2021 deadline.

Prop 1E Stormwater Flood Management Grant Application | East Palo Alto, CA

Assisted in compiling the Prop 1E Grant application and wrote sections including the work plan, budget, schedule, technical justification of the project, and performed the cost-benefit economic analysis. Used engineering judgment, previous studies, and GIS data to devise a method to estimate areas of inundation and water depth levels with the help of the firm's GIS department.

Pajaro River Watershed Integrated Regional Water Management Plan Update - Main & Madrone Pipeline Project | Morgan Hill, CA

Assisted in preparing the update for the Main and Madrone Avenue Pipeline Project, providing project description, technical feasibility, IRWM Goals and Objectives, Project costs and economic feasibility sections of the Project Solicitation Form.

Integrated Regional Water Management Plans | Various, CA

Assisted the Senior Water Resources Planner with several cost-benefit analyses and report sections for various Integrated Regional Water Management Plans in the South Bay Region in Northern California.

Recycled Water Engineering Report Update & Fountain Retrofits Project, San Jose State University | San Jose, CA

Deputy PM and project engineer for updating the campus-wide recycled water permit with South Bay Water Recycling and overseeing the design for the retrofit of four decorative fountains on campus to use recycled water.

Emergency Action Plan for SFPUC Reservoir Dams | San Francisco, CA

Project Manager for the development of the SFPUC's Emergency Action Plan for all the City's reservoirs with earthen dams that fall under the California Division of Safety of Dams. Led the efforts for site visits and data collection, identifying operational procedures, performing inundation studies, interviewing operators, and developing individual plans for each site for SFPUC to use during and after an emergency.

Engineering Evaluation/Cost Analysis Report, U.S. Forest Service | Various

Provided services for Gold Button Mill Site, Prescott, AZ and Horse Mountain Mine Site in the Six Rivers National Forest, Humboldt County, CA. Devised Remedial Action Alternatives and cost estimates utilizing construction knowledge, vendor quotes, and RS Means data. Gave presentation to U.S. Forest Service staff on the effectiveness, implementation, and cost of construction alternatives for the Gold Button Mill Site.

Ryan Gallagher; for the past 14 years, Ryan has completed over 75 projects with 20 public agencies in Southern California, serving as the Project Manager for the majority. The estimated construction value of the projects that have been planned, designed and/or constructed exceeds \$250 million. Projects include planning through design for water, wastewater and recycled-water conveyance, pumping, storage, and treatment. Ryan specializes in complex multi-agency water supply programs, alternative delivery program management, master planning, and contract negotiations.

Water Master Plan Update | Oxnard, CA

Project Manager for a plan to update an earlier plan and incorporate new Planning Department information on growth within the City, as well as new water-supply strategies. Completed various hydraulic modeling evaluations to determine necessary updates in both current and future conditions.

Water Supply Assessment and Verification | Oxnard, CA

Project Manager for development of various water supply assessment and verification reports for specific developments within the City of Oxnard, including Sakioka Farms, Ormond Beach, Channel Islands Harbor, and Jones Ranch. The reports were developed to meet the requirements of SB 610 and SB 221. In addition, an independent comprehensive update was developed in support of the City's General Plan Update.

Water and Sewer Master Plan, Channel Islands Beach Community Services District | Channel Islands Harbor, CA

Project Manager for development of combined water and sewer master plan for service area consisting of approximately 10,000 residents. Effort included updating of current and future supply and demands, capacity assessment, water and sewer hydraulic models, and development of 5-year capital improvement plan.

Water System Design Reports, Las Virgenes Municipal Water District | Calabasas, CA

As Project Manager, planned level infrastructure impacts studies related to water, wastewater, and recycled-water facilities. Studies included analysis of development, coordination with the District and developer, development of demands and generation, hydraulic modeling of impacts, and recommendations. Multiple documents have been prepared since 2012, including Sweetwater Mesa, Malibu Golf Course, and Triangle Ranch.

Water Supply Assessment and Council Facilitation | Port Hueneme, CA

As Project Manager, prepared a Council presentation of the City water supply, water quality, cost of water, and contractual constraints. Conducted a Council workshop using an interactive audience response system (iClicker) to conduct a survey of current priorities and concerns and establish City goals. The survey data was analyzed, supply options prioritized, and the results presented to City Council.

Infrastructure Review (multiple), Channel Islands Beach Community Services District | Channel Islands Harbor, CA

Project Manager for a water and sewer hydraulic modeling analysis of developments planned in District service area. [Fisherman's Wharf, Casa Sirena, Marina]

Water Supply Analysis, Channel Islands Beach Community Services District | Oxnard, CA

Project Manager serving as the District Engineer for CIBCSO. Developed 30 water supply alternatives in coordination with District staff. Conducted a board workshop using interactive audience response system (iClicker) to conduct a survey of current priorities and concerns and establish District goals. Assisted the District in initial screening and shortlisting of preferred concepts, including DPR, seawater desalination, and optimization of existing brackish water desalination systems.

Past President

American Society of Civil
Engineers

Josh Nord has been leading and performing evaluations, modeling, and analysis for the purposes of water infrastructure master planning and optimization for over 20 years. Josh has developed system models and planning studies for municipalities, utilities, and State Special Districts for the purposes of identifying and addressing deficiencies through capital improvement planning. Mr. Nord's planning and modeling experience covers water distribution systems (e.g., city-wide systems and pressure zones), major pressurized water conveyance systems (e.g., 80-mile long transmission mains), open canal conveyance systems (including both canals and canal pump stations), and groundwater/recharge systems.

2020 Urban Water Management Plan, East Niles Community Services District, California

Serving as Project Manager. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. This project will incorporate the new code requirements including the following: updating the water shortage contingency plan, drought risk assessment, long-term forecast for each water supply source must include climate change and supporting information, incorporation of projected land use changes in demand forecasting, seismic risk assessment and mitigation plan, energy analysis now required for extraction, conveyance, treatment, and distribution, estimates of water savings resulting from new codes/standards now required, inclusion of 5 previous years of system water losses, and inclusion of Sustainable Groundwater Management Act (SGMA) Plan.

2015 Urban Water Management Plan, East Niles Community Services District, California

Served as Project Manager. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. Project consisted of incorporating the new code requirements, updating population projections, projecting demands and supplies, analyzing system losses, updating status of the water supply projects and other water management efforts, and evaluating achievement of targets set in 2010.

2010 Urban Water Management Plan, East Niles Community Services District, California

Served as Project Manager. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. Project consisted of incorporating the new code requirements, updating population projections, projecting demands and supplies, analyzing system losses, updating status of the water supply projects and other water management efforts, and evaluating achievement of targets set in 2000.

2000 Urban Water Management Plan, East Niles Community Services District, California

Served as Project Manager. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. Project consisted of incorporating the new code requirements, updating population projections, projecting demands and supplies, analyzing system losses, updating status of the water supply projects and other water management efforts.

City of Delano, Urban Water Management Plan Peer Review | Delano, CA

Project Manager during the peer review of the City's 2015 Urban Water Management Plan. Services included reviewing the document against State requirements and presenting an overview of the UWMP to a local water oversight committee.

Robert Lepore has 19 years of experience in developing comprehensive water, wastewater, and recycled water master plans for public utilities with a focus on GIS integration. Rob has served as a project manager and/or Water Resource Planner for more than 40 master planning (including America's Water Infrastructure Act Compliance, Urban Water Management Plans, and AWWA Water Audit Validations) and hydraulic modeling projects in central and southern California. He is also a Geographic Information System Professional (GISP) certified by the GIS Certification Institute. Rob has worked for a public utility, GIS consulting firm, and multiple engineering firms, which has allowed him to focus and refine his execution of critical master planning projects for our public infrastructure clients.

2020 Urban Water Management Plan, Atascadero Mutual Water Company, California

Serving as Water Resource Planner. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. This project will incorporate the new code requirements including the following: updating the water shortage contingency plan, drought risk assessment, long-term forecast for each water supply source must include climate change and supporting information, incorporation of projected land use changes in demand forecasting, seismic risk assessment and mitigation plan, energy analysis now required for extraction, conveyance, treatment, and distribution, estimates of water savings resulting from new codes/standards now required, inclusion of 5 previous years of system water losses, and inclusion of Sustainable Groundwater Management Act (SGMA) Plan.

2020 Urban Water Management Plan, City of Santa Paula, California

Serving as Water Resource Planner. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. This project will incorporate the new code requirements including the following: updating the water shortage contingency plan, drought risk assessment, long-term forecast for each water supply source must include climate change and supporting information, incorporation of projected land use changes in demand forecasting, seismic risk assessment and mitigation plan, energy analysis now required for extraction, conveyance, treatment, and distribution, estimates of water savings resulting from new codes/standards now required, inclusion of 5 previous years of system water losses, and inclusion of Sustainable Groundwater Management Act (SGMA) Plan.

2015 Urban Water Management Plan, Atascadero Mutual Water Company, California

Served as Water Resource Planner. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. Project consisted of incorporating the new code requirements, updating population projections, projecting demands and supplies, analyzing system losses, updating status of the Nacimiento Water Project and other water management efforts, and evaluating achievement of targets set in 2010.

2015 Urban Water Management Plan, Nipomo Community Services District, California

Served as Water Resource Planner. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. Project consisted of incorporating the new code requirements, updating population projections, projecting demands and supplies, analyzing system losses, updating status of the Supplemental Water Project and other water management efforts, and evaluating achievement of targets set in 2010.

American Water Works Association (AWWA)

Orange County Water Association (OCWA)

Water Reuse Association, Orange County

Keenan Bull has over 18 years of experience in civil engineering as a design engineer and project manager for private and municipal water and wastewater treatment operations, water distribution systems, wastewater collection systems, large-diameter pipelines, water conveyance systems, and water storage facilities. Proficiencies include the design, planning, and construction/retrofit of water pumping stations; water and wastewater treatment facility yard piping; aboveground water storage tanks; and buried or exposed transmission and distribution pipelines. He has expertly managed the coordination of design personnel and subconsultants in the development of design drawings and specifications for construction, as well as the development and completion of regulatory permit applications.

2015 Urban Water Management Plan (UWMP) | Fillmore, CA

Project Manager overseeing engineering design services to revise and update the City's UWMP in accordance with the Urban Water Management Planning Act (Act) and the California Department of Water Resources (DWR) guidebook for Urban Water Suppliers. The preparation and submittal of a complete UWMP ensures the City remains in compliance with the Act and applicable changes in the Water Code since adoption of the City's previous UWMP.

Public Irrigation and Water Recycling Plant (WRP) Effluent Disposal Master Plan Update | Fillmore, CA

Project Manager in charge of engineering design services to revise and update the public irrigation and WRP effluent disposal master plan. The study describes and proposes improvements for a public irrigation and water recycling plant effluent disposal system for the City. It is largely based on irrigation demands and projections of future development. Tasks include mapping the existing public irrigation/recycled-water system, developing projections of future development and land to be added to the public irrigation system, meetings with City stakeholders, compiling an implementation plan and project schedule, and identifying a probable construction cost.

Wastewater Treatment Plant (WWTP) Headworks Project | Oxnard, CA

Project Engineer for the effluent pump station. Provided assessment, planning, design, construction administration assistance, and start-up for a new 40 mgd average dry-weather flow (ADWF)/77.4 mgd peak wet-weather flow (PWWF) headworks facility. The facility consists of an influent wastewater bypass pumping and conveyance, mechanical bar screens, an aerated grit chamber, an influent pump station, an odor control system and grit/screening dewatering facilities, stand-by power generators, infrastructure support systems, and a supervisory control and data acquisition (SCADA) monitoring and control system. Construction of the project required bypass pumping and conveyance facilities design of the entire influent flow for implementation and operation by the construction contractor.

Roja Lift Station Constructability & Design Review | Oceanside, CA

Provided support as sub-consultant to City of Oceanside during design of repair and replacement alternatives for the existing lift station. Provided technical support by reviewing the project specifications and design plans for mechanical equipment replacement and repair. Project included valves, pumps and mechanical assemblies in addition to site work concrete and asphalt improvements.

Lift Station Condition Assessment, Channel Islands Beach Community Services District | Channel Islands Harbor, CA

As Project Technical Lead, evaluated the mechanical and structural condition of seven existing raw wastewater lift stations in the District service area. Prepared a report with recommended improvements covering mechanical, structural, electrical, and instrumentation in addition to cost estimates for replacement and repair.

MS Civil and Environmental
Engineering

LICENSES & REGISTRATIONS

EIT Certified #167850

Cindy Esparza is a driven professional with experience in water and wastewater design, construction management, and advanced water treatment research. Ms. Esparza is a pragmatic problem solver with excellent communication and teamwork skills.

Channel Islands Beach Community Services District, Pump Station B Evaluation | Oxnard, CA
Assistant Engineer for the project that included the evaluation of PS B. The pump station was approaching the end of its useful lifetime and staff had reported issues with the wet well size. Assisted in recommending alternatives, compiling cost estimates, and analyzing benefits of each alternative.

Channel Islands Beach Community Services District, Water Pipeline Assessment | Oxnard, CA
Assistant Engineer for the project that included the evaluation of an existing potable pipeline located within private easements. Assessed existing conditions and risk mitigation measures in order to provide multiple alternatives to address concerns with the aging pipeline.

Channel Islands Beach Community Services District, Water and Wastewater Master Plan | Oxnard, CA

Assistant Engineer for the project that included the data gathering and analysis for a water and wastewater Master Plan. Project consisted of water demand assessments, water projection analysis, and future development review. Capital Improvements Program (CIP) and associated cost opinions were developed.

Assistant Engineer- Michael K. Nunley and Associates

- Prepared proposals, specifications and reports for water and wastewater infrastructure projects.
- Assisted in pipeline rehabilitation projects, permitting processes, and Master Plan compilation.

Student Engineering Intern- Sanitation Districts of Los Angeles County | Compton, California

- Conducted preliminary hydraulic analyses for the Wastewater Collection Systems Division to size pumps for pumping plant upgrades.
- Led the information gathering for a database to track equipment specifications for 46 pumping plants.

Student Researcher - Water Energy Sustainability Training Team (WESTT) | San Luis Obispo, California

- Administered tests to measure growth in different strains of algae for research funded by the U.S. Department of Energy.
- Supervised and trained students on laboratory procedures to ensure safe protocol and proper techniques.

Summer Intern- Tanner Pacific, Inc. | San Carlos, California

- Performed site inspections for pipeline, sewer, and wastewater treatment facility improvement projects.
- Reviewed submittals for chlorine contact tanks and sludge dewatering facilities to ensure compliance with specifications.

Project Engineer Intern - Griffith Company | Brea, California

- Developed traffic control plans for Los Angeles World Airport Utilities and LAMP Enabling Projects (LULEP) at LAX.
- Compiled equipment submittals, RFIs and Time and Material sheets to track labor and material costs.

Jason Wong is an Assistant Engineer in MKN's Irvine, California office. His project experience includes planning and design of water and wastewater distribution facilities. He has experience with water supply analysis, modeling water systems, assisting in the design of water and wastewater infrastructure, and performing risk and resilience assessments. He is proficient in ArcGIS, EPANET InfoWater, waterCAD, sewerCAD, and Microsoft software.

America's Water Infrastructure Act Compliance | Delano, CA

Serving as an assistant engineer. Community drinking water systems serving more than 3,300 people will be required to comply with the America's Water Infrastructure Act (AWIA). Compliance with the AWIA includes updating and/or developing a risk and resilience assessment (RRA). The RRA must identify potential impacts to the water system from malevolent acts and natural hazards. MKN is currently working on the City's RRA.

Risk and Resilience Assessment Peer Review, City of Clovis | Clovis, CA

As an assistant engineer, provided technical peer review of City-provided Risk and Resilience Review.

2020 Water Master Plan Update | Channel Islands Beach, CA

Assistant engineer for development of combined water and sewer master plan for service area consisting of approximately 10,000 residents. Effort includes updating of current and future supply and demands, capacity assessment, water and sewer hydraulic models, and development of 5-year capital improvement plan.

2020 Urban Water Management Plan | Atascadero, CA

Serving as Water Resource Planner. In accordance with the Urban Water Management Planning Act of the California Water Code, agencies are required to prepare an update to their UWMP every five years. The updates include change in legislation and the Water Code since the previous UWMP. This project will incorporate the new code requirements including the following: updating the water shortage contingency plan, drought risk assessment, long-term forecast for each water supply source must include climate change and supporting information, incorporation of projected land use changes in demand forecasting, seismic risk assessment and mitigation plan, energy analysis now required for extraction, conveyance, treatment, and distribution, estimates of water savings resulting from new codes/standards now required, inclusion of 5 previous years of system water losses, and inclusion of Sustainable Groundwater Management Act (SGMA) Plan.

America's Water Infrastructure Act Compliance | Atascadero, CA

Serving as an assistant engineer. Community drinking water systems serving more than 3,300 people will be required to comply with the America's Water Infrastructure Act (AWIA). Compliance with the AWIA includes updating and/or developing a risk and resilience assessment (RRA) and emergency response plan (ERP) for drinking water systems. The RRA must identify potential impacts to the water system from malevolent acts and natural hazards. The updated ERP will identify measures to reduce impacts of a malevolent act or natural hazards to the water system. MKN is currently working on AMWC's RRA and ERP plan updates.

America's Water Infrastructure Act Compliance | Reedley, CA

Serving as an assistant engineer. Community drinking water systems serving more than 3,300 people will be required to comply with the America's Water Infrastructure Act (AWIA). Compliance with the AWIA includes updating and/or developing a risk and resilience assessment (RRA). The RRA must identify potential impacts to the water system from malevolent acts and natural hazards. MKN is currently working on the City's RRA.

6 QUALITY ASSURANCE AND CONTROL

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

SECTION 6

QUALITY ASSURANCE AND CONTROL

MKN's Quality Management System is based on our Principals' experience at Fortune 500 Design Firms, but streamlined and focused for Municipal Water projects. This means better quality, faster delivery and lower overhead for our Clients.

Risk Management and Quality Control

The final element of our Project Management Approach is Risk Management and Quality Control, which are both encompassed in MKN's Quality Management System (QMS). This defined program includes three key elements: (1) Quality Planning, (2) Quality Assurance, and (3) Quality Control.

Quality Planning – Plan for Success

Our QMS requires the Project Manager to plan for quality even before a contract is signed. This means that our proposal must include the following:

- **Line Item Scope** – this helps to ensure that the budget is preserved through project execution.
- **Line Item Schedule** – QC is included in our task linked Microsoft Project Schedules to ensure that adequate time is allotted, this typically requires 2-5 days.
- **Identify QC Person** – this person is identified and confirmed prior to submitting.

Once signed, a Project Management Plan is prepared which details key elements of the project, including risks and quality reviews.

Quality Assurance – Prevent Errors

A key element of Quality Assurance is our technical training which is conducted every two weeks. Our engineers are also supported by our design templates, calculation spreadsheets and access to our Technical Practice Groups which maintain and manage many of these documents.

The Technical Review completed at the 10% project phase is another key element of our Quality Assurance program.

Quality Control – Confirm MKN Quality is Met

For the City, MKN's Ryan Gallagher, will serve as the Principal-in-Charge which requires him to conduct a monthly status meeting with Project Manager Tanner Bennett. During this call, project status will be discussed along with adherence to QMS procedures and resource needs.

Every deliverable will be reviewed by MKN approved QC Reviewers, who will follow our defined process for QC review. Our standard review forms will be utilized which identify key elements of review. These documents have been prepared based on our team's extensive experience and "Lesson's Learned".

8 SCHEDULE AND SCHEDULE CONTROL

PROPOSAL FOR 2020 URBAN WATER MANAGEMENT PLAN

SECTION 8

SCHEDULE AND SCHEDULE CONTROL

MKN has devised the schedule below to follow the developed approach which includes all elements outlined in the RFP. This approach will allow for ample review time for the city, and reflects the various milestones such as workshops, 60-day notice for public review and comment, and necessary meetings that are anticipated to take place on the 1st and 3rd Tuesdays of the month. Following this schedule, MKN plans to deliver and submit the adopted City of Huntington Park's 2020 UWMP twenty (20) days or more before the July 1, 2021 deadline.

Routine office expenses such as computer usage, software licenses and fees, telephone charges, office equipment and supplies, incidental postage, copying, and faxes are included as a 3% fee on labor cost.

Professional Reimbursement

Where charges are associated with MKN employees, the hourly billing rates include the cost of salaries, fringe benefits, indirect overhead costs and fee. Rates for categories of services not identified above shall be as negotiated with the Client and included in the professional services agreement. Not-to-Exceed amounts identified in the Agreement with Client do not include overtime hours as defined by State specific and Federal wage and hour laws. Labor will be billed at 1½ times billing rates for non-exempt employees for overtime hours requested by the Client.

Direct Expenses

Reimbursement for direct expenses incurred in connection with the work, will be at cost plus ten percent (10%) for items such as:

- Maps, photographs, reproductions, printing, equipment rental and special supplies related to the work.
- Consultants, contractors and other outside services.
- Rented vehicles, local public transportation, taxis, air/train fare, travel and subsistence (non-GSA rates).
- Special fees, insurance, permits, and licenses applicable to the work.

Reimbursement for employee-owned vehicles used in connection with the work will be at the rate per mile equal to the Privately Owned Vehicle (POV) Mileage Reimbursement Rate as established by the United States General Services Administration for the dates the POV is in use. Travel and subsistence (other than mileage) will be billed at cost.

Other in-house charges will be at standard company rates. The foregoing Billing Rate Schedule is effective through **December 31, 2020** and will be adjusted each year after at a rate of 2 to 5%.

ASSOCIATES

DELIVERING VALUE....COMMITTED TO EXCELLENCE

CITY OF HUNTINGTON PARK

Proposal to Update the URBAN WATER MANAGEMENT PLAN

October 15, 2020

October 15, 2020

City of Huntington Park – City Clerk's Office
Attention: Cesar Roldan, Director of Public Works
6550 Miles Avenue
Huntington Park, CA 90255

Subject: Proposal to Update the 2020 Urban Water Management Plan – Technical Proposal

Dear Cesar:

Enclosed is SA Associates' proposal submittal to Update the City of Huntington Park's 2020 Urban Water Management Plan

In the following proposal, you will see how SA Associates provides the experience and knowledge to meet your project needs and goals. We are committed to providing the resources and quality services that you are seeking for the update of the City's Urban Water Management Plan (UWMP). SA Associates has extensive experience in the preparation of UWMPs and we understand the level of attention and support necessary to meet the demands of this project and the expectations of the Department of Water Resources (DWR). *SA Associates offers additional value to the City of Huntington Park in concurrently providing RRA, ERP and Urban Water Management Plan (UWMP) preparation. If selected for both the RRA/ERP and UWMP, we can offer a discount in our fees for the projects. We have experience in providing these services to Foothill Municipal Water District and its member agencies at a significant cost savings.*

For your project, we have committed a team of experienced professionals to provide the leadership, management skills, and similar project experience to make your project a successful one. I personally have overseen the preparation of over 35 UWMPs since 1990. Our current experience also benefits your water City as we are familiar with the changes to the water code (SB7x7, AB1668, and SB606) and how it relates to the preparation of 2020 UWMPs. We prepared fourteen 2015 UWMPs. DWR had no significant comments on the 2015 UWMPs we prepared in terms of submittal/reporting requirements. We are also currently preparing five UWMPs for 2020 and were recently awarded the 2020 UWMP for the San Gabriel Valley Municipal Water District.

We have read understood, and agreed to all statements in this request for proposal and acknowledge receipt of all addendums/amendments. We have reviewed the City's Standards, and Professional Service Agreement in Attachment 2 of the RFP. We offer our comments in Section VIII of this submittal.

Mr. Shahnawaz Ahmad is the primary contact and the authorized signatory on behalf of the firm. Please contact Mr. Ahmad at sahmad@saassociates.net. He is based in the Arcadia Office: Tel 626.821.3456, Fax 626.445.1461.

We thank you for the opportunity to submit our proposal. Please call me if you have any questions or desire additional information.

Very truly yours,

A handwritten signature in black ink, appearing to read "Shahnawaz Ahmad".

Shahnawaz Ahmad, P.E.

SECTION I: CONSULTANT'S BACKGROUND

SA ASSOCIATES – PRIME FIRM

SA Associates was established in May 1989 as a principal-owned engineering firm with offices in Los Angeles and Orange Counties. We are a California corporation classified as Minority Owned Business, and Small Business by local, and state agencies.

We have overseen the preparation of over 35 UWMPs since 1990. Our current experience also benefits your City as we are familiar with the changes to the water code (SB7x7, AB1668, and SB606) and how it relates to the preparation of 2020 UWMPs. We prepared fourteen 2015 UWMPs. DWR had no significant comments on the 2015 UWMPs we prepared in terms of submittal/reporting requirements. We are **currently preparing UWMPs for the Foothill Municipal Water District and its six member agencies.**

SA Associates' deep commitment to engineering excellence and principal involvement in every project is the cornerstone of our success. Project management and contract performance is personally directed by a principal who is a thoroughly experienced, licensed Professional Engineer with the State of California. This approach results in a very personalized service to every client with ease of communication and top talent on every assignment. Furthermore, the efforts of each principal-in-charge are complemented by experienced project engineers and technical support personnel to form a well-integrated team effort.

Our services cover a broad spectrum of engineering from investigation and feasibility reports to design, construction administration, and construction observation.:

The following briefly highlights our firm's expertise in civil, sanitary, and environmental engineering:

WATER SUPPLY PROJECTS: Comprehensive master planning, hydraulic network analysis, appraisals, rate studies, water quality investigations, design of distribution and transmission facilities, storage reservoirs, pumping stations, wells, & water treatment plants.

WASTEWATER FACILITIES PROJECTS: Master plans of wastewater facilities, design of collection systems, trunk lines, lift stations, treatment plants, special structures, and water reclamation.

CONSTRUCTION MANAGEMENT AND CONSTRUCTION INSPECTION SERVICES: Resident engineer, construction observation, contract administration, cost estimating, scheduling, labor compliance and construction claims analysis and support.

CIVIL ENGINEERING: FEASIBILITY STUDIES: Site grading plans, street plans, utility plans, water distribution systems, sewer systems, and drainage facilities.

FLOOD CONTROL AND DRAINAGE PROJECTS: Master plans of flood control and drainage facilities, flood plain studies, design of storm drains, channels, pumping stations, debris and retention basins, and special structures.

Many of our projects have received awards in the Civil Engineering and Water Agency Industries.

Our most recent awarded project is Crescenta Valley Water District Well # 2 at Ordunio Reservoir. This project used new water treatment technology and won multiple awards including: 4 Project of the Year Awards in 2019 from the Association of California Water Agencies, American Council of Engineering Companies, American Society of Civil Engineers, and the American Public Works Association.

The following is a list of selected clients SA Associates has worked with:

Partial Client List - SA Associates

JOHN ROBINSON CONSULTING, INC. – ROLE: SUBCONSULTANT QA/QC

John Robinson Consulting, Inc.
1055 E. Colorado Boulevard, Suite 500
Pasadena, CA 91106
626.375.9389
jrobinson@johnrobinsonconsulting.com

John Robinson Consulting, Inc. (JR Consulting) firm was established in May 2013 as an S Corporation and is certified as a Small Business Enterprise (SBE) by the Metropolitan Water District of Southern California. He has over 25 years of consulting and management experience for cities, special districts, water districts, and private and industrial clients. ***SA Associates has worked with John Robinson Consulting for over 15 years.***

JRC Project Team leverages their knowledge to identify grants, work with their client staff to secure those grants, and finally administer the funding. Effective, full-circle strategies like this are key to obtaining the largest possible grant award funding.

As a grant and design consultant, John has been responsible for budgeting and management of a \$120 million recycled water program that received \$80 million from the CA State Water Resources Control Board, water enterprises, Capital Improvement Programs, fund administration and formation of diverse types of assessment

JRC'S overall water experience with clients, funding agencies and regulatory agencies is unmatched in Southern California. JRC has established relationships with funding agencies including but not limited to:

- California Energy Commission
- California Department of Water Resources
- California Public Utilities Commission
- FEMA/Cal Office of Emergency Service Pre-Disaster Mitigation and Hazard Mitigation Planning
- Metropolitan Water District of Southern California
- State Water Resources Control Board - Division of Financial Assistance
- US Environmental Protection Agency
- US Bureau of Reclamation

SECTION II: QUALIFICATIONS AND EXPERIENCE OF THE CONSULTANT'S PERSONNEL

TEAM QUALIFICATIONS

SA Associates has overseen the preparation of over 35 UWMPs since 1990. Our current experience also benefits your City as we are familiar with the changes to the water code (SB7x7, AB1668, and SB606) and how it relates to the preparation of 2020 UWMPs. **We prepared fourteen 2015 UWMPs. DWR had no significant comments on the 2015 UWMPs we prepared in terms of submittal/reporting requirements.** We are currently preparing five UWMPs for 2020 and were recently awarded the 2020 UWMP for the San Gabriel Valley Municipal Water District.

Our team composed of SA Associates (Shahnawaz Ahmad, Jorge Lovo, Adam Roesch, Phong Tran) supplemented by subconsultant firm John Robinson Consulting, Inc., form a well-rounded experienced team for the City of Huntington Park's project. As a team we have or are working together on the City of Torrance UWMP, as well as the projects mentioned in the previous paragraph for the Foothill Municipal Water District.

Individual team members bring experience ranging from 7 to over 25 years specifically in water projects, design, construction management, research and of course UWMPs. Specific role assignments and detailed project experience are in Section IV: Proposed Personnel of this submittal.

Below is a summary:

Shahnawaz Ahmad, PE, QSD – Project Manager and primary contact for the City of Huntington Park.

Mr. Ahmad established SA Associates in 1989. He is actively involved in projects and brings over 40 years of experience the majority in water related projects. He has personally directed over 35 UWMPs since 1990.

Jorge Lovo, PE, LEED GA, QSD/QSP – Engineer

Mr. Lovo has 16 years experience and currently focuses on water related projects such as water, wastewater, recycled water, storm water, and facilities which include conveyance, water quality and treatment, pump stations and storage.

Adam Roesch, EIT, CPSWQ, QSD/QSP – Engineer

Mr. Roesch has 9 years experience on environmental engineering, water quality, water mains, wells, storm water and street infrastructure projects. He is involved in our recent UWMPs.

Phong Tran – Engineer

Mr. Tran has worked with key team members and brings 7 years of experience on a range of projects including UWMPs, RRA, ERP, water mains, wells, storm water and street projects.

John Robinson, EIT – Subconsultant QA/QC

John Robinson has more than 25 years of experience in engineering consulting, project leadership project management and construction management. *Mr. Robinson has worked with SA Associates over 15 years.*

SECTION III: PROJECT APPROACH

We will prepare the 2020 Urban Water Management Plan (UWMP) in accordance with a work plan we have developed for preparing 2020 UWMPs utilizing our past experience, recent discussions with the Department of Water Resources (DWR) staff, participation in DWR's recent 2020 UWMP workshop, review of the Draft 2020 UWMP Guidebook released by DWR on September 2, 2020 and latest changes to the California Water Code enacted by Senate Bill No. 606 and Assembly Bill No. 1668. This work plan divides the project work into distinct categories, most of which can be performed simultaneously by different project team members to provide greater efficiency and value for the City of Huntington Park (City).

SCOPE OF WORK

The City's RFP provides a typical scope of services for this project. We will provide the services as described in the RFP and as supplemented below:

A. Preliminary Water System Analysis and Data Collection

This work item shall include, but not be limited to, gathering all data pertinent to the preparation of the 2020 UWMP, reviewing the 2015 UWMP, conducting a kick-off meeting (virtual), establishing internal contacts with City staff, establishing contacts with outside agencies necessary to obtain additional data and assistance as necessary, and conducting a review of all data received as it relates to the UWMP requirements.

B. Preparation of Draft Urban Water Management Plan/Progress Meetings with the City

This work item shall include the preparation of the 2020 UWMP per the latest requirements, and shall include the following content:

1. Describe the service area of the City. Include current and projected population in five-year increments over a 20-year period. This data will be provided by the City. The population forecast will utilize the DWR Population Tool included in the latest UWMP guidelines.
2. Identify and quantify the existing and planned sources of water available to the City over the same five-year increments as in Task B1 above.
3. Describe the groundwater basin from which the City extracts groundwater, and provide information such as the static pumping levels, water quality, extraction rate, total storage, and recharge. This data will be provided by the City.
4. Describe the reliability of the water supply and vulnerability to seasonal or climatic shortages, and provide data for an average water year, a single dry water year, and multiple dry water years.
5. Describe the opportunities for exchanges or transfers of water on a short-term or long-term basis.
6. Quantify past, current, and projected water use over the same five-year increments as in Task B1, and identify the uses among water use sectors, including:
 - a. Single-family residences
 - b. Multifamily
 - c. Commercial
 - d. Industrial
 - e. Institutional and governmental
 - f. Landscape
 - g. Sales to other agencies
 - h. Saline water intrusion barriers, groundwater recharge, or conjunctive use, or any combination
 - i. Agricultural
7. Describe the City's water demand management measures (DMMs). This description will include:
 - a. The planned efforts of the water agency in implementing each of the following DMM categories:
 - (1) Water Waste Prevention Ordinances
 - (2) Metering
 - (3) Conservation Pricing
 - (4) Public Education & Outreach
 - (5) Programs to assess and manage distribution system real loss
 - (6) Water conservation program coordination and staffing support
 - (7) Other DMMs
 - b. A schedule of implementation for all water demand management measures proposed or described in the Plan.

- c. A description of the methods that the City will use to evaluate the effectiveness of water demand management measures implemented or described under the Plan.
- d. An estimate, if available, of historical and existing conservation savings on water use within the City's service area, and the effect of such savings on the City's ability to further reduce demand.
- e. Water Losses
 - (1) Indicate the quantity of water losses, if not already shown in UWMP, using American Water Works Association (AWWA) calculation method, and show whether the City met the distribution loss standards enacted by the State Water Resources Control Board (SWRCB).
 - (2) Assist the City with the distribution system water loss audit report and submit to DWR along with the 2020 UWMP.
8. Evaluate each water demand management measure that is not currently being implemented or scheduled for implementation. In the course of the evaluation, first consideration will be given to water demand management measures, or combination of measures, that offer lower incremental costs than expanded or additional water supplies. This evaluation shall do the following:
 - a. Take into account economic and non-economic factors, including environmental, social, health, customer impact, and technological factors.
 - b. Include a cost-benefit analysis, identifying total benefits and total costs.
 - c. Include a description of funding available to implement any planned water supply project that would provide water at a higher unit cost.
 - d. Include a description of the City's legal authority to implement the measure and efforts to work with other relevant agencies to ensure the implementation of the measure and to share the cost of implementation.
9. Prepare a detailed description of expected future projects and programs, other than the demand management programs, that the City may implement to increase the amount of the water supply available to the City in average, single-dry, and multiple dry water years.
10. Describe the opportunities for development of desalinated water, including ocean water, brackish water, and ground water, as a long-term supply.
11. Provide the wholesale agency, Central Basin Municipal Water District (CBMWD), with water use projections in five-year increments to 20 years or as far as data is available.
12. Prepare an Urban Water Shortage Contingency analysis, which includes the following elements:
 - a. Six stages of action to be undertaken in response to water supply shortages, including up to greater than 50 percent reduction in water supply, and an outline of specific water supply conditions that are applicable to each stage.
 - b. An estimate of the minimum water supply available during each of the next five water years based on the driest five-year historic sequence for water supply.
 - c. Actions to be undertaken to prepare for, and implement during, a catastrophic interruption of water supplies, including a regional power outage, an earthquake, or other disaster.
 - d. Additional mandatory prohibitions against specific water use practices during water shortages, including prohibiting the use of potable water for street cleaning.
 - e. Consumption reduction methods in the most restrictive stages.
 - f. Penalties or charges for excessive use.
 - g. The revenue and expenditure impacts, and proposed measures to overcome those impacts.
 - h. A draft water shortage contingency resolution or ordinance.
 - i. A mechanism for determining actual reductions in water use pursuant to the urban water shortage contingency analysis.

We shall review the City's already adopted Water Shortage Contingency Plan (WSCP) and/or Resolutions/Ordinances pertaining to water shortage contingency regulations and work with the City to revise or cross-reference the existing shortage levels to the six standard shortage levels (10, 20, 30, 40, and 50 percent). Within the UWMP, we shall include a narrative description of the new Water Shortage Demand Assessment (WSDA) procedures necessary for City staff to complete the subsequent Annual Water Loss Audit. Furthermore, we shall outline shortage response actions aligning with each shortage level that the City will implement during a supply shortage. We will provide recommendations on handling the shortage (i.e., City's legal authorities to implement and enforce its shortage response actions, which may include statutory authorities, ordinances, resolutions, declaration of a water shortage emergency, and/or proclamation of a local emergency.

13. Evaluate how the City met the requirements of Water Conservation Act of 2009 (SBx7-7) to achieve a 20% reduction in urban per capita water use by December 31, 2020.
14. Provide information, to the extent available, on recycled water and its potential for use as a water source in the City's service area.
15. Include information, to the extent practicable, relating to the quality of existing sources of water available to the City over five-year increments over the next 20 years and the manner in which water quality affects water management strategies and supply reliability.
16. Provide an assessment of the reliability of the City's water service, which will include an assessment of the reliability of the City's water service to its' customers during normal, dry, and multiple dry water years. This water supply and demand assessment will compare the total water supply sources available to the City with the total projected water use over the next 20 years, in five-year increments, for a normal water year, a single dry water year, and multiple dry water years. This assessment will also discuss how desalinated water and recycled water could be credited towards usage beyond SBx7-7 restrictions.
17. Provide a climate change vulnerability assessment describing how the City will address the impacts of climate change in their water supplies and demands.
18. Include, to the extent available, an estimate of the amount of energy used for the following:
 - a. To extract or divert water supplies;
 - b. To convey water supplies to the water treatment plants or distribution system;
 - c. To treat water supplies;
 - d. To distribute water supplies through its distribution systems;
 - e. For treated water supplies in comparison to the amount used for nontreated water supplies;
 - f. To place water into or withdraw from storage; and
 - g. Any other energy-related information deemed appropriate
19. Include a seismic risk assessment and mitigation plan to assess the vulnerability of each of the various facilities of a water system and mitigate those vulnerabilities. According to the Water Code, an agency may comply with this requirement by submitting a copy of their most recent adopted local hazard mitigation plan or multihazard mitigation plan to address seismic risk. Work to be performed under this work item does not include development of said mitigation plan.
20. Include a summary and documentation of public outreach and coordination with agencies (i.e., documentation that the City has provided 60-day notification letters to encourage agencies to participate in the UWMP preparation process).
21. Prepare a report outlining the findings, conclusions, and recommended actions pursuant to the Urban Water Management Planning Act. Electronic copies (PDF and Word) of the Draft UWMP will be submitted to the City for review. Electronic copies (PDF and Word) on a flash drive of the Final UWMP, incorporating the City's comments, will be submitted to the City. In addition, electronic copies of the plan shall meet the requirements of Section 508 of the Rehabilitation Act.
22. Conduct eleven (11) biweekly progress meetings (virtual) with City staff. Any additional meetings shall be held at the City's request.

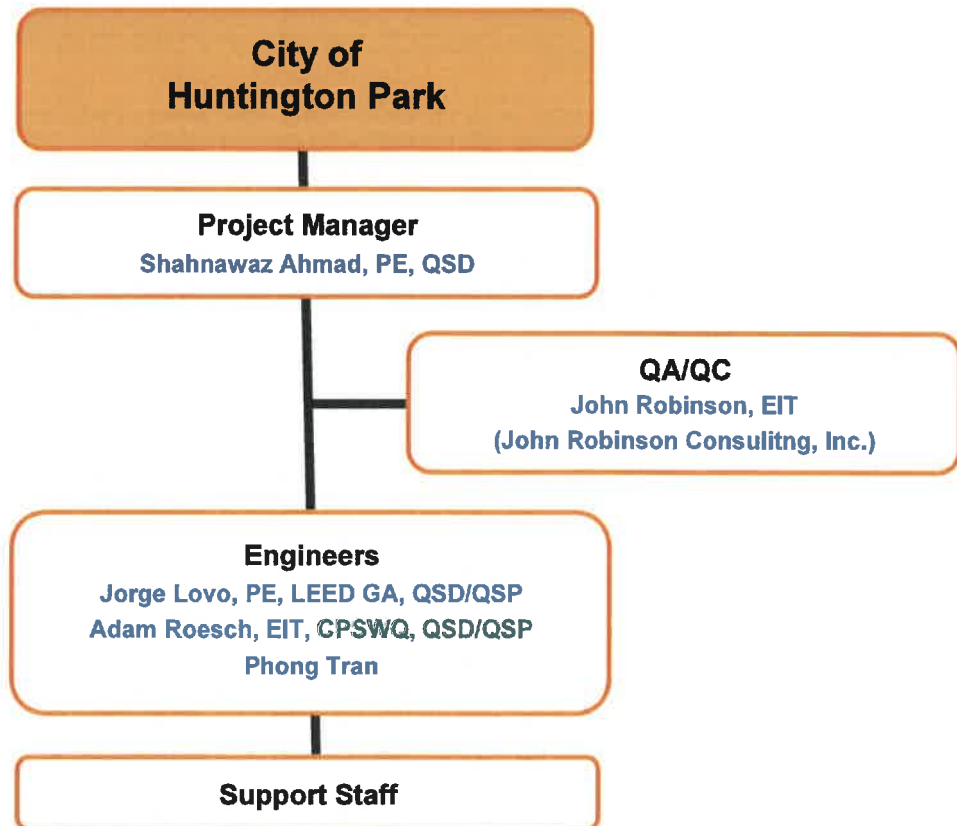

C. Finalization of UWMP/Coordination with Public/Submission to Department of Water Resources

1. Work to be performed under this work item shall include, but not be limited to, submission of the final UWMP to City staff, providing assistance to City staff in conducting a public hearing in May/June 2021, attending said public hearing, and providing assistance to City staff for the adoption of the 2020 UWMP. Once the 2020 UWMP is adopted, we will provide assistance in submitting the approved plan to DWR and entering water use data using the DWR Water Use Efficiency Data Tool (WUEdata). In addition to presenting the Final Draft UWMP, along with City staff, at the public hearing for adoption, we shall also make presentations in conjunction with City staff at up three (3) public hearings, which may include City Council, Planning Commission, and community outreach meetings.
2. After submittal to DWR, feedback is expected concerning the content of the City's UWMP as it relates to the legal requirements of the Water Code. It is anticipated that DWR may take up to four years to provide feedback on the City's UWMP. In the event that DWR does not find the report to be acceptable (Non-compliance), we will revise the 2020 UWMP to the satisfaction of the City and DWR, and we will submit electronic copies (PDF and Word) on a flash drive of the Final Revised UWMP to the City.

SECTION IV: PROPOSED PERSONNEL

PROJECT TEAM

The majority of the work will be conducted in the Arcadia office. The team will meet, as needed, with City Staff virtually or with COVID safety protocol as needed, especially with DWR.

STAFFING ROLES

The Project Manager, Mr. Shahnawaz Ahmad, is very competent, and has considerable experience in preparing Urban Water Management Plans. He either personally prepared or oversaw over 35 UWMPs since 1990. He is in contact with the DWR and has kept up to date on new developments, regulations and changes to the 2020 UWMP requirements. Under his guidance, the project will remain on schedule and within budget.

The Engineers, Mr. Lovo, Mr. Roesch, Mr. Tran, will assist and receive direction from Mr. Ahmad in doing research, obtaining statistics, and reports from the City to compile all the information necessary to produce a comprehensive, thorough and understandable report. Both of them have experience on various 2015 UWMP projects and are currently working on the 2020 UWMPs for Foothill Municipal Water District and member agencies, as well as recently awarded 2020 UWMP for the City of Torrance and San Gabriel Valley Municipal Water District.

Mr. Robinson has the experience necessary to review and give keen insight into the development of the report from start to finish from a QA/QC standpoint. He will assure that the project is accurate and of high quality and value.

Staff resumes are on the following pages.

SHAHNAWAZ AHMAD, P.E., QSD Project Manager

Mr. Ahmad established SA Associates in 1989, creating a civil engineering firm focused on city, county and municipal agencies. Mr. Ahmad has over 40 years of experience.

Mr. Ahmad serves as principal-in-charge and/or project manager for projects related to water and sewer system master planning; water resources; water supply and treatment; water reuse; wastewater collection, treatment, and disposal; storm drainage; design of water and wastewater treatment plants, water pipelines, sewers, pumping stations, wells, storage reservoirs, and water reclamation systems; studies of water and wastewater treatment processes; and industrial waste problems.

Mr. Ahmad has prepared or is currently preparing Urban Water Management Plans and Urban Water Shortage Contingency Plans as listed in the Project Experience table.

JORGE LOVO, P.E., LEED G.A., QSD/QSP Engineer

Mr. Lovo has over 19 years of experience designing and managing a variety of water-related projects and programs ranging from water, wastewater, recycled water, and storm water facilities including conveyance, water quality & treatment, pump stations, and storage. Providing technical leadership on small to large sized projects; supporting teams winning new business; interacting with clients, agencies and other consulting firms; preparing detailed engineering calculations, CAD drawings, estimates, master planning, facilities condition assessment, construction support, preparation of plans, specifications and others documents for permitting and construction.

PROJECT EXPERIENCE

2020 URBAN WATER MANAGEMENT PLANS

- Currently conducting research and preparing data for the 2020 Urban Water Management Plans for the following agencies:

- Crescenta Valley Water District
- Foothill Municipal Water District
- Lincoln Avenue Water Company
- Rubio Cañon Land and Water Assn.
- Valley Water Company

2015 URBAN WATER MANAGEMENT PLANS

- Prepared the 2015 Urban Water Management Plan for the City of Glendale.

CITY OF ALHAMBRA

- Prepared PS&E documents for the construction of the Main Street Sewer Replacement Project. The City of Alhambra's replaced approximately 1,900 linear feet of existing 8-inch sewer main in Main Street with 12-inch diameter extra strength vitrified clay pipe (VCP) sewer,

BOY SCOUTS OF AMERICA – GREATER LOS ANGELES AREA COUNCIL

Currently preparing plans, estimate, and specifications for the Trask Scout Reservation (Monrovia, CA) Water System Rehabilitation and Enhancement Project to satisfy stringent water treatment regulations and standards.

CENTRAL BASIN MUNICIPAL WATER DISTRICT

- Prepared plans, specifications, and cost estimates for The Recycled Water System Extension in the City of South Gate, CA. This Project consists of the construction of approximately 24,600 LF of recycled pipeline varying in diameter between 8" & 20". In addition, approximately 3,400 LF of pipeline will be constructed in California Avenue north from Southern Avenue to South Gate City Hall and then to South Gate High School. Shorter segments on Tweedy Blvd. (1,900 FL) and Sequoia Dr (495 LF) are also included. The proposed Recycled Water main will be crossing the Alameda Corridor (ACTA) at Southern Ave/Alameda St. and at Alameda St./Tweedy Blvd. This new system extension will serve South Gate Park, State Street Park, South Gate Middle School, Stanford Avenue Park, American Apparel, Koos Manufacturing Co., South Gate City Hall, South Gate High School, and South East High School.

CRESCENTA VALLEY WATER DISTRICT

- Conducted a preliminary feasibility study to use recycled water at Los Angeles County's Two-Strike Park.
- Prepared plans for Crescenta Valley Water District's Well No. 2 at Ordunio Reservoir. The project consists of a new 150 gpm submersible pump and motor for Well No. 2, onsite piping, a chlorine feed system using sodium hypochlorite (NAOCL), a nitrate removal treatment facility (by APT Water), upgrade of two existing booster pumps, installation of a masonry or pre-fabricated operations building, installation of a "carport" type building over concrete pad for the nitrate removal facility, water, sewer, and gas services, electrical and telemetry system (SCADA), pavement and other on-site improvements. This project received awards from American Council of Engineering Companies, American Public Works Association, American Society of Civil Engineers and placed 2nd for the Association for California Water Agencies Clair A. Hill Agency Award for Excellence.

ADAM ROESCH, E.I.T., CPSWQ, QSD/QSP Engineer

Mr. Roesch serves as an engineer for various projects, including water main, wells, sewer, storm, & street projects. Due to his knowledge of engineering principles, Mr. Roesch provides valuable engineering assistance to SA Associates. Also, due to his past and part-time experience in environmental engineering/water quality, Mr. Roesch provides valuable technical assistance, especially in areas related to NPDES permitting.

PROJECT EXPERIENCE

2020 URBAN WATER MANAGEMENT PLANS

- Currently conducting research and preparing data for the 2020 Urban Water Management Plans for the following agencies:

- Crescenta Valley Water District
- Foothill Municipal Water District
- Lincoln Avenue Water Company
- Rubio Cañon Land and Water Assn.
- City of Torrance
- Valley Water Company

2015 URBAN WATER MANAGEMENT PLANS

- Prepared the 2015 Urban Water Management Plans for the following agencies:

- City of Alhambra
- City of Azusa
- Crescenta Valley Water District
- Foothill Municipal Water District
- Lincoln Avenue Water Company
- City of Lomita
- Rubio Cañon Land & Water Assn
- City of San Fernando
- San Gabriel Valley Municipal Water Dist.
- City of Santa Monica
- City of Sierra Madre
- City of Torrance
- Valley Water Company

CITY OF ANAHEIM

- Prepared plans and specifications for Water Main Replacement Projects on to replace approximately 1,500 ft. of existing cast iron pipe (CIP) to polyvinyl chloride (PVC) pipe along various streets within Anaheim Hills.
- Prepared plans and specifications for the 8" Water Main Replacement in Country Glen Way for the replacement of 5,300 ft. of 6 & 8-inch ductile iron pipe and 6 & 8-inch polyvinyl chloride (PVC) pipe. Prepared the as-built plans.

CENTRAL BASIN MUNICIPAL WATER DISTRICT

- Provided design services for the construction of approximately 24,600 ft. of new 8" to 20" recycled water main located in segments of Southern Avenue, Alameda St., Hildreth Ave and California Ave. to South Gate City Hall, and State St.

CRESCENTA VALLEY WATER DISTRICT

- Assisted with preparing plans for Crescenta Valley Water District's Well No. 2 at Ordunio Reservoir. **This project received awards from American Council of Engineering Companies, American Public Works Association, American Society of Civil Engineers and placed 2nd for the Association for California Water Agencies Clair A. Hill Agency Award for Excellence.**

CITY OF MONTEREY PARK

- Plans and specifications for the water and sewer mains along Atlantic Boulevard. The proposed sewer main is from W. Hellman Avenue to Garvey Avenue with a length of approximately 2,700 LF and shall be 12" Vitrified Clay pipe (VCP).

CITY OF WHITTIER

- Comstock Water Main Improvement -Technical specifications for the removal and replacement of approximately 2,000 linear feet of 6-inch CIP with 12-inch ductile iron pipe, the repair of the existing concrete pavement.
- Designed the replacement of a water main along Beverly Boulevard between Palm Avenue and Citrus Avenue to replace an aging water main with an approximate length of 4,450 ft. The existing 6: cast iron main was replaced with 8" ductile iron pipe.

EDUCATION:

California State University, Long Beach, B.S. Civil Engineering

REGISTRATION:

Engineer in Training, California

Certified Professional in Storm Water Quality (CPSWQ), Certificate No. 1022

Qualified SWPPP Developer (QSD), Qualified SWPPP Practitioner (QSP), Certificate No. 25508

SOFTWARE:

Microsoft Office
Adobe
Autodesk (AutoCAD)

PHONG TRAN Engineer

Mr. Tran is an engineer who is currently pursuing a Masters Degree in Civil Engineering. He is well versed in the use of AutoCAD and GIS software. He has gained valuable experience by assisting the senior engineers with design calculations and researching information. He is participating in the assembly of proposals and statements of qualifications. He has worked on various projects, including water mains, storm, & street projects.

PROJECT EXPERIENCE

2020 URBAN WATER MANAGEMENT PLANS

Currently conducting research and preparing data for the 2020 Urban Water Management Plans for the following agencies:

- Crescenta Valley Water District
- Foothill Municipal Water District
- Lincoln Avenue Water Company
- Rubio Cañon Land and Water Assn.
- City of Torrance
- Valley Water Company

EDUCATION:

California State University, Long Beach, B.S. Civil Engineering
California State University, Pomona, Candidate for M.S. Civil Engineering with emphasis in Environmental and Water Resources
Anticipated 2020 completion

2015 URBAN WATER MANAGEMENT PLANS

Prepared the 2015 Urban Water Management Plans for the following agencies:

- City of Alhambra
- City of Azusa
- Crescenta Valley Water District
- Foothill Municipal Water District
- Lincoln Avenue Water Company
- City of Lomita
- Rubio Cañon Land & Water Assn
- City of San Fernando
- San Gabriel Valley Municipal Water Dist.
- City of Santa Monica
- City of Sierra Madre
- City of Torrance
- Valley Water Company

CITY OF ANAHEIM

Conducted utilities research and preparing plans for the Solomon and Baja Drives Water Main Replacement project. The work included replacement of approximately 1,557 ft. of corroded 6" & 8" cast iron pipe with 8" PVC pipe. The project also consisted of replacing fire hydrants, valves, service lines, and appurtenances.

CENTRAL BASIN MUNICIPAL WATER DISTRICT

Provided design services for the construction of approximately 24,600 ft. of new 8" to 20" recycled water main located in segments of Southern Avenue, Alameda St., Hildreth Ave and California Ave. to South Gate City Hall, and State St. ..

CRESCENTA VALLEY WATER DISTRICT

Assisted with preparing plans for Crescenta Valley Water District's Well No. 2 at Ordunio Reservoir. This project received awards from American Council of Engineering Companies, American Public Works Association, American Society of Civil Engineers and placed 2nd for the Association for California Water Agencies Clair A. Hill Agency Award for Excellence.

CITY OF TORRANCE

Van Ness Water Wells Transmission Water Main. Provided CAD Drafting, utility research and pipeline alignment of the 4-mile pipeline project.

Purche Avenue Storm Drain Design. Provided CAD drafting and utility research for an area storm drain system from 185th Street to Purche Avenue. This project was worked parallel with the Van Ness Wells Transmission Main.

CITY OF WHITTIER

Conducted utilities research and preparing plans for Comstock Avenue Water Replacement Project. The work includes replacement of approximately 2,000 ft. of 6" cast iron pipe with 12" ductile iron pipe.

Aided in the design for the replacement of a water main along Beverly Boulevard between Palm Avenue and Citrus Avenue to replace an aging water main with an approximate length of 4,450 ft. Replaced existing 6" cast iron water main with an 8" ductile iron pipe.

**JOHN ROBINSON, EIT – Principal John Robinson
Consulting Inc. (SBE)
Subconsultant – QA/QC**

John Robinson has more than 25 years of experience in engineering consulting, project leadership project management and construction management.

His strengths include water resource planning with a program approach. Mr. Robinson is experienced in risk and resilience assessments and emergency response plans. His experience encompasses a variety of wastewater engineering, water reclamation and planning projects.

PROJECT EXPERIENCE

CRESCENTA VALLEY WATER DISTRICT

- QA/QC Consultant for RRA, ERP and 2020 Urban Water Management Plan (UWMP).
- QA/QC Consultant for 2015 UWMP

SECTION V: QUALITY ASSURANCE / QUALITY CONTROL

For this project, we have designated a Quality Control person who will thoroughly review internal drafts of the UWMP. In addition, we utilize computerized Quality Control methods by using Adobe PDF software as opposed to hard copies to check for formatting and marginal errors normally detected after printing has taken place in order to avoid internal paper waste (i.e., being "green").

Our goal is to present our clients with a superior UWMP product and responsive service. To accomplish this, we apply a sound company policy that emphasizes technical strength, professional conduct, efficiency, and communication. We will accomplish our Quality Assurance goals by adhering to review and checking procedures that correspond to our basic philosophy on quality assurance.

Our basic philosophy is described below:

- The review and checking procedure must be a systematic approach with sufficient flexibility to be workable with a wide variety of projects. The timing and level of review must be consistent with project needs.
- Responsibility for the quality of the final product rests jointly with the Project Manager/Engineer and the QA/QC reviewer.
- Responsibility for scheduling review and checking rests with the Project Manager/Engineer.
- All project deliverables must be reviewed by an experienced individual not directly involved in the project, although general familiarity with the project and the client would be desirable.
- All project deliverables must be "signed off" by the checker following review and/or checking.

The Project Manager will conduct progress meetings with City staff (videoconferencing) to review project status. We will frequently check with the Department of Water Resources for any changes or updates to UWMP requirements, and we will utilize any such information to complete the UWMP. Overall project management will ensure all project tasks are completed and are within the budget and schedule.

Project Schedule

City of
Huntington Park

ID	Task Name	Duration	Start	Finish	2020	2021
1	PREPARATION OF 2020 UWMP	272 days	Wed 11/11/20	Thu 11/25/21	M	J
2	Kick-Off Meeting	1 day	Wed 11/11/20	Wed 11/11/20		
3	Biweekly Progress Meetings	101 days	Wed 12/9/20	Wed 4/28/21		
15	Data Collection/Analysis	2 wks	Thu 11/12/20	Wed 11/25/20		
16	Prepare & Submit Draft UWMP	13 wks	Thu 11/26/20	Wed 2/24/21		
17	City Review	3 wks	Thu 2/25/21	Wed 3/17/21		
18	Prepare & Submit Final Draft UWMP	7.5 wks	Thu 3/18/21	Mon 5/10/21		
19	City Review	2 wks	Mon 5/10/21	Mon 5/24/21		
20	60 Calendar Day Public Hearing Notification	8 wks	Tue 4/6/21	Mon 5/31/21		
21	Coordinate Public Hearing/Council Meeting	1 wk	Mon 5/24/21	Mon 5/31/21		
22	Public Hearings/Council Meetings (Solicit Input)	242 days	Wed 12/23/20	Thu 11/25/21		
26	Public Hearing/Council Meeting (Presentation/Adoption)	1 day	Tue 6/1/21	Tue 6/1/21		
27	Finalize UWMP/Submit to DWR	2 wks	Wed 6/2/21	Tue 6/15/21		

The project start date of November 11, 2020 shown in our project schedule above assumes the full execution of all contracts by the City Council in mid-November 2020 (with an Award of Contract on November 3, 2020 and a Notice to Proceed date of November 11, 2020 as mentioned in the RFP). If the Notice to Proceed is issued at a different date, we will update our schedule accordingly once a kick-off meeting date has been set.

Per the California Water Code, all UWMPs must be submitted to DWR no later than July 1, 2021. By finishing the Final Draft by mid-May 2021, the City will have sufficient time to hold the necessary meetings and adopt the plan before preparing a submittal to DWR.

The Data Collection/Analysis (Task ID 15) is the most critical path to ensure the UWMP is submitted to the City and to DWR by the mandated deadline. Required data/information for completing the UWMP will be collected from the City during this time. Moreover, data may also be collected/discussed during the Biweekly Progress Meetings (Task ID 3) concurrently with the task item to Prepare & Submit Draft UWMP (Task ID 16).

The dates shown on our project schedule assume the City is submitting their UWMP near or on the final due date established by the State. For this reason, our schedule may be expedited to provide the City with more sufficient time to prepare the submittal to DWR.

VIII: PROFESSIONAL SERVICES AGREEMENT

We have reviewed Attachment 2 - City's Standard Professional Services Agreement, contained in the Request for Proposal, and have the following comments:

RECITALS

... WHEREAS, CONSULTANT represents that it is fully qualified to perform such professional services by virtue of its experience and the training, education and ~~expertise~~ **skill** of its principals and employees; and ...

II. PERFORMANCE OF AGREEMENT

- 2.2 CONSULTANT REPRESENTATIVE: CONSULTANT hereby designates [WHO CONSULTANT DESIGNATES] to act as its representative for the performance of this Agreement (hereinafter, "CONSULTANT" Representative). CONSULTANT Representative shall have full authority to represent and act on behalf of the CONSULTANT for all purposes under this Agreement. CONSULTANT Representative or his designee shall supervise and direct the performance of the Work, using ~~his best~~ **professional** skill and attention ...

IV. INSURANCE

4.1 DUTY TO PROCURE AND MAINTAIN INSURANCE

- B. Automobile Liability Insurance: CONSULTANT shall procure and maintain Automobile Liability Insurance as broad as Insurance Services Office Form Number 0001 covering Automobile Liability, Code 1 (any auto). Such Automobile Liability Insurance shall have minimum limits of no less than One Million Dollars (\$1,000,000.00) per accident for Bodily Injury and property damage **or if CONSULTANT does not own or lease automobiles Hired and Non-Owned Automobile Liability shall be accepted.**

- 4.5 PRIMACY OF CONSULTANT'S INSURANCE: All policies of insurance **(except Professional Liability and Workers' Compensation)** provided by CONSULTANT shall be primary to any coverage available to the CITY of CITY's elected or appointed officials, officers, employees, agents or volunteers. ...

V. INDEMNIFICATION

- 5.1 The Parties agree that CITY and CITY'S selected and appointment officials, officers, employees, agents and volunteers (hereinafter, the "CITY Indemnitees") should, to the fullest extent permitted by law, be protected from any and all loss, injury, damage, ~~claim, lawsuit,~~ cost, expense, attorneys' fees, litigation costs, or any other cost arising out of or in any way related to this Agreement subject to Paragraph 5.2 and 5.3. Accordingly, the provisions of this indemnity provision are intended by the Parties to be interpreted and construed to provide the CITY indemnitees with the fullest protection **as set forth herein and to the extent** possible under the law. ...
- 5.2 Work of CONSULTANT's Design Professional Services: ~~Except for direct claims by the Parties against each other, the~~ **The** duty to indemnify, defend and hold harmless as set forth under this subsection shall apply to the negligence, recklessness or willful misconduct of any individual who qualifies as a "design professional" within the meaning of subsection (c)(2) of section 2782.8 of the California Civil Code in so far as such negligence, recklessness or willful misconduct occurs in the performance work or activities that must be performed by a "design professional." Subject to the limitation of the preceding sentence, to the fullest extent permitted by law, CONSULTANT shall ~~immediately defend~~ and indemnify and hold harmless

the CITY Indemnities, defined above, from and against any and all liability, loss, damage, expense, cost (including without limitation reasonable attorneys' fees, expert fees and all other costs and fees of litigation) ~~of every nature~~ **to the extent found to be** arising out of the negligence, recklessness, or willful misconduct of CONSULTANT or any of CONSULTANT's officers, employees, servants, agents, CONSULTANTS, subCONSULTANTS or authorized volunteers or any other person or entity ~~involved by, for, with or on behalf of~~ **for whom** CONSULTANT **is legally liable** in the performance of design professional services under this Agreement. The Parties understand and agree that the duty of CONSULTANT to indemnify, defend and hold harmless pursuant to the subsection **does not include an upfront** ~~includes the duty to defend as set forth in section 2778 of the California Civil Code.~~ CONSULTANT's obligation to indemnify **does not apply** ~~applies except~~ to the extent that it is finally adjudicated that the liability was caused by the active negligence or sole will misconduct of an indemnified party. If it is finally adjudicated that liability is caused by the comparative active negligence or willful misconduct of an indemnified party, then CONSULTANT's indemnification obligation shall be ~~reduced~~ in proportion to the established comparative liability.

- 5.3 Work of All Other Persons/Non-Design Professionals: ~~Except for direct claims by the Parties against each other and~~ as otherwise provided under Section 5.2 of this Article, above, to the fullest extent permitted by law, CONSULTANT shall indemnify, defend (with counsel of the CITY's choosing) and hold harmless the CITY Indemnitees from and again all claims, demands, lawsuits, defense costs, civil, penalties, expenses, causes of action, and judgments at law or in equity

VII.

MISCELLANEOUS PROVISIONS

- 7.13 ATTORNEYS' FEES: If either Party commences an action against the other Party, either legal, administrative or otherwise, arising out of in connection with this Agreement, the prevailing Party in such litigation shall be entitled to have and recover from the losing Party reasonable attorneys' fees and all other costs of such action **based upon CONSULTANT's determined percentage of fault as set forth in California Civil Code 2782.8 as it is written as of the date of this Agreement.**
