

June 1, 2019

Dear Valued Customer,

CR&R Environmental Services would like to thank you for allowing us to serve you. We are dedicated to providing a high quality waste and recycling experience for our customers. Over the past few months we have noticed unacceptable amounts of trash (contamination) in the recycling and green waste carts. We ask for your help and cooperation to improve our community's recycling practices.

**What is recyclable in the BLUE recycle cart:**

**Examples of contamination:**

**What is recyclable in the GREEN organics cart:**

**Examples of contamination:**

Please visit our website at [www.crrwasteservices.com](http://www.crrwasteservices.com) to download a residential service guide; additional guides are available at City Hall, 6550 Miles Ave, Huntington Park, CA 90255. The guide will provide greater detail about your services and how to properly sort material for collection.

If a cart is contaminated, we will offer the option for you to (1) clean the contamination and have us return to pick it up as recycling on your next collection day or (2) return to dump the cart as trash with an additional charge.

Again, thank you for your continued patronage, if you have any questions or need further assistance please contact us at 562.699.7600 or 562.968.1759.

Respectfully,

**CR&R Environmental Services**
